Foreword

Purposing to portray something of the simple faith which is the foundation of Juniata; the unselfish devotion which has moulded her; the happiness and loyalty which have characterized her Fiftieth Anniversary Year—with the belief that these must symbolize the Greater Juniata that is to be, the Junior Class offers this Jubilee Alfarata. — — —

Hail to Juniata

(Alma Mater)

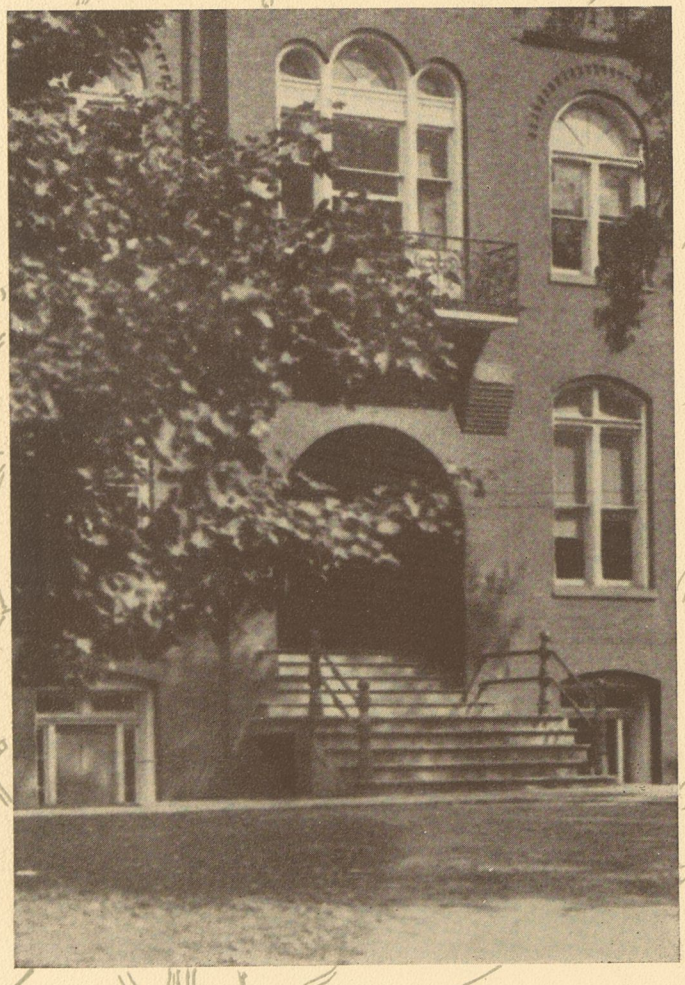

Let the choral anthem rise;
Hail to Juniata!
Shout her glories to the skies;
Hail to Juniata!
Hail the newly risen star,
Shedding radiance from afar,
Pride of Pennsylvania,
Hail to Juniata!

'Mid the everlasting hills;
Hail to Juniata!
Blest with cool and shady rills;
Hail to Juniata!
Breathing pure and mountain air,
Fragrant flowers everywhere—
What wonders we can do and dare;
Hail to Juniata!

Let us then with loud acclaim;
Hail to Juniata!
Give honor to her spotless name;
Hail to Juniata!
Should e'er the laurel wreath be mine;
I'll lay the honor at thy shrine.
Our hearts, our hopes, our prayers are thine,
Hail to Juniata!

ALFARATA

1876 — 1926

The Legend of Alfarata

HIGH, rugged cliffs, gentle slopes, miles of heavy forests;
Tall, waving birches circling clear, calm pools;
Narrow paths o'er soft green carpets—steep stairs of rock
That lead to highest peaks.
Like a blue, blue ribbon, its blueness more ineffable
Than the skies and flowers of late vanished April,
Coiled in a spiral thread, flowed the Juniata
Midst the beauty of the cliffs and rocks and waters,
Dwelled Black Cloud, by many wars made famous—
Chieftain of his tribe; yet holding as his greatest prize
His daughter Alfarata. Beloved in all the valley
And promised by her father to the bravest warrior.

Lit up by pale, gold stars set in an azure heaven,
The moon, a magic jewel, swung from threads of amber
Beside the silver of the river, Alfarata lay a-dreaming.
Still in the dusk she lay, still in the spangled darkness—
Very still; and let her spirit have its way.
Only her dreams come forth, shy, beautiful
Softly, delicately bewildered and bewildering
To wander by enchantment thru the twilight.

Beside her gleamed the starry stream.
"Surely this night the waters will be troubled,
Surely this night there will be an answering."
Yet when the waters trembled—there came
Approaching her a pale-face, form so stately,
That in her tribe did not exist the shadow of his likeness.
She leaped up; but the stranger stayed her—
Far had he journeyed, o'er many lands and waters
To find the dream—that now stood before him.
There gleaming, glowing, lit up by amber starlight
She darted into his heart. Dreams of her, so shy, bewildering,
Found their answer and wandered no more alone.

Then e'en before the last bird call was ended
Down the silver Juniata sped the light canoe;
Carrying a wild winged desire in a blazing sun of love,
Moving to the sound of immemorial waters,
They sped upon their terrific way.
By noon there seemed no more of danger.
And they stopped to rest.
But sharp and chill thru the still air, asearch for Alfarata,
Echoed the war-cry of Black Cloud.
As quickly as he spied them
As quickly at their side sped death.
Ah! bright fierce pleasure,
One wild, worshipful hour of ghostly joyance.

* * *

Still murmur on the pines,
And whispering hemlocks breathe this Legend still;
When night winds sway their branches—
Laced thru and thru.
Laced with star-rays thru and thru.

History of the Alfarata

IN ALL progress there must be pioneers; some one must venture into the unknown. Since Juniata's record is one of steady progress, we expect to find the pioneer spirit in many individuals and in every class. Nor are we disappointed.

The Class of 1915 must have had a large share of this spirit for to it belongs the honor of embarking upon a new literary venture. It was this class which sponsored the pioneer Alfarata. That we may grasp the spirit of this effort, a quotation from the first bit of Alfarata advertising is appended:

"Following the custom of similar institutions, we, the Senior classes of 1915, are at work on our first college annual, 'The Alfarata'. We are setting forth in photograph, narrative, cartoon and verse those characteristics of the life at Juniata, as we know it and as you remember it; its fond traditions, its present activities, its hopes for the future; all that's good and some that's bad."

This has been the controlling idea back of every subsequent Alfarata. Volume I was published by the Senior classes, contrary to the present custom. The College Seniors edited the book, assisted by the Academy Senior class. No annual was published in 1916, but the following year the 1917 Alfarata was issued with College and Academy Seniors again co-operating. Three years intervened before Volume III appeared; this book was the 1921 Alfarata and was issued by the Junior class. Ever since 1921 an annual, preserving the story of the school year, has been published by the Juniors.

The standard set in the 1915 Alfarata was high, yet each succeeding class has endeavored to surpass in excellence all previous issues. One may not say which book was superior, for into each has gone the best in talent and effort of which the producing class was capable. Therefore, each Alfarata represents the supreme achievement of one class and thus no basis for comparison exists.

"The patronage of all is solicited. Special attention given to those desiring to teach. For further particulars address,

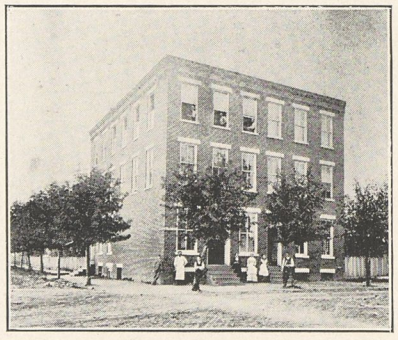

J. M. Zuck, Box 50, Huntingdon, Pennsylvania."

The above appeared as an advertisement in "The Pilgrim" April 4, 1876. This notice was the result of a long-felt need on the part of a number of devout men for a school that would meet the needs of young men and women of the Brethren Church. The guiding spirits back of the proposed enterprise were Dr. Andrew B. Brumbaugh, Henry B. Brumbaugh, and John B. Brumbaugh. Each of the three agreed to contribute in a definite manner to make possible the establishment of the school. Henry Brumbaugh promised to furnish the building, a large unoccupied room on the second floor of his printing plant; John Brumbaugh offered to give board, room and washing for the teacher free for one year; the contribution of Dr. A. B. Brumbaugh, "to furnish the students and some furniture." Through the correspondence of J. B. Brumbaugh a teacher was secured—Jacob M. Zuck, of Clay Lick, Pennsylvania.

The first session of the Huntingdon Normal School was held April 17, 1876, in "The Pilgrim" Building, with Professor Zuck in charge, and three students enrolled. This small beginning would have discouraged many men of less vision, yet "the work of the opening day was no less conscientiously done than if a score or more had gathered." Seventeen students had enrolled by the end of the first term. As the ability of Professor Zuck became more widely known, the school continued to increase in numbers until it became necessary to find larger quarters. Accordingly, in February, 1877, the institution was established in the Burchinell Building, one block down the street, where it remained until Founders' Hall was ready for occupancy.

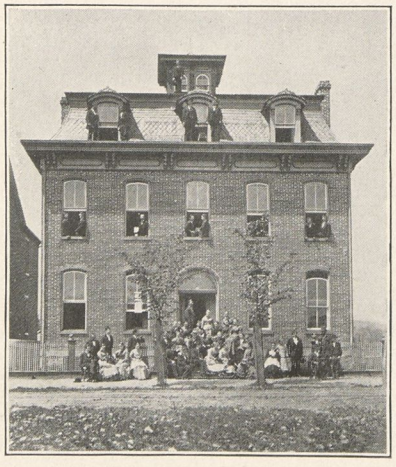

:-: JUNIATA IN THE MAKING :-:

At a council meeting of the Brethren, February 3, 1877, the first board of trustees was elected and it was this group of men who carried the school through the trying days of its early history. These names are an inseparable part of Juniata College for it was only through the self sacrifice and courage of these men that the present institution is possible. The first six trustees were: James Quinter, H. B. Brumbaugh, A. B. Brumbaugh, J. M. Zuck, J. B. Brumbaugh, and J. W. Beer. The number of trustees specified in the charter was fifteen and this number was augmented to twenty-one at a later period. The Board of Trustees has had but three presidents since its organization: H. B. Brumbaugh served in that capacity until 1919, Dr. M. G. Brumbaugh from 1919 until 1925, and Henry Gibbel from 1925 to the present time.

"PILGRIM" BUILDING

In the early days of the school, most of the students boarded in private families. A few, however, because of financial strain, cooked in the kitchen of the school building and roomed on the third floor. In time, for the sake of economy, a number of the boys and girls formed a boarding club; the pro rata weekly assessment was very small and the menus served, extremely simple. It is difficult to realize, in these days of comfort and plenty, the hardships that were suffered by that little band of courageous students. Shortly before Christmas, 1877, smallpox became epidemic in Huntingdon and the existence of the school was threatened for a time. Most of the students who lived within a convenient distance returned to their homes; but a number of boys and girls from distant states felt that if they were to go home they would, in all probability, be unable to return. The girls found homes in private families and the boys, after consultation with Professor Zuck and Professor J. H. Brumbaugh, decided to go to the mountains. The place selected as a refuge was known as "The Forge". For almost two months three boys remained there as exiles, maintaining regular hours of study, and preserving through the darkest periods of its history the educational institution that was to become Juniata College.

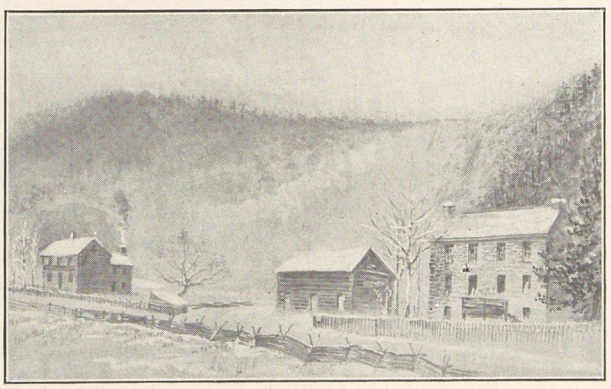

BURCHINELL BUILDING

By April 1, 1878, all the members of the faculty were back at the school, the majority of the former students had returned and a number of new students were enrolled. This encouraging revival seemed to awaken additional interest in the town itself. Citizens of Huntingdon donated a square of ground at Seventeenth and Moore Streets and the contract for Foun-

ders Hall was let. Work proceeded rapidly and on Monday, April 7, 1879, the new building, the first of the group on College Hill, was occupied.

The first class graduated in the Normal English course numbered three students: Phoebe R. Norris, Linnie Bosserman, and Gaius M. Brumbaugh, now Dr. Brumbaugh of Washington, D. C. This commencement was held July 10, 1879, at a time when all connected with the growing institution were saddened by the death of its principal, Jacob M. Zuck. Just two months previous, the teacher, beloved by all who knew him, passed away a victim of pneumonia. His influence was felt long after he laid down his work and Juniata College stands today as a memorial to his untiring zeal.

Professor Zuck was succeeded as principal by Professor J. H. Brumbaugh, who continued in that office until 1893, except for two years when Prof. W. J. Swigart and Prof. L. S. Shimmel acted in that capacity. It was during Professor Brumbaugh's principalship that the Normal school idea, as begun by Professor Zuck, was worked out and the Normal English course brought to its high efficiency as a teacher-training agency. The Normal course had also a value beyond its technical work, in that it gave a substantial foundation to men and women for the varied activities of life. The graduates of those days, with their success in life, bear testimony to the value of the training they received. During this period the school experienced a continuous growth in number of students enrolled, in faculty, and in buildings and equipment. It was rapidly leaving the experimental stage and becoming a stable institution.

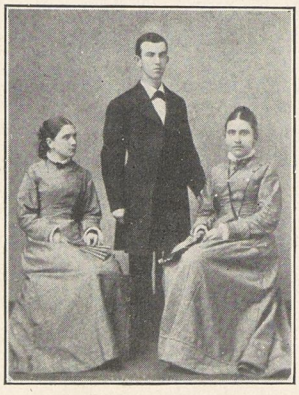

THE OLD FORGE

In 1879, Elder James Quinter was elected the first president of the Brethren's Normal College—a position which was then honorary. He continued in this office until his death in 1888. He was succeeded by Elder H. B. Brumbaugh who served also, in an honorary relationship, until 1893 when Dr. Martin G. Brumbaugh assumed the duties of that office. At this time the presidency became an active office and the position of principal was abolished. Dr. M. G. Brumbaugh continued to serve actively until 1899 when he was called to the University of Pennsylvania as Professor of Pedagogy. Dr. I. Harvey Brumbaugh served as acting president until 1911, at which time he was elected to the presidency, remaining in that office until 1924.

These years were marked by the development of new courses of study and departments, as well as by the increase of buildings, library and laboratories. For several years there had been a feeling that the college should expand its work into the field of higher learning. The so-called college course, which had been outlined in the catalogue as evidence of this purpose, had its first graduate in 1897. The college grew slowly but surely. The development of the College proper and its

professonal recognition in the educational world was the distinctive contribution of I. Harvey Brumbaugh. There were thirty-eight college graduates in 1924, which year also marked the closing of the Academy and the time when the institution definitely restricted its field to undergraduate college training.

THE FIRST CLASS

Dr. Martin G. Brumbaugh assumed the position of president of the college following the resignation of Dr. I. Harvey Brumbaugh in 1924. He was inaugurated into that office in January, 1925, and under his direction a new era of progress is being instituted. His aim for Juniata is that she shall grow until the student body has reached the five hundred mark.

The school which had been announced under the name, Normal Select School, soon changed its title to the Brethren's Normal School and Collegiate Institute. In 1881, the name was again altered and became, Brethren's Normal College. This designation was in use until 1893 when a final change was made and the school has been known since then as Juniata College. The rechartering of the institution under its present name was completed in 1896. Juniata College is a member of the Association of Colleges and Preparatory Schools of the Middle States and Maryland. It is recognized by the Pennsylvania State Council of Education.

The history of Juniata College has been a record of struggle and hardship. Today as never before there is felt a need for additional buildings and more adequate equipment—the struggle is not ended. Out of the years has come an institution that is more than a college—it is rather a standard of life. Christian manhood and womanhood have been placed even higher than scholarship although the latter has not been neglected. The ideal of a life of service has been set before every boy and girl who has entered the doors of Juniata. The response to the inspiration received here may be seen all over the world, measured in the most valuable of all coin—the gold of lives of service for God and Humanity.

FOUNDERS HALL

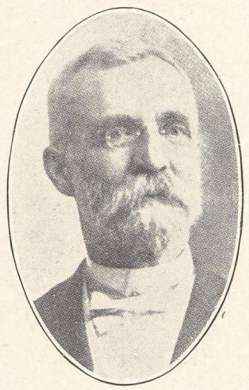

"THE MEN WHO MADE JUNIATA"

A number of forces have worked together to insure the success of Juniata College, but not the least of these has been the influence of the devoted Christian men who have given freely of their time and talents through the years. It is impossible to give an account of all those who have helped in the development of this institution, yet there are certain outstanding names in the story of Juniata's progress and to these due honor must be given.

:-: JUNIATA IN THE MAKING :-:

The quotations in the following paragraphs are from personal reminiscences supplied through the kindness of Dr. M. G. Brumbaugh.

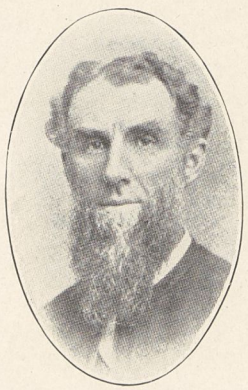

The name of Dr. A. B. Brumbaugh has been associated with the college from its inception. It was he "who first set up a demand for a school in Huntingdon and who never lost vital touch with it. He was, until his death, secretary of the Board of Trustees. He was a lecturer in hygiene and physiology and a keen critic of those that did not sense the gospel of clean living. He was the soul of frankness. I never had a more severe critic nor a kindlier one. Once over the phone I asked him what to do for a sore throat—I was in pain. He answered, 'Gargle with a solution of sodium chloride.' I said, 'Can I get that in the laboratory?' He replied, 'Salt, Smarty!' and hung up the receiver. The joke was on me for I was then teaching chemistry."

A. B. BRUMBAUGH

Another who was intimately related to the institution from the very start was Elder H. B. Brumbaugh —"the balance wheel, the regulator, the calm, cool, sane adviser who was never excited. His judgment was sound. His devotion was saint-like. The college owes a large debt of gratitude to him, larger than one realizes. When I plead for a stack room to hold our books, having outgrown the west room, first floor, Students' Hall, he said, 'Well, if you will pay half the cost, I will pay the other half and we will build it.' This was done. The room is still in use north of Students' Hall."

In October, 1876, Elder James Quinter took up his residence in Huntingdon and at once became identified with the workings of the institution started just a few months previously. His name and life gave great influence to the school because he was revered wherever known. "James Quinter was the saintly soul whose sermons and chapel admonitions gave guidance to all. His death on his knees in prayer at Annual Meeting was a tragic loss to the College and Church but a glorified triumph to him."

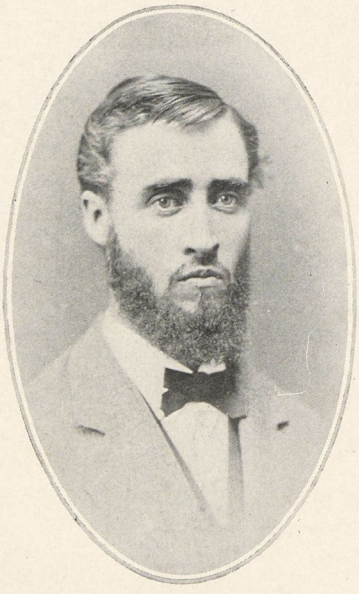

H. B. BRUMBAUGH

Closely associated with Dr. A. B. Brumbaugh and Elder H. B. Brumbaugh in the founding of Juniata College was Elder J. B. Brumbaugh. He gave much of his time unselfishly in the early days of the institution, and it was largely through his efforts that Professor Zuck identified himself with the new enterprise. He spent much of his time in the field as solicitor for the school and after the organization of the Bible Department he taught regularly therein.

When God has a certain work He finds the man to do it. When the need arose for a consecrated teacher to help in the task of starting a school in Huntingdon the right man was ready for the work. Professor Zuck whose experience as principal of several high schools, together with his training at Millersville and elsewhere, fitted him especially for the position to which he was called, came to Huntingdon as the teacher for the proposed Normal

School. "Jacob Zuck was a small man physically, but great in scholarship, piety and sacrifice. He was so anxious, in 1879, to get into Founders Hall that he moved in before the plastering and paint were dry—contracted pneumonia and died in the home of J. B. and Ella Brumbaugh on Washington Street. He had a keen sense of humor—quiet but definite. One Saturday at Chapel I was to deliver my first speech. I grew panicky and walked home. Came back Sunday night. On Monday in Chapel with no word of warning, he said, 'Martin was away on Saturday when he was to deliver his address. We will hear him now.' I did it—it was a fine lesson to me." Those who knew Professor Zuck intimately testify to his earnestness and great consecration. It is on the foundation of such lives of service that Juniata was built.

PROF. J. M. ZUCK

Martin Grove Brumbaugh has had a definite part in the development of Juniata College. In addition to his service here, he has been highly honored by this State and by the nation. He has made a notable place for himself in the educational life of the State. The honors that have come to him have been honors for Juniata too, for it was in the Huntingdon Normal School that he received his first advanced training. In 1893, Dr. Brumbaugh first became president of the college continuing in that office until 1911, but as a non-resident during the later years of this period. For a number of years he was called from one big task to another—Professor of Pedagogy in the University of Pennsylvania, Commissioner of Education in Porto Rico, Governor of the Commonwealth of Pennsylvania—a few of the positions he has so honorably filled. Now he is back at Juniata, and has been since 1925, as the beloved president of the institution which owes so much to his unselfish service. "Dr. M. G." has made many friends both for himself and the college, and Juniata is proud to call him her president.

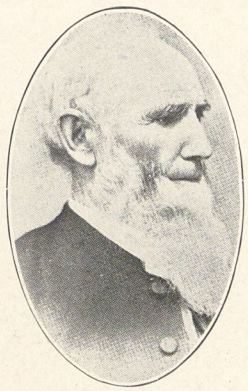

There are many others, just as consecrated, just as loyal, just as unselfish, who have given unsparingly of time, talent and money; it is not possible to mention all of them. All honor is due to every one who had a part in the success which has come to Juniata. Nor will anyone forget the contributions of such men as W. J. Swigart, David Emmert, William Beery, Joseph E. Saylor, C. C. Ellis and others.

BUILDINGS AND EQUIPMENT

The first session of the Normal Select School was held in a small room on the second floor of "The Pilgrim" Building. This room was only sixteen feet long, and twelve feet wide. Its furniture was meagre in the extreme—a long pine table, a pine bookcase, with a few books, a long blackboard on stilts leaning against the wall, a round backed chair and several straight backed chairs, the teacher's work table and a map of the world. When these quarters became cramped the school was moved to the Burchinell Building. By the end of the second year this building was outgrown and work was started on the new building, located on the hill.

:-: JUNIATA IN THE MAKING :-:

Founders Hall was finished and occupied in 1879. The arrangement of this building was vastly different than at present. In the basement or first floor, were the kitchen and dining room and a few dormitory rooms. On the second floor the chapel, office and several class rooms were located. At the front of the third floor were class rooms and the book store; the girls' rooms were above the chapel. On the fourth floor were the boys' dormitory rooms. The building was heated by stoves, some of which were placed in the hall to give heat to the dormitory rooms. Kerosene lamps provided illumination.

ELDER JAMES QUINTER

Ladies' Hall, which was later designated as Brumbaugh Hall, "in honor of the Brumbaugh group of Juniata's benefactors", was added in 1893. The next addition was Students' Hall which was erected in 1895. Oneida Hall was completed in the spring of 1898. As athletics assumed a more important place in the life of Juniata, the Athletic Field was laid out to provide suitable space for games and track events. This addition to the campus came in 1899 and a grandstand was erected in the northeast corner of the field in 1914. While the Athletic Field filled a vital need, yet other provision was necessary to meet the demand for adequate physical training. Therefore, a gymnasium, which came as a result of student movement, was provided in 1901.

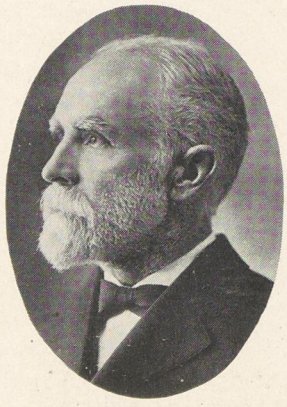

From the very beginning emphasis was placed upon the value of a library even though the number of volumes was small. The nucleus of the present collection was the modest, but well selected library of Professor Zuck. After moving into Founders Hall, a case, with glass doors, containing between thirty and forty volumes was placed in the hall on the third floor for the use of the girls. An unabridged dictionary was put on a small table beside the case. Similar equipment was arranged on the fourth floor for the boys. Later the present faculty room (number 50) became the library and reading room. After these quarters were outgrown room "L" in Students' Hall became the reading room and the present typing room was built for a stack room. The final move was made to the present Library Building, which was erected through the generosity of Andrew Carnegie, in 1907. This building adds much to the appearance of the College group, being a beautifully designed modification of classic Greek architecture.

J. B. BRUMBAUGH

The small library of the early days was enlarged in 1899 by the gift of the Cassel Collection, comprising some fifteen thousand volumes and pamphlets, which was presented by Dr. M. G. Brumbaugh. The Quinter Library was also a valuable addition to the Library, containing as it does about one thousand books. This collection was presented to the College by the heirs of Elder James Quinter. From time to time

the Library has been enriched by individual gifts and books have been purchased regularly, until at present there are more than forty-five thousand volumes at the disposal of the student body. The modest beginning of fifty years ago has developed into the splendid library of today—in many respects the most valuable possession of the institution.

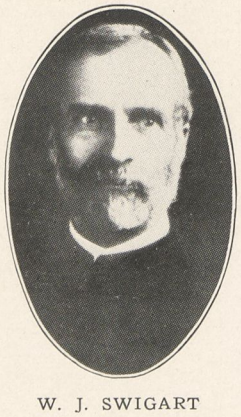

J. H. BRUMBAUGH

The most distinctive of the College buildings in appearance is the Stone Church, which is designed in English Chapel style. It was built and dedicated in 1910; Science Hall, the most recent of the group, was finished in 1916; the design is modern American. The Music Department is housed in temporary quarters in a large dwelling, a block from the principal group of buildings.

Another type of equipment that is necessary to a modern college is the laboratory and its apparatus. No such equipment was available to the students in the early days of Juniata College. The first chemical laboratory and a small inadequate physics laboratory were located in the basement of Students' Hall. No adequate laboratories were equipped until after the erection of Science Hall in 1916. Now there are four science departments with well-equipped laboratories: Physics, Chemistry, Biology and Home Economics. Modern apparatus is supplied and additions to the equipment are continually being made.

DEPARTMENTS AND COURSES

In no phase of the growth of Juniata has a more complete change taken place than in the curricula offered to students. The school was very modest in its inception, its chief aim being the training of those who wished to enter the teaching profession. Today the requisite training for teachers is offered, but students also receive preparation for many other vocations.

W. J. SWIGART

According to the first catalogue, issued in 1878, four departments were organized: the Drawing Department, offering instruction in Artistic and Mechanical Drawing; the Music Department, designed to give training in vocal and instrumental music, either piano or organ; the Teachers' Department which had as its forte the training of those who wished to become teachers; and the Literary Department which offered courses in English and American Literature. This announcement represents a considerable degree of expansion over the first year of the school.

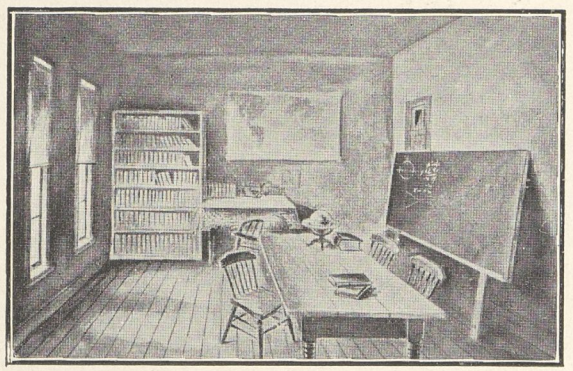

In the second catalogue additional courses were offered. The Normal English Course was the most popular, being planned to give training similar to the elementary course in the State Normal schools. At the completion of this course, requiring two years, the degree of "Bachelor in English" was

conferred. A Business Course, one in Elocution, and a Scientific Course were also announced.

From that time until the present the process of expansion has steadily continued. The Bible Department was first announced in the catalogue of 1888-89 in response to a demand for specific training for Christian workers. The Business course was later expanded into a complete department advertised as Juniata Business College—this is the first record of the name Juniata in connection with the Normal School, the announcement appearing in 1891.

The Academy was organized in 1901 to meet the need for a department that would prepare students for college in a way that the Normal English Course did not. In time it came to have more students than the Normal English department. The Academy was separated from the College, as far as management was concerned, in 1920. It was discontinued by a vote of the Trustees in 1924 after the College had become firmly established.

The Divinity Course was authorized by the Trustees in 1909, its object being the preparation of students for the Christian ministry. The following year the School of Education was organized as a continuation of the teacher training work of the former Normal English Course. In 1915, a Home Economics Department with a two year curriculum was established. The demand for a course in General Science was answered by the announcement of a four year curriculum, leading to the degree of Bachelor of Science. This department was organized in 1919 and the following year the work in Home Economics was extended to a four year course leading to the degree of Bachelor of Science in Home Economics.

THE FIRST SCHOOLROOM, 1876

A Department of Commerce and Finance, with a four year curriculum was introduced in 1923, and a four year course in Education was authorized the same year. Each of these departments offers the Bachelor of Science degree. A four year curriculum in Music leading to the degree of Bachelor of Music was offered first in the year 1924-25. In addition, a two year course in Public School Music is offered, without degree.

Juniata offers thorough training for the various vocations to young people who will avail themselves of her opportunities. The founders laid a firm foundation and those who followed them have builded worthily thereupon.

PUBLICATIONS

There are two types of literature produced at Juniata: the official publications of the institution, prepared by the school executives; and student publications edited by the student body. The former type has appeared from time to time ever since the beginning of the school, but the latter is of comparatively recent origin.

:-: JUNIATA IN THE MAKING :-:

The chief publication issued by the School authorities is the Juniata College Bulletin, but before its appearance there were the Annual Catalogues, the first number of which was published in 1878. The Catalogue number of "The Bulletin" contains the register of Faculty and students, calendar for the year, outline of the courses offered, and other information of interest to prospective students. The other issues carry reports of the President and Treasurer, addresses, such as inaugual and commencement addresses, and reports of especial interest to the Brethren. Beside the Bulletin, numerous pamphlets and folders have been published, as occasion required, to advertise various College projects.

The first student "publication" was not a printed piece of literature but it was none the less the result of student effort and may be regarded as the actual beginning of the present day publications. In the first literary society on the campus,

FACULTY (1901)

an editor was elected with the other officers. It was his duty to issue the weekly copy of "The Record". This paper was a single copy, written in ink and read as a feature of the weekly meetings of the Eclectric Literary Society. It contained an essay or discussion of some topic of interest and a few jokes. The first number of this paper appeared in 1876, shortly after the organization of the society, and it continued until 1890.

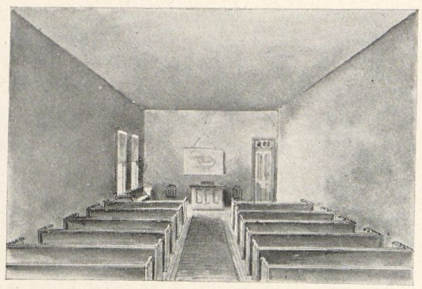

The "Juniata Echo" although usually considered a student publication, was issued for a number of years by a faculty committee. It appeared as a quarterly from 1891 until 1896 at which time it became a monthly magazine. The first editor of "The Echo" was Dr. A. B. Brumbaugh. He was later assisted by I. Harvey Brumbaugh and Carman C. Johnson as associate editors. In December, 1898, students were added to the editorial staff as associate editors and were gradually

given more of the work until the faculty editor-in-chief became merely a supervising editor. In 1914, the student body assumed entire control of the editorial department, although a faculty business manager was retained. The last number of "The Echo" appeared in September, 1924. In the early part of November, the same year, the first issue of the new weekly "The Juniatian" appeared. This paper is edited and manged by the student body.

Another type of student publication which is to be found at all progressive colleges is the school annual. The first publication of this type at Juniata, a precursor of the "Alfarata", was issued by the Class of 1897. This book contains an account of the Class Day exercises of the class, the class song, the prophecy, and orations by various members of the class. The name of the book is "Leaves of Industry"; it was dedicated to Juniata College. It is interesting to note that the first student to receive an A. B. degree at this school, D. C. Reber, was a member of this class.

The Class of 1898 issued a class book similar in character and contents the following year. In addition, the Baccalaureate sermon, delivered by Dr. M. G. Brumbaugh was included. This book was dedicated to the Alma Mater and the name given to it was, "Blossoms of Life". Dr. C. C. Ellis was a member of the Class of 1898 and their publication contains his graduation oration, "The Need of an Ethical Ideal."

"Fruits of Virtue" was the title of the third student annual and completed a trilogy of very worthy publications; it was the last year book issued until 1915. The Class of 1899 edited this issue and dedicated it to their parents. It was of the same type as the two preceding annuals. While none of these year books were very much like modern college annuals, yet they mark the real beginnings of the present Juniata year books. The first issue of the "Alfarata" was produced by the Class of 1915 and a complete history of its growth will be found elsewhere in this book.

THE FIRST CHAPEL

Student publications have been characterized by a high standard of literary merit; it has been the aim to make "The Juniatian" and the "Alfarata" worthy of Juniata College. The value of correct and beautiful spoken and written English has been emphasized continually and this ideal is reflected in these productions.

STUDENT ACTIVITIES

Ever since the organization of the school literary societies or clubs have played an important part in the life of the student body. The first literary society was organized by Professor Zuck; there were no officers and he presided at the meetings. Of the early work of this society no records are preserved. Its purpose was to help in the school work and often features of the daily lessons were embodied in its programs. The exact date of its organization is unknown but it is thought to have

met first late in April or early in May, 1876. The meetings were held Friday afternoon of each week.

The first recorded minutes are dated August 22, 1876: "The following members of Mr. Zuck's Normal School met in the chapel at 7:30 o'clock this evening for the purpose of organizing a debating section, and of carrying out a pre-arranged program. . . . After some preliminary remarks by the teacher, Mr. H. D. Davy took the chair and the Section proceeded to carry out the program for the evening. . . . The question for debate was, Resolved, That intemperance is a greater evil than war. . . . The judges' decision was given in favor of the Affirmative."

Later the students seem to have been divided into three sections which met the same evening: the Bryants, the Irvings, and the Ebenezers. Membership was designated by Professor Zuck. Early in January, 1877, a committee was appointed to draw up a constitution and by-laws and to prepare for the organization of a new literary society. On January 13, the society was organized under the name, "Juniata Literary Society". The first society paper was prepared and read by H. B. Brumbaugh at the meeting held February 3, 1877. This society was reorganized September 11, 1879, as the "Eclectic Literary Society". The town people were invited to attend the meetings of this early society, and several days before the meeting a program was posted in the window of the post office.

The Eclectic Literary Society was discontinued in January, 1892, and two rival societies were organized: the Wahneeta, and the Oriental, February 25, 1892. Each society had its own constitution and by-laws; a joint meeting which was in effect a session of the parent society was held once a year. In November, 1899, a new society was organized, one which survives today. All students of college grade became members of this society which was called "The Lyceum". The Wahneeta and Oriental were continued for students in the Academy. During the years there have been numerous changes in the organization of literary societies but the essential purpose remained unaltered. The final change was made in the fall of 1920, when the English, Social Science, and Music Clubs were organized. The Freshmen, who are not eligible to membership in any club until the second semester, organized the first Freshman Literary Club in 1920. The youngest society on the campus is the Dramatic Club which was organized in 1926. Each of these aims to serve a definite interest in the lives of the students. The Press Club a slightly different type of organization is open to all regardless of membership in other clubs, the only qualifications being ability to write for publication and a desire to boost Juniata. The Men's Glee Club and the Girls' Glee Club represent a specialized form of club work. The Men's Club was organized in permanent form in 1912; the Girls' Club was organized in 1920.

CAMPUS, 1894

:-: JUNIATA IN THE MAKING :-:

The present Volunteer Mission Band grew out of the former Boys' and Girls' Missionary Bands—separate organizations. In 1899 the two bands joined and formed the Volunteer Mission Band. The purpose of this organization was to interest young men and women in the work of foreign missions, through "the fellowship of prayer and the fellowship of service". A reorganization was effected in 1916 and the resultant society is one of the most active on the campus today. The Y. W. C. A. and the Y. M. C. A. were organized about the same time, these organizations both had their inception in an earlier society of similar type. They were established in their present form in 1903.

Student Government represents a real effort toward the development of stable character in the students at Juniata. Its authority is vested in the Women's Student Government and the Men's Student Government Associations. The purpose of the Associations is to provide for the general welfare of the student body. They were organized in the fall of 1922.

Debate has always held a large place in the life of Juniata. A number of Debating Societies have been organized, have flourished for a time and passed on. One notable example was the Philomathean Debating Club which was organized in October, 1895. It was succeeded by the Edmund Burke Debating Club which met first in November, 1903. From this organization ladies were excluded and the membership was limited to ten. The first intercollegiate debate in which Juniata took part was held, April 25, 1902. Susquehanna met defeat on this occasion, the score being 3-0 in favor of Juniata. There were two men on each team and the main speeches were fifteen minutes long; five minutes was allowed each speaker for rebuttal. A bonfire and banquet celebrated this victory. Since that first debate Juniata has maintained an enviable record in forensics. Inter-collegiate debate for women began in 1920, and the girls have won an almost unbroken series of victories.

In athletics the growth of the college has been slow. The need for adequate physical training was recognized early but sports were not favorably regarded. Dr. M. G. Brumbaugh says, "We had no athletic games until 1890 when some of us purchased a round ball and kicked it about on Eighteenth Street, east of Moore. Some thought we were headed to perdition. We did not mind. The kicking went merrily on each evening. Lincoln Davis, Howard Keim, Will Livengood, Albert Trent, Samuel McCann and others led in this awful thing."

The first inter-collegiate contest of an athletic nature was a track meet, held June 5, 1903, in which Susquehanna was the victorious opponent, the score being 60-41. Baseball was a popular sport for a number of years at Juniata before any outside games were played. The first game played against another school was played against Bellefonte Academy on the home field. The visiting team won the game. The first inter-collegiate baseball game was played against Susquehanna, May 6, 1904; score 11-3 in favor of Susquehanna. Basketball was the next sport to receive official recognition. During the winter of 1905 the Juniata team met State College as its first opponent of college rank and the game resulted in a 57-9 score in State's favor. Tennis has long been a popular sport here; the Tennis Association was organized April 22, 1902. The first inter-collegiate match was not played until May, 1911. Gettysburg won the match with a 3-2 score. Football came much later, being the youngest of the sports at Juniata. The first team was organized in the fall of 1920. Lebanon Valley was the first opponent, the game played in October of that year resulting in a 37-0 score in their favor. The Girls' Basketball team was organized in 1922. They have maintained a record of clean,

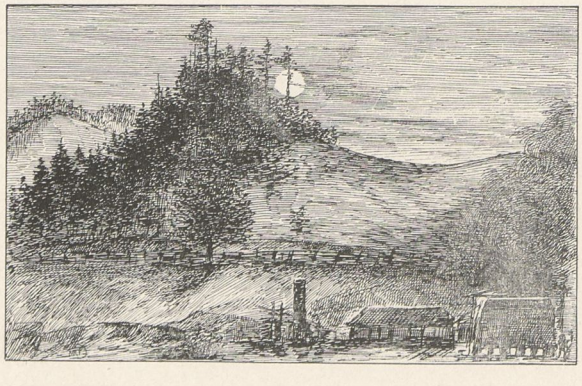

hard playing and have scored a goodly number of victories. A Hiking Club for girls was organized in 1925, and Track and Tennis for girls received official recognition in 1926.

Within recent years Juniata has been coming into her own in the field of athletics. As far as scores are concerned, the early record is not encouraging but a reputation for clean, fair play has been established that is more valuable than any number of victories. The Juniata "J" Club, organized January 15, 1920, is composed of men who have won their "letter" in some major sport and its purpose is to foster and create interest in College athletics. As the school grows more material is available for the various teams and a real future in sports is assured.

ALUMNI

A history of Juniata College would not be complete without mention of those who have graduated and carried the ideals of their Alma Mater into lives of service. The success of the Alumni is the success of Juniata. The Alumni Association, which serves to bind the graduates together after leaving college, was organized June 6, 1885. This Association has been active ever since its organization and has helped the school by its continued interest, as well as in a material way. An Endowment Fund has been accumulated through the years, the proceeds of which are loaned to deserving students for a period of time without interest. In addition to the general association there are nine regional associations which serve the Alumni in their own locality. These local organizations have also provided scholarships which supply full or part tuition for students in Juniata College.

The material gifts of the Alumni have been of great help to Juniata, but the contributions of real value have been found in lives of service. Men and women have gone into all walks of life and into all fields of service and always they have honored their college. The mission field has called many Juniata graduates—the ministry, law, medicine, the teaching profession—all have had worthy recruits from the ranks of those who received their higher education in "the little college on the hill". Service is the ultimate test of the value of any institution and measured by this standard Juniata has succeeded beyond the fondest dreams of those who laid the foundations for the present school. Juniata has its genesis in a desire to serve—its development has been a fulfillment of that purpose.

The Fred R. Hutchinson Senior Prizes

DURING the summer of 1922 Dr. Fred R. Hutchinson of Huntingdon, as a material expression of his interest in Juniata and the ideals which she serves, established the Senior Prizes which are given his name. His original plan had been to establish a $50 prize for the man who was esteemed by the student body as having attained the greatest general excellence in his college activities.

After conference with President Dr. I. Harvey Brumbaugh, Dr. Hutchinson agreed that the prize should be divided: $25 to the Senior man and $25 to the Senior woman who had contributed most to Juniata during their four years of student life. The prize was to be awarded according to a popular vote of the student body; with qualifications modeled on the requirements for election to The Rhodes Scholarship at Oxford University:—First qualities of manhood or womanhood, force of character and leadership; second, literary and scholastic ability and attainment; third, physical vigor as manifest by participation in outdoor sports or in other ways.

In 1922 the prizes were awarded to J. Harold Engle and Madolin Boorse; 1923 to Ira A. Holsopple and Lorine D. Hyer; and last year to Stanley G. Stroup and Hazel M. George.

The prize is distinctive because it provides for such qualities of character, of leadership and general culture which are the epitome of all that Juniata stands for.

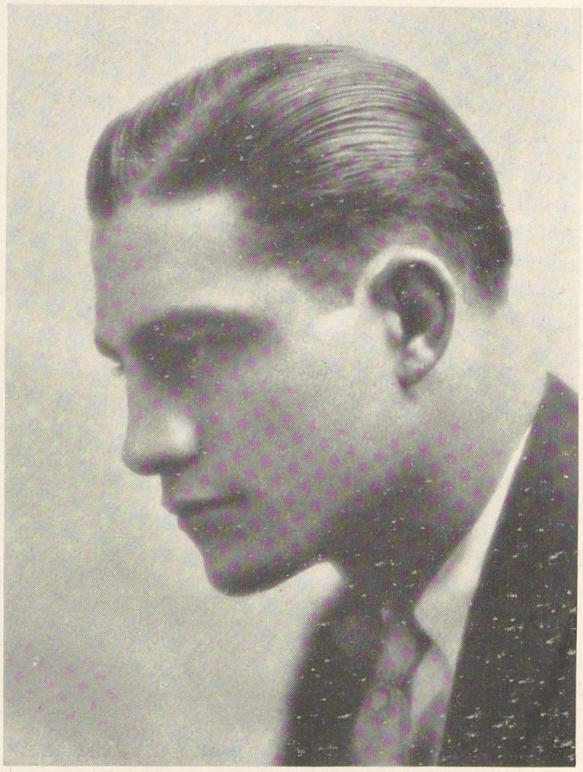

HAZEL M. GEORGE

After spending seven years at Juniata in the old academy and the college, Hazel was graduated last spring, having gained of the best from her Alma Mater and having returned her best in service.

Efficient and enthusiastic "George" contributed something to every phase of college life during her four years at Juniata including student government, literary and music clubs, debating, dramatics and athletics. Perhaps most outstanding were her literary achievements, signalized by her Prize Short Story in the Echo Contest '21, and her Alfarata Legend '24.

It was not only these activities but her loyalty and exemplification of Juniata's Christian ideals that the students honored when they elected Hazel to the Hutchinson Prize.

STANLEY G. STROUP

"Stan" is truly a Hutchinson Prize Juniatian. During his Freshman year he won first prize in the Bailey Oratorical Contest and gained a place on the varsity debate and track teams. In the three years which followed he not only became a leader in practically every established college activity but organized new campus activities and established broader inter-collegiate relations for Juniata. "Stan" was pioneer president of the Press Club, chief instigator and first editor of the Juniatian, and sole promoter and editor of Juniata's first Handbook for Freshmen.

It was this forward looking for Juniata, this tireless loyalty and material contributions to her progress that marked Stanley as the foremost man in the Class of '24.

Prophets

IN THE palace in Amsterdam, formerly the town hall, a guide pointed out the room that once had been the Debtors' Court. "The first debtor whose troubles were aired in that room," said he, "was the painter Rembrandt."

Whether that is an accurate historical statement or not, there is no doubt about what happened to poor Rembrandt.

His fine home went under the hammer; the beautiful collection of his own paintings and other works of art was scattered, bringing only about two thousand dollars. Stripped of everything, even his table linen, the greatest genius Holland has produced found refuge in the shabby tenement in the ghetto.

Today the finest square in Amsterdam is called by his name, and his statue stands in the center of it.

The biographies of the world's benefactors are too often very painful reading. Howe, the inventor of the sewing machine, in borrowed clothes attended his wife's funeral. He had lightened the labor of millions of women, but the world would not even give him a decent suit in which to mourn for the woman he loved.

We boast of the Yankee genius of Fulton, but no words sounded in his ears more often that the derisive phrase "Fulton's Folly."

Truly and scornfully it was said long ago:

Ye build the tombs of the prophets and garnish the sepulchres of the righteous, and ye are the children of them which killed the prophets.

We are all descendants of those who failed to recognize the great spirits of their generation. All too tardily we seek to make good their neglect by erecting statues and establishing holidays.

Meanwhile, there comes to the office a boy who wants a job; a girl with a gift for music, and no funds, goes to work in a department store; a lad who needs just a little help crosses the path; and we are busy with other things.

They may not be geniuses. The chances are one in several millions against it. But there is fun in laying a little bet on Youth, even at such long odds.

And suppose one should win. Suppose that in the future it should be written:

There was a prophet in America in those days, and a man named Jones (that's you and I), about whom nothing else is known, encouraged him and set him courageously on his way.

—BRUCE BARTON.

The Jubilee Anniversary

THE fiftieth anniversary exercises on Founders' Day, Saturday, April 17, and Sunday following were worthy commemoration of Juniata's Golden Jubilee. Since the founding in 1876, Juniata has grown into a fullness of life in 1926; she has confirmed her Christian ideals, has gained prestige, has wrought nobly and has reached the border line of a greater field of service. But her means are inadequate for the fulfillment of a greater service.

During this Jubilee Year supporters of the college have loyally rallied and April 17th found here a greater number of alumni and friends of Juniata than has ever before honored the campus on a similar occasion. The 50th anniversary of the founding of the college, in itself memorable, was made more noteworthy by the presence of eleven of the most eminent judges of the state, including the Chief Justice and the Federal District Judge of Central Pennsylvania, as well as numerous legislators and the leaders in the industrial and educational world, who paid homage to Juniata.

The Anniversary Exercises were dignified and impressive. The occasion was one of good-fellowship. The Juniata spirit prevailed everywhere uniting all in a reverent appreciation of the service which Juniata has performed in the first half century of her life and in a common will to endow her with adequate means for the fulfillment of her greater opportunities in the fifty years beginning.

APRIL SIXTEENTH

SENIOR RECEPTION

FRIDAY evening the Anniversary Senior Class gave a reception preliminary to the Jubilee Founders' Day Celebration following. In attendance at the reception were practically the entire trustee, faculty and student group, a large representation of alumni and a number of distinguished friends of Juniata. A clever scheme of Blue and Gold decorations effectively supported by pines transformed the gym into a fairyland. The class is to be congratulated upon the success of the occasion.

Address—President Martin Grove Brumbaugh, Ph. D., LL. D.

In his welcoming address President Brumbaugh spoke of Constitutional Law; the responsibility of free citizens to state government; and education as the means and safeguard of American Democracy.

In conclusion Dr. Brumbaugh said: "A builder of manhood and womanhood that senses in an enlightened way the values of our country of intelligence tempered with religion and of character set in sound knowledge. This has been our purpose and this Juniata College pledges to do in gratuitous sacrificial service from Jubilee to Jubilee."

Address—Honorable Robert von Moschzisker
Chief Justice of the Supreme Court of Pennsylvania.

In a very learned address Honorable Robert von Moschzisker traced the most striking events in the half century (since the founding of Juniata) dwelling upon the glories of America and of Pennsylvania. He paid homage to Juniata College which has, during all this period of material gain, engaged in making American citizens, remembering that it is written: "Not by might, nor by power, but by my Spirit saith the Lord of Hosts." In conclusion Dr. von Moschzisker wished Juniata God-speed.

Conferring of Honorary Degrees

FOR THE HONORARY DEGREE OF DOCTOR OF LAWS

Presented by Charles Calvert Ellis, Ph. D., D. D.,
Vice-President and Professor of Education

ROBERT VON MOSCHZISKER

Chief Justice of the Supreme Court of Pennsylvania

Born in our metropolis, educated in her best schools, began the study of law at the age of thirteen, practiced his profession under the distinguished Edward Shippen, elected Judge of Philadelphia Common Pleas Court No. 3 in 1903, elevated to the Supreme Court in 1910 and Chief Justice of the Supreme Court since 1921. The youngest man ever invested with the highest judicial honors of Pennsylvania. Author of numerous notable volumes among them Trial by Jury and Judicial Review of Legislation. Further enriching his well-trained mind by many seasons of study in the law centers of the city of London, member of many important societies, clubs and a valued contributor to their proceedings, he is the accepted leader in judicial thought and a scholarly teacher of the meaning and dignity of constitutional law.

ALBERT WILLIAMS JOHNSON

United States District Judge of Central Pennsylvania

A graduate of Bucknell University, CUM LAUDE, student at law and professor at his Alma Mater for a decade, Representative in the Legislature in 1901-02, and in 1912 was elected Judge of Courts in the Seventeenth Judicial District of Pennsylvania, active in civic improvements, a leader in educational thought, legal adviser to the Department of Public Instruction in this Commonwealth, gifted orator, being much in demand for commencement and other important addresses, a fearless and capable judge, zealous in every duty assumed, called by the President of the United States to be District Judge of the Federal Court for the Middle District of Pennsylvania, which high office he now capably fills.

HOWARD HEINZ

President of the Heinz Pure Food Company

Distinguished son of Pennsylvania, educated at Yale University, trained through a useful life in one of the nation's great industries of which he is now the capable head. Director of many important agencies—including the Pennsylvania Railroad, Union National Bank of Pittsburgh, Chamber of Commerce of his native city; member of the Council of Defense for Pennsylvania during the World War. State and National Food Administrator, Director General of American Relief Administration for Southeastern Europe, Trustee of the University of Pittsburgh, Carnegie Institute, Shady Side Academy, and many other noted philanthropies. He has achieved by honorable methods national distinction as a great industrial and religious leader.

CHARLES M. SCHWAB

Chairman Board Bethlehem Corporation

A child of the Juniata Valley, educated and honored by many colleges and universities, in his boyhood drove a stage coach over the Alleghenies where now he has his palatial home. Giving his mature life to the great fundamental industry of our American civilization he has developed the Edgar Thompson, the Homestead, the Carnegie, the United States and the Bethlehem Steel Corporations. He is the most commanding figure in our industrial life, he gave heart and poise and crowning success to a great but languishing war industry, rallying the spirit of the Republic in a crisis. Fabricator of heavy ordnance for a sister government over-seas, and, when finally this nation entered the World War, a capable and notable leader of production for the needs of his country. Builder of many edifices, devoted to religion and education, and director in more than a score of notable industries.

Recessional—Follow the Gleam - - - - - - - - - Girls' Glee Club

Luncheon—Dining Hall 12:30 P. M.

Several hundred distinguished guests, alumni, faculty and seniors gathered in the dining hall to enjoy the Jubilee luncheon. The occasion was marked by a number of delightful addresses. Judge von Moschzisker lauded the progress made by Juniata; Judge Johnson urged the institution to continue in the things of the spirit; Mr. Heinz said necessity is life's biggest asset; Shank Brown spoke of associations; Mr. Schwab declared that true joy is in doing; and Supt. Haas substantiated J. C.'s attitude toward government. Col. Kolb closed the list with a humorous but pointed toast. College songs interspersed the speeches.

Baseball Game—Temple University vs. Juniata—3:00 P. M.

A large and enthusiastic crowd saw the Indians win from Temple by a 5-4 scorce.

Twilight Chapel Exercises—6:30 P. M.

At 6:30 Saturday evening the regular voluntary chapel was held as it was instigated by Dr. I. Harvey Brumbaugh thirty-one years ago.

Dr. C. C. Ellis led the service and students and alumni participated in a common spirit of devotion which was lengthened by a glow reflected from the Jubilee Day "Dying in the West."

The chapel services proper were followed by an old fashioned sing and informal talks by Dr. I. H. Brumbaugh, Mr. Trostle, Stover Kulp and "Bill" Flory.

APRIL EIGHTEENTH

Morning

Stone Church 10:30 A. M.

Dr. I. Harvey Brumbaugh, *Presiding*

Sermon—Dr. Wilbert W. White, President Biblical Seminary, New York City.

Dr. White, after expressing his appreciation for being privileged to deliver the Jubilee Sermon, said his purpose was "to seek to give perspective in view of the situation in which we find ourselves." He declared that the lesson of life is to learn what the centuries say. Look at the past in the large, and in living secure a firm foundation, drink of the fountain of life, participate in life's stream and finally look toward the true goal, the eternal home.

Evening

Stone Church 7:30 P. M.

Dr. Tobias Timothy Myers, *Presiding*

Historical Sermon—President Martin Grove Brumbaugh.

President Brumbaugh's Historical Sermon fittingly terminated the successful Jubilee celebration. Reading from Leviticus 25:12, "It is the Jubilee: it shall be holy unto you", Dr. Brumbaugh secured a setting for his message. The sermon itself was divided into three related parts—the first was concerned with the history of the Church of the Brethren; the second, the history of Juniata; and the third, the significance of the second to the first. In closing, Dr. Brumbaugh invoked the continued blessing of God on Juniata as she serves from Jubilee to Jubilee.

The Jubilee Campaign

THE Jubilee Campaign was authorized by the board of trustees in 1925 for the purpose of raising funds to the amount of $750,000.00. Of this amount $500,000.00 is to be added to the present endowment in order to increase it to $1,000,000.00, and $250,000.00 is to be appropriated for the completion of the first units of the building program.

The goal set will enable Juniata to carry on her work with greater efficiency. The endowment was far too small for the present faculty and for scholarships. The physical plant of the college was inadequate and more and better buildings were demanded. This led to the stupendous effort that is being put forth.

The purpose of the trustees is to increase the college to accommodate 500 students. A new men's dormitory is the first building in the program of expansion. This will be built during the coming summer. Other sorely needed buildings include a large auditorium, a new gymnasium, another dormitory for women, a music building, a home economics building, a larger dining hall and an addition to the library. Plans are being made for these improvements.

The entire summer, fall and winter was spent in thorough preparation for the big campaign proper which opened May 15th to extend for a period of two weeks. The program called for the canvass to be completed prior to commencement time. The entire cost of conducting the campaign was provided before February 1st and many substantial gifts were received in advance of the actual canvass.

The campaign was of an intensive nature; organization being effected on a four-fold plan. There was an Alumni Division, through which all former students of the college were solicited by committees organized in twenty districts and sixty zones with a chairman in charge of each. There was a church division, organized according to the three college districts of the church, with a chairman in charge of each district and a captain and soliciting committee for each congregation. A community campaign, including the territory of the Juniata Valley between Harrisburg and Johnstown was organized with ten leaders who were assisted by numerous sub-committees in soliciting the citizens who are benefitted by Juniata's contribution to the society of the valley. Lastly the drive on the campus was put across by the class presidents, who were aided by a large representative group of committeemen; and by the faculty and employees, who were also organized.

Though this publication goes to press before the final reports can be determined the outlook for the success of the campaign is very gratifying.

The Future of Juniata

I SIT in my study and see the growing procession of students to Juniata. The line in 1876 had in it only three students. In our Jubilee Year it has lengthened to more than four hundred students. In these years over ten thousand young men and women have lifted the cup of learning to their lips at Juniata's fountain. Eleven hundred have remained to graduate. It is a goodly army. It is a wondrous growth. It is God's work. Let us be glad.

I see also the lengthening line in the years to come. The college must grow. The future must hold as great advances as has the past. In fact, if we do not do better things in the future we shall be unworthy of our fine heritage.

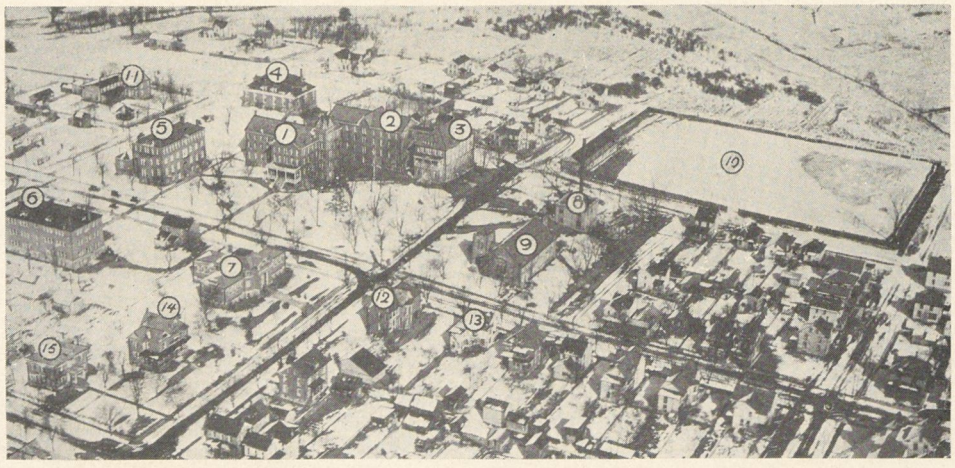

Just now we are approaching a student body of five hundred—an ideal unit for a small college. To care for this group we need at once additional finely equipped teachers. This is imperative. The power of a college for good is largely the Spiritual endowment and teaching power of its faculty. Teaching is building in the soul of the learner the finest things in the Soul of the Teacher. The finer the soul endowment of the Teacher, the finer becomes the spirit of the learner. The college wants to be measured and appraised by the gifts of good it sets in human souls.

There is urgent need for more and better dormitories, both for men and women. The present rooms need to be remodeled and made more comfortable. There is need for a larger dining room, more class rooms, a building for music, another for domestic science, a gymnasium with swimming pool, larger athletic field for all our physical activities and this gymnasium should be immediately adjacent to the larger athletic field, an enlarged campus including a good pool of water upon which in winter skating and ice hockey could be enjoyed and near which in summer under the cooling shade of noble trees the students may find rest and inspiration, and a chapel of commanding proportions in the center of the enlarged campus, with pipe organ and chimes. Also, to provide ample room for our very fine library, the present building must be enlarged by duplicating the south motive to the north of the present stackroom. With all of these must come new and enlarged equipment of all kinds. The goal here is to have a physical equipment adequate to the needs of our students.

Personally, I shall not be content until, with these things, come also a good apartment house for teachers and for students with families, and a College Inn where food of a good grade is served and nearby furnished rooms with bath are available, where our Domestic Science Department may find laboratory facilities such as are essential to a complete training in Home Making, and where guests of the college, and others, may find welcome and comfort while visiting with friends at the college.

Finally we want, in the years to come, a fuller development and enrichment of all those finer things of life that spring into being in a Christian college, that fiber the soul, that enrich the spirit, that make one kin to heaven, and which may be summed up in that precious phrase—Juniata Spirit.

—M. G. Brumbaugh.

President's Message

AND ye shall hallow the fiftieth year, and proclaim liberty throughout all the land unto all the inhabitants thereof"—so spake the Lord unto Moses in Mount Sinai. So I greet you in this Jubilee year at Juniata. "It shall be holy unto you." What a privilege it is to reap when others have sown and to sow for others to reap. Out of the sacrifice, the struggle, the thought, the prayers of half a century, we swing gloriously and gladly into this golden anniversary. Yours is a great privilege. You are the benefactors of the thousands that have made this goodly college yours. All that years of patient planning and sacrificial service have wrought now come in cumulative value to you. I rejoice with you that by God's guidance we meet as Juniatians in her Jubilee year.

Let us hallow it. The thousands that have come and gone have given course and current to the little College on the hill. We think of them—this greater Juniata family—some already are on the evergreen shore, others are stemming the stream—confidently holding the fine things of the College as supports in time of stress, winning their way by honest effort, achieving much, maintaining well the spirit of sound learning interfused with pious purpose set in their lives at Juniata. They shall all turn this way in this golden year and wish you and the College well. I think if they could be heard, if the far voices were near, they would say "carry on." The inheritance is sacred, secure, splendid. Enter with hallowed spirits into your Jubilee.

Let us plan and work for those that shall walk this way in the years to be. If we hold fast the fine things that have blessed us hitherto, we shall enter upon our new era of service better equipped in every way to train and to culture sails, to impart sound learning; but above that; to teach that those that get a college culture owe much to others. They become leaders. They are captains in the army of service. They influence and guide many. What they are others will become.

Let us love Juniata, her fine record of Christian service for half a hundred years, her outreaching efforts to do even finer things in the days to come. Let us guard and cherish her fair fame. As the sun effulgent from Terrace to Tussey floods her towers and campus with light, so may the Son Supernal from Jubilee to Jubilee shine upon and hallow the sons and daughters of Juniata.

The Alumni

THE Alumni Association of Juniata College has one big meeting each year. This meeting takes the form of the annual luncheon and reunion and is scheduled as one of the chief events of commencement week. Last year was no exception and a large number of old grads gathered in the dining hall following the graduation exercises to hear toasts, enjoy old college songs and yells and in general quicken the spirit that binds the sons and daughters of Juniata into one family, universal.

STUDENT Government is one of the major problems confronting any college. At Juniata, it presents numerous difficulties that are peculiar to the small institution. Nevertheless, since the fall of 1922, when faculty government passed into history, student administration has been enjoying a certain progress.

During the past year the Men's Association has been unusually active and efficient. It has been the aim of the governing body, under the leadership of Newton Taylor, to be fair and just at all times. There have been certain unfortunate occurrences, but no one can question the integrity and character of the men chosen by the several classes to direct the governmental activities of the college.

In the future it is hoped that Student Government will continue to grow in influence and power. This can be made possible only through the whole-hearted co-operation of the entire student body. Each student must come to recognize that an infraction of the law is not a blow at the council; it is a blow at the social group which enacted the law. When public opinion is aroused to such a pitch that it will not permit opposition to law and order, only then can good government be a reality.

THE JUBILEE Year marks the fourth anniversary of Student Government at Juniata. From inauspicious beginnings in 1922, and subsequent hardships, government has grown to a full justification of its existence. The Women's Council during the past two years has been actuated by the conviction that self-government can be fully realized only in a complete honor system. First steps toward that goal were taken last year when a system of honor on the hall government was instituted. However this experiment has been only partially successful because of its binding restrictions.

In the first Government Association meeting of this year it was enacted that Freshman girls should be required to wear green shoulder bows during the first semester. To distribute these bows and to provide for the infractions of "the custom" became an additional task for an already overburdened council. But, in spite of the trammels of this and manifold other executive and judicial duties, the council with the unstinted co-operation of the women of the association, has accomplished some outstanding constructive work. The Girls' Club Room was redecorated and permission was obtained from the office for the organization of Women's Track and Tennis teams.

At the close of the year two objectives remain: the establishment of some subordinate body to relieve the council of lesser judicial duties and the institution of a complete Honor System at Juniata.

THE TRIBUNAL is an executive body composed of Seniors and Juniors organized for the sole benefit of the Freshmen. Its officers consist of a Senior president and vice-president, a Junior secretary, and seven heartless executioners. It was instituted in the fall of 1924 as an auxiliary to the Men's Student Council for the purpose of relieving that august assembly of its policeman duties in relation to the embryonic Freshies. The two bodies are so inter-related that three representatives from the council sit, in ex-officio capacity, in all meetings of the Tribunal and "vice versa". No action is taken by the Tribunal without the consent of the Council President and no sentences are executed without his approval.

The good work accomplished by this group has amply justified its continuation. Though its early career was checkered and doubtful, it has now succeeded in firmly establishing itself as an idispensable servitor of the institution. It has lightened the burden of the Student Council; it has fostered desirable class spirit between the Sophomores and Freshmen, by conducting inter-class competition; and it has supervised the organization and activities of the largest class that ever entered J. C. with such diplomacy that the Freshmen, with a minimum of friction, have learned to co-operate in true Juniata fashion.

A VERITABLE epoch-making class! Aside from ushering in the Jubilee year did we not patiently submit to being the first Freshman class under Student Government? Greedy from many years of suppression, the upper classes vented their wrath upon us but we—even in our verdancy—always reciprocated with pep and enthusiasm. Those were the days of high revel! Junior-Frosh party, theft of the Sophomore's goat, far and boldly-flung banners, wild rushes on the athletic field, and other childish features.

The September sun of 1923 shone upon the same old crowd now somewhat depleted from the ravages of the first year, but so much the stronger for being the survivals of the fittest". A revengeful throng of Sophomores, yes, but prepared to give only justice to the on-coming, innocent Frosh. This we did with true college spirit even to obliterating the far-famed "27" from Lion's Back with various and sundry applications of H^2O. The memory of our lofty cherry and black floating from the tower on that famous Alumni Day, remains, outstanding, from the early part of our Sophomore year. Later in the year school activities of literary, dramatic and athletic variety claimed our diverse talents. The process of shining on the field, in the gym, and on the pages of school publications took our thoughts from class rivalry and afforded, at the same time, a respite to Juniors and Freshies.

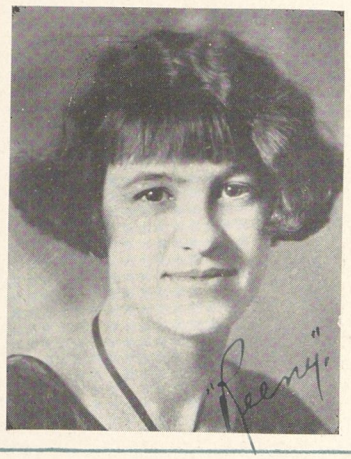

Time intervenes—and behold! we are *Juniors*—so business-like and so enveloped in the maze of our affairs as to be barely recognizable. We discovered unknown talent and utilized it. Needless to mention, the 1925 Alfarata went across with customary vim and success.

Not the least of our endeavors as a class was the part which we played on Founder's Day, 1925. In addition to meeting trains, piloting guests about the school, and everywhere spreading geniality and hospitality, the Jolly Juniors took upon themselves the responsibility of giving a tea to the visitors and faculty. This proved a pleasant innovation for both guests and hosts.

And now, as Seniors, the dear old class stands on the brink of graduation with the dim future ahead and gazes back on the vista of four happy years with strange thoughts and conflicting emotions. What changes have taken place, as a class, and as individuals? What new ideas have been instilled? How many lessons learned from the text or from that stern instructor—experience? Where is the old "pep" and "start" with which we came to college hill? Gone?—No. Only transformed into new and deeper channels from whence come the low murmurs of that distant flood toward which our barks are now turned. May the whirlpools and eddies of our mistakes be as signals to those who come after, that they may safely steer a true course to the end, where the waters lie broad and clear of treacherous shoals and rocks.

Success will await his every endeavor.
He works hard, has faith and is very clever.

"Clary" is perhaps the most energetic member of the class. It has been through his initiative that many of its accomplishments have been made possible. But his activities have not been confined to his class alone for he has gone out and won honors in athletics, both in track and on the gridiron. Not content to be idle in the winter months, Pentz has been a valuable manager for the basketball team and an attachment to the Home Economics Department.

"Reeny" like a "Black Eyed Susan" adds charm wherever she may be. She's fiery when the deed calls for fire, and sweet when the deed calls for sweetness. "Reeny" is a first class student, an inspiration, a genuine sport, a possessor of a pretty keen sense of judgment and a true pal. What more could one ask? It is rumored that the Adonis has arrived; that when college days are done, somewhere in the west she will grace a castle, and 'let the rest of the world go by.'"

Paul is what a senior ought to be, quiet, and sophisticated yet it is believed that his "Dutch" could take him out of any difficulty. Since coming to us in his sophomore year he has accomplished much, including three years of successful track. Perhaps his biggest inspiration is to be found down town but we do not believe that he would trade his Chrysler for any Cadillac.

"For he is a jolly good fellow" exactly describes "Joe". He is quite an addition to the humor of Juniata. Scarcely a day goes by that does not afford a chance to laugh with him, but that's not his only accomplishment for he has such a way with the ladies that we feel he has Romeo backed off the map. This well-known "south of the Mason Dixon" line finds a powerful exponent in "Joe".—If it works, why not?

Freshmen are delighted with his docile spirit.

"Heights by great men reached and kept,
Were not attained by sudden flight.
But they, while their companions slept,
Were toiling upward in the night."

Mabel is one of our local girls, quiet and reserved. Her time while on the Hill is spent in gleaning knowledge from some scholastic nook, but her friends claim that she is the possessor of a subtle humor and hint at "doings" removed from campus grounds. In whatever line of work you may choose, we wish you success.

"Bid me discourse, I will enchant thine ear."

No one sees much of this fellow on the campus, but when you do chance to run across him he always greets you with a smile and a friendly "Hello". Frank is a good student in every field except the field of women and we trust he will master this difficult study also, if the need arises. Frank's chief extra-curricular interests are in dramatics and oratory. He is distinguished as winner of first prize honors in the 1923 Bailey Oratorical Contest.

Back in the 80's Grace would have been called a tom-boy, but her friends call her "Jimmy" and let it go at that. She is athletic and extremely high spirited, but she is possessed of a mania for neckties. If "Jimmy" would ever stoop to gold digging it would be for one of Professor Jack's ties—And she'd get it, too. Paradoxical as it may seem Grace is a star home ec. student and a specialist on breakfasts.

Senior Hymn

Ere we leave thee, Juniata,
A song of praise we sing.
Our hearts to thee in loyal love,
O college dear, we bring.

Chorus

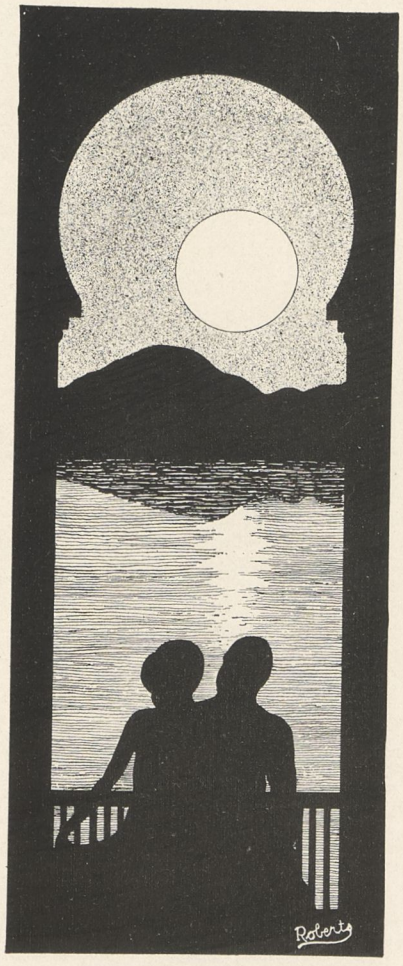

Juniata, Juniata,
Alma Mater, kind and strong.
Juniata, Juniata,
To thee we raise our song.

Happy years, O Juniata,
Have passed since first we came.
Our thanks be this: in future years
To honor thy fair name.

Happy years, O Juniata,
In work and play were spent,
And friendships true have blessed us here—
Our souls are well content.

Thus we leave thee, Juniata,
With hope and courage high,
For ways unknown and paths untrod—
May God watch, ever nigh.

NEW-ERA CLASS

THE Jubilee Year closes the third epoch in the history of the Junior Class and brings us to the threshold of The New-Era. Here, it is difficult to turn from contemplation of the glorious new sun which is rising over Juniata to a view of past events. But it is worth while. The difficulties and failures of the past three years have merged and only pleasant occasions and achievements stand out in retrospect.

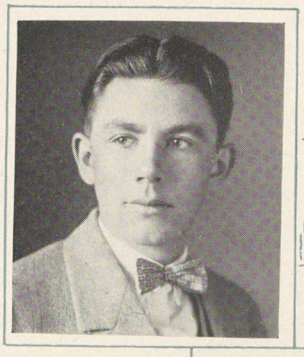

The class of '27 entered Juniata in the fall of 1923 and received the traditional green insignia which has marked each suceeding Freshman class. We were proud of that green and flaunted it everywhere: from house tops, from tree tops, from Founders' porch, and from our own shoulders. Under this color we conquered the Sophs in a basketball game, won the banner in the inter-class track meet, climbed the heights, and placed our '27 on Lion's Back. In the spring we returned the green which we had worn—battle-scarred but honorable and bearing a record difficult to emulate.

With autumn 1924 we returned to the campus and matched our new "blue and white prowess" with that of our successor in the "wearing of the green." We received a 7-0 defeat in football but came back triumphantly in basketball, baseball and track. But we were not satisfied with such physical feats alone. The genius of the class was given full vent at the celebration on April 17th and, as a result, the '26 contingent of the Founders' Day parade was the cynosure of all eyes—a fact which made the symbolic black cat show claws under her gloomy aspect while her companion "cut up true monkey shines" and ate a prodiguous amount of green paper. This triumph was a grand "finale" to our under-class pranks and the final proof of our maxim: "It is more blessed to give than receive." We were now ready to pass from class rivalry to school service.

The summer months of 1925 were a great transition for the class of '27. We returned to Juniata in September, awed by the prospect of the Fiftieth Anniversary Year but eager for service. We gave to the college the captains both of varsity football and baseball, the acting manager of basketball, three captains and both managers of inter-collegiate debate, and the composer of a hymn which was adopted as the Senior Class Hymn of Juniata College.

As the Jubilee Year has advanced we have come more fully to appreciate the privileges and responsibilities of our keystone position in the college arch. As sister class to the Jubilee Yearlings we had opportunity to mould them to a true ideal of "The Greater Juniata."

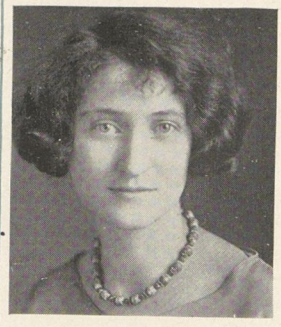

As the Junior class, we have been privileged to edit the Jubilee Alfarata and have attempted by genuine work, to make it worthy of the events which it commemorates. Finally, as The New-Era Class, we shall return next year to set the precedents for Juniata's second fifty year period.

Shippensburg 1, 2; Football 3.

"Jerk" came to Juniata from Shippensburg with a fine record in athletics and lived up to it by scoring Juniata's first touchdown of the season; but "Kel" failed as taxi driver after Christmas when the Student Council fined him for recklessness.

THE world is a playground, life the equipment. In one corner is a see-saw, with its swift, uplifted moments and perpetual sudden descents; in another is a merry-go-round with its aimless whirl of pleasure; in the farthest corner a swing, where a diligent start and consistent effort sends one up into the realms of fame. Over these, time is the director, suggesting, restraining, inspiring.

Two years ago the director sent a group of young charges to the top of the slide. There they stood, High School Seniors with the laurels of endeavor on their brows and the assurance of much knowledge learned. Confidently, calmly, they started. In one short day it was done. From the heights of sublimity to the depths of humility—they were Freshmen once more. Registration day had smiled at their laurels and laughed at their knowledge, but it had soothed their hurt spots by enrolling them in the ranks of Juniata College and labeling them: "Class of '28."

The new environment was a surprise in more ways than one. Under the urge of nostalgia the contours of the valley from Round Top were studied longingly, but soon the buccaneering spirit of the verdant class asserted itself. Activity followed quickly. The Frosh hiked to Fern Glenn, fought a football game with the Sophs and won.

Time ran on, old scores were settled, Spring merged into Summer and Summer heralded Fall. On Registration Day members of '28 returned as a class to receive the new Frosh. The members of the incoming class were lucky. They received sympathy—volumes of that—, assistance—though unsolicited—, and fun in the fulfillment of extravagent plans. The new class recognized their "betters" when they were held to a tie in a football game. The anti-climax which followed this fray witnessed the flaunting of banners, saw the mob form, and heard the challenges of rivals. The opportune appearance of the Tribunal prevented violence and flung an uneasy shadow of deceptive peace over the campus for a time. Finally the tension snapped and the co-eds: Sophs and Frosh, fought a game of basketball to another tie. The season of antagonism which followed was closed when the Soph co-eds magnanimously dropped the Frosh a 16-26 victory.

Then came a lull. Revival meeting and a big snow occupied the college. The class relinquished their guardianship over the Frosh, somewhat, to turn their attention to more important matters within. One evening when the road was part mud and part snow they "waffled" at Neil's to celebrate their growing importance and the election of the major officers of the Alfarata for next year.

In the two short sessions since her beginning the Sophomore class has sent representatives into all fields: athletics, debate and Glee Clubs. A credit and an honor to Juniata, that is what the Sophomores would have their class become; so that on future Alumni days all that knew her will warm to the mention of her name, and say with reminiscent sincerity "The Class of '28—There was a class!"

Ode of the Frosh

As Sophomores we feel duty bound
To pass a word in time
And tell you just how green they are
The Frosh of '29.

Now we were green in days of old,
But by our vim and might
We overcame that greenish hue,
We did it over night.

Yes, spring is here, and winter's gone
All through this space of time
We haven't seen the slightest change
In the Frosh of '29.

They seem like children at their play,
Their jokes no humor bear;
Their wise cracks are as out of date
As is the old gray mare.

Ireland's flag is not as green,
Nor a shamrock in its prime
As are the ones we tell about,
The Frosh of '29.

FIFTY classes have entered Juniata College. The last proves to be the charm. In the fall of 1925, the beginning of the Jubilee Year, the largest class yet entered, made its appearance on the campus, which the older students had learned to love. From the beginning the class has shown much talent and ability.

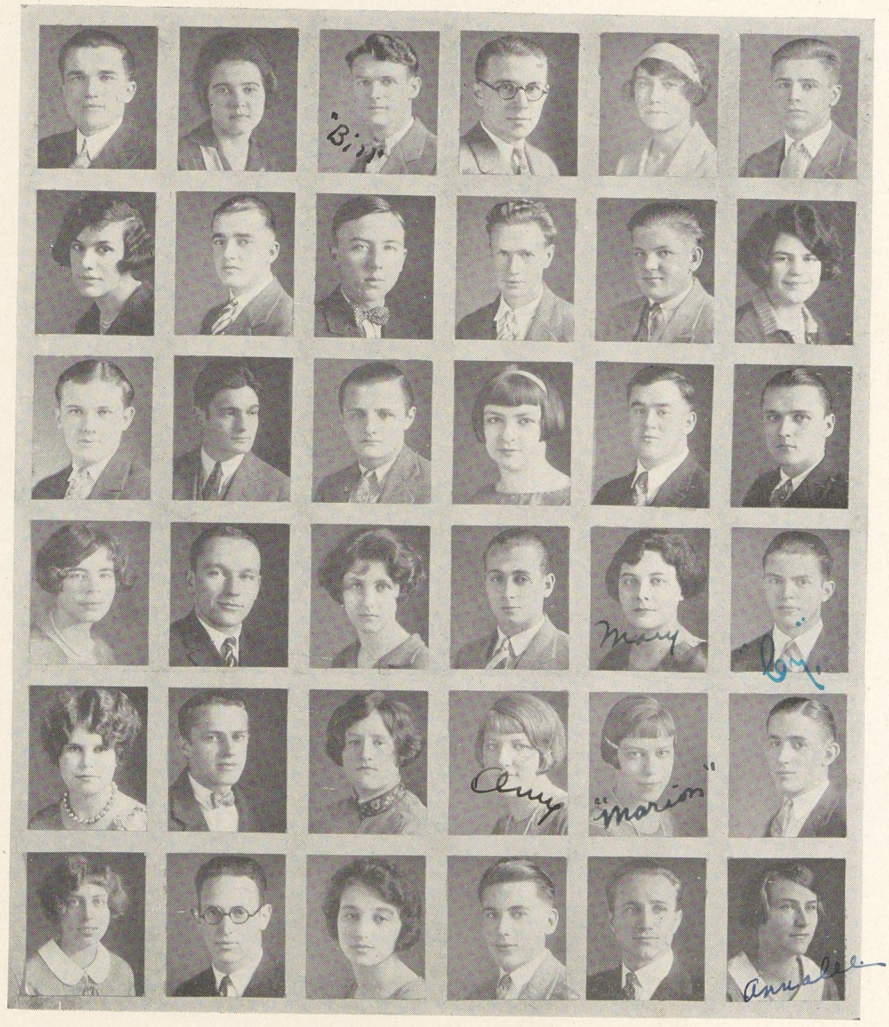

The upper classmen quickly adopted the new class into the family, aiding each member to obtain a clear perspective of the true Juniata Spirit. But, of course they were Freshmen, and as such had to be marked until the verdant quarantine could be lifted. So, as customary, the boys appeared in their little black dinks and the girls displayed the little green bows on their shoulders.

During the first part of the year, the class was organized into a temporary club. As such, it functioned by meeting each Friday night. These meetings were planned to develop material contained in the class so that they might later become better candidates for campus clubs. An interesting feature scheduled by this organization was the public performance of some of its most illustrious members at Lyceum.

The class properly organized the week following Thanksgiving and the newly elected officers assumed their respective duties. '29 was most fortunate in securing for its first president a graduate of J. C.'s former academy.

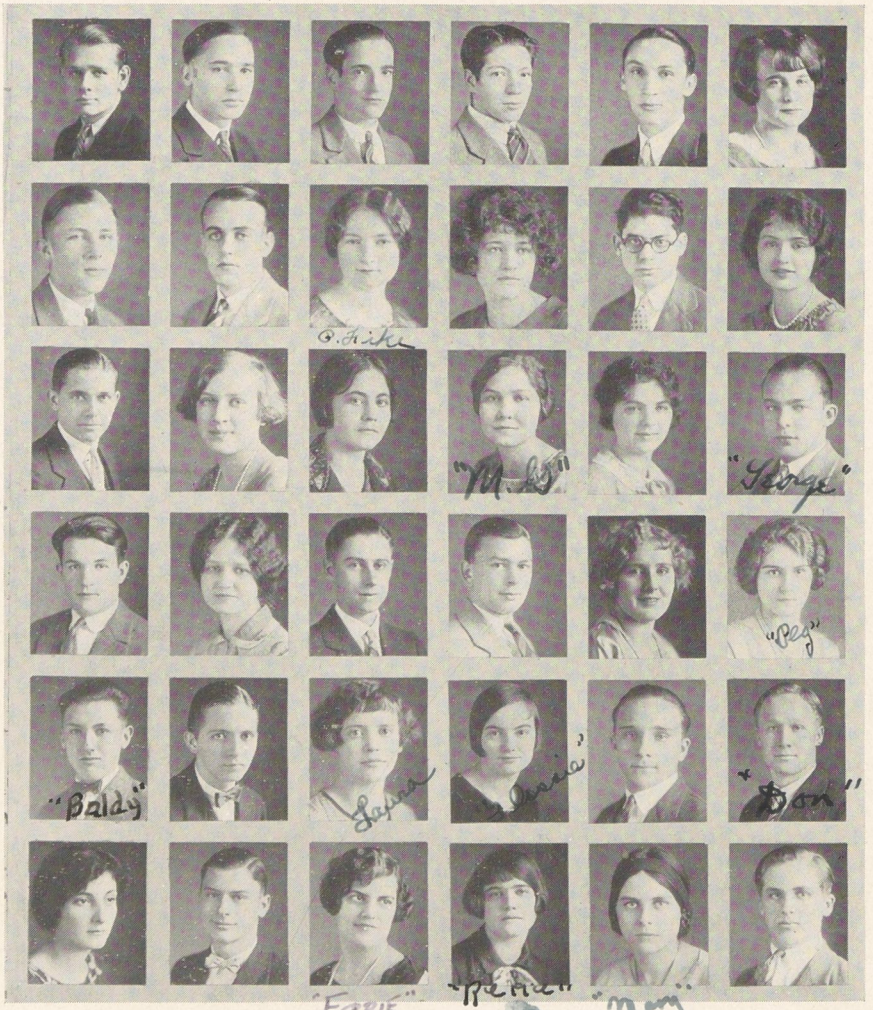

In inter-class activities the verdant class is unexcelled. It started the year by tying the Sophomore class in a football game. Winter found the girls tying the aforementioned class in basketball and following it by overwhelmingly defeating the Sophomore co-eds. In tennis the new comers preserved their friendly spirit of rivalry, and again scored the greater number of points.

When J. C. sent her loyal sons and daughters out into foreign fields to compete for her, the Freshman class was not lacking in representatives. Ten members entered into Glee Club activities, four girls entered varsity basketball, many Frosh Indians competed in football, and many plugged on the men's basketball floor. Track representatives are now working hard on the cinder path. Two classmen of '29 succeeded in making the varsity Debate Team and a battling Freshman team waged a forensic battle against Mt. Union and won both ends of the dual.

I'm A Little Freshman

(Home, Sweet Home)??????

I am a little Freshman boy and I have no real rights,
I dare not walk upon the grass nor stay out late at nights.

Chorus

Dinks, Dinks, sweet little Dinks,
Be it ever so like it,
There's nothing like a Dink

When 7:30 comes around in my room I must be,
Studying all my lessons as silent as can be.

If into my pockets my hands should slip,
An upper bounces me with "none of your lip."

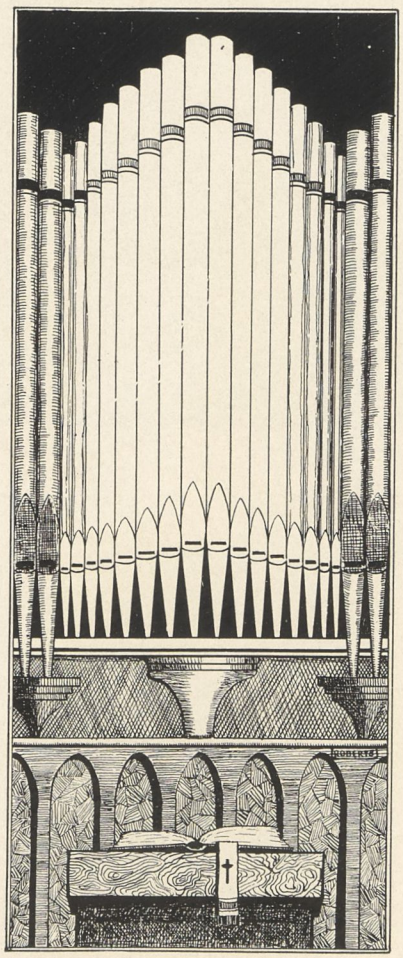

We do not dare to have a girl, some one us to love,
I wonder if we dare to pet when we're in heaven above.

However, I have a plan and it will make us free,
Chuck the uppers in a pond and tell them "enough for me."

—Walter Eltman, '29.

VESPER SERVICES, COMMENCEMENT, 1925

The Annual Bible Institute

THE ANNUAL Bible Institute of Juniata College was held in the Stone Church on December 3 and 4, 1925. Speakers both of reputation and ability enriched the sessions with timely talks on up-to-date yet age old subjects of Christianity and learning. Dr. M. G. Brumbaugh, speaker at the opening session, told of a boy, who having completed his work with honors at Oxford, had received the fellowship to Magdalen College. The youth then set out to produce some work worthy of the privilege granted him. Ill health forced him to go to the Alps. While there he realized the beauty and wealth stored up in ancient learning handed down by the Greeks and that all we know now is dependent upon these former "truth seekers."

President Ober of Elizabethtown College took for his subject, "The Art of Christian Living." He emphasized the importance of personality and character and the still greater importance of the investment of life in a worthwhile project with God ever in first place. In another talk President Ober compared the burden of mortgaged property and the mortgaged life (to the owner). Common evils such as indolence, appetite, gambling, and avarice all mortgage life. Happiness consists, not in the abundance of things possessed but in the maintenance of a life free from mortgages.

The message of President Henry of Blue Ridge College was "The Ideal Christ," the idealism which is lost in and must be sought in the present state of materialism. At another session he talked of peace and the conditions for the establishment of peace.

The Elder James A. Sell, celebrating the sixtieth anniversary of his ministry, gave a short account of his life. Both Dr. M. G. Brumbaugh and Dr. C. C. Ellis paid fitting tributes to Elder Sell.

The Ministerium

THE MINISTERIUM is composed of earnest men who seek not world gain or fame but who seek to do good in the world and to glorify the heavenly Father. The calling of the ministry is noble and holy. It should appeal to the best that is in the college for it is worthy of the best that anyone can give. The Church is the greatest institution for good in a community. He who gives himself to the upbuilding of the Church gives himself best to the upbuilding of his community. All this may be said of the state as well. The minister therefore is the leader in the upbuilding of life.

The men of the ministerium are active in preparation and in the preaching of the Word. A number have regular charges to serve. All preach frequently. Each year some go out into the field of service and others come in to prepare for the work.

Juniata tries to help those who are looking toward the ministry by giving encouragement and by directing along right lines of culture and education. The Bible is set up as the text book of the preacher. He is taught to believe the Word and to honor it in his work. He is taught further that to insure success he must make a full surrender to God and try to do His will.

May there go forth from Juniata preachers noble and preachers strong and may their lives always ring true for Him to whom they have given themselves for service.

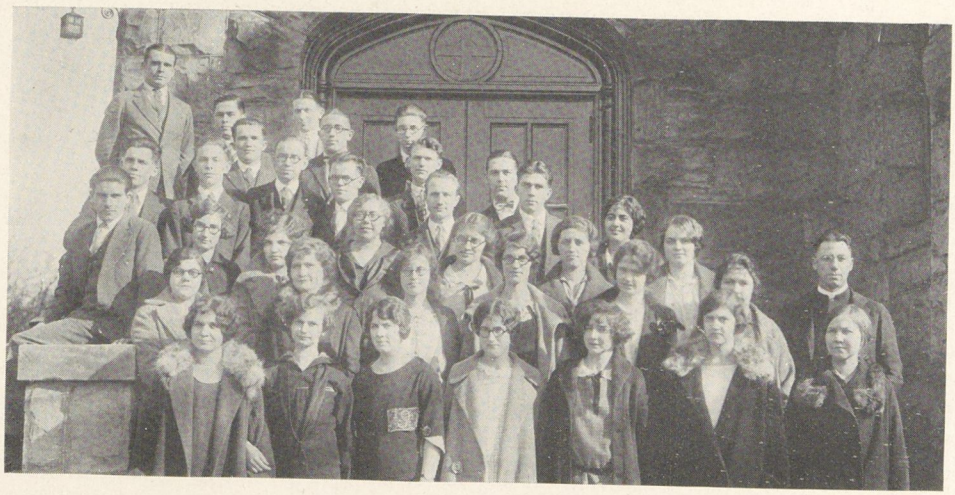

Volunteer Service Flag

THE PICTURE above represents the service flag of Juniata College which commemorates not those who served overseas in the World War, but those who served in carrying the Gospel of Christ. The flag bears a total of twenty-nine crosses, one for each of the twenty-nine Student Volunteers who have gone out from the Volunteer Group of Juniata since its organization in 1899. This number includes only those who have gone into the foreign field. However, Juniata counts among her ranks many who have gone into mission work in the homeland.

The blue background of the flag bears two crosses of gold for the two who have fallen on the field of action; four of silver for those who passed on while resting in the homeland and twenty-three red crosses for those still serving.

Following are the names of the missionaries represented by the crosses, and the field of their service:—S. N. McCann (silver), Mrs. Elizabeth G. McCann, Wm. M. Howe (silver), Jessie B. Emmert, Mrs. Gertrude Rowland Emmert (silver), Jacob M. Blough, Mrs. Anna O. Blough, Mary N. Quinter (gold), J. M. Pittinger, Mrs. Florence B. Pittinger, James W. Swigart (silver), Ida Himmelsbaugh, Quincy A. Holsopple, Mrs. Katherine R. Holsopple, Herman B. Heisey, Mrs. Grace Heisey, Olive Widdowson, Sarah Replogle, Anna K. Brumbaugh, John I. Kaylor, Mrs. Anna H. Kaylor—all of India; Mrs. Lucy L. Mohler, of France; Geo. B. Replogle, of South America; J. Homer Bright, Isaiah Oberholtzer, Grace V. Clapper, of China; H. Stover Kulp, Mrs. Ruth Royer Kulp (gold), of Africa.

SOMETIME during the year 1899-1900, a small group of students at Juniata, impressed by the call of the unsaved world, were led to form the first of mission volunteers. Three of the group: J. M. Blough, J. B. Emmert and J. M. Pittinger met one Sunday afternoon in Room 52. After a memorable session of prayer and scripture reading they concluded that the declaration of the Student Volunteer movement was inadequate and each agreed to write a full declaration of his purpose to serve God.

The following Sunday afternoon found these three men again in Room 52 where each one read what he had written. The unity of the three declarations formed conclusive evidence of the Spirit's guidance in their production. These combined declarations formed the purpose of the first organized group of Volunteers at Juniata. The charter members of this group were Ida Himmelsbaugh, Dave Sauble, Nellie McVey, L. M. Keim and the three men already named.

This organization later identified itself with the Young People's Missionary and Temperance Society, but finally, in February, 1911, was officially recognized by the New York Union of Volunteers as the "Student Volunteer Band of Juniata College."

During the year just passed, the Volunteers have carried on the regular activities:—delegates have been sent to conferences, secretaries have been entertained, deputations have been sent out to the churches, public meetings have been held weekly and a class in mission study has been conducted by Dr. Ellis. All these activities have been shaped to a single purpose: To present to every student and as many churches as possible "the call" and challenge it bears in relation to present situations and thus to secure their co-operation in the missionary enterprise.

THE Young Men's Christian Association has always occupied a prominent place in the student life of Juniata. This year's organization has been no exception to that rule. The "Y" must, of necessity, work in quiet ways to attain its objectives. The elaborate "bally-hoo" that accompanies athletics is not for it; yet, in its quiet way, the "Y" accomplishes a great deal among the students.

From the point of view of attendance at the regular Sunday evening devotional services, the Jubilee Year marks a step forward. Several new plans for the programs were attempted and met with such success that, on numerous occasions the club room was too small to accommodate the crowds. In this respect the cabinet has accomplished its purpose to have more of the men actively participating in every meeting and to touch greater numbers with the message.

Upper classmen were appointed counselors for the Freshmen at the beginning of the year and a hand book was published in conjunction with the Y. W. for the guidance of the yearlings. The Y. M. has co-operated with the sister organization in providing social activities on the campus and in promoting the Discussion Groups.

Contact with national Christian movements has been maintained through the secretaries traveling from headquarters and student delegates to conferences.

With the increasing size of the student body the field of the Y. M. C. A. is constantly widening our calling for greater service on the part of the older students. It is earnestly hoped that they will meet the challenge and continue the high calling of the "Y" by serving every man on the campus.

THE activity of the Young Women's Christian Association at Juniata is as broad as student life. From the very beginning, when the new girls of each class are ushered into the Juniata family by one of the "Y's" big sisters, it is this association that provides for them a rounded life.

In former years, the "Y" exercised major control over the physical, social, and spiritual development of the girls, but rapid growth of the student body has made specialization necessary. One of the greatest forward steps of this Jubilee Year was the organization of the Girls' Hiking Club as an outgrowth of the Health Committee of the "Y".

However there is no substitute for the social functioning of the Y. W. The annual fall hike and intimate club room parties stimulate an honest comradeship, girl-to-girl, while the Get Acquainted Social and the St. Patrick Party, provide the only social occasions in which the sudent body participates as a unit. The "Country Bawl" which was held this year as a result of the Discussion Groups, set a precedent for another of those delightful social events.

Further activities of the "Y" which rank high on the school calendar are the traditional Christmas Bazaar and the May Day Festival. The performance of these functions, this year has raised the standard for future achievement

All of these activities are subservient to the paramount Christian aspect of the association. The spirit of devotion to the cause engendered in the Sunday evening meetings finds expression in the Social Service of the "Y" and remains longest with the girls of the Juniata family.

The Mission Home

ARDIE E. WILT, a Juniata Alumnus, Altoona, Pa., is not only the originator of the idea that finds expression in the Missionary Home, corner Washington and 18th Streets, but while District Sunday School Secretary in 1919 he began to ask the Sunday Schools for gifts towards the proposed house. His plea may be epitomized in these words: "Our missionaries come home for a year or two to rest. They have families but they have no home. They could visit a few weeks with relatives, but they are human and want a home. To rent a furnished house is beyond their reach. To furnish a house and dispose of the furniture for a year or so is extravagant. Therefore, let Middle District Sunday Schools build at Huntingdon a home for these worthy ones in which they may live rent free as long as on furlough or in the service of the Mission Board.

The idea gripped old and young. Funds came in surprisingly. In 1922 Ardie E. Wilt, Benjamin F. Waltz, and Galen B. Royer were appointed a committee to put up the proposed building and appeal to the district for the funds to pay for it. Owing to high prices this was not done for two years. The college bought from Emmert Swigart the ground which the committee preferred and in 1924 the building was erected. It was ready for occupancy April 1, 1925.

The building is forty-eight feet square, two stories, brick veneered. On each floor are two apartments, each having four rooms and a bath. A more loving token of appreciation to all missionaries can hardly be imagined. John M. Pittinger and family, home from India, are the first missionary occupants.

LYCEUM

1876 — 1926

The Lyceum

RICHARD SNYDER - - - *President* LOIS DUGAN - - - *Vice-President*
RUTH CULBERT - *Secretary-Treasurer*

DEVELOPMENT of the Lyceum has been continuous with the history of Juniata. It succeeded the Eclectic Literary Society of the Normal School as a rallying point for the social and literary activities of the students. Many alumni agree that the meetings of the Lyceum were the most enjoyable and profitable of their college experience.

But as Juniata grew year by year, it became impossible for the Lyceum to function effectively as a unit. Accordingly it was divided into four specialized groups: English, Science, Music, and Social Science Clubs. Since that time the Science Club has disappeared from the campus, but the three remaining clubs are steadily gaining prestige. Their weekly literary meetings and occasional social events provide for their present student body the cultural and social advantages which were formerly realized in the Lyceum.

A Freshman Club, also, was organized under the Lyceum to meet the needs of the Freshmen during the first semester and to prepare them for activity in the other clubs. One of the most interesting times of the year is the rushing season at semesters when the Freshmen Club disbands and its members become elegible for membership in anyone of the three Lyceum clubs which they may choose. Following the elation of being rushed and the ordeal of initiation the new members live to learn much of the benefit and pleasure from club affairs.

However, all club activities are subordinate to the Lyceum and the best findings from each of the three clubs are contributed to regular, monthly meetings of the super-organization.

Although the Lyceum is primarily literary in purpose and function it has provided a practical means of acquiring ability in public presentations. It has one social activity which has become traditional. This annual function, which formerly took the form of an "Ausflug", was changed beginning with last year, to a banquet in the college dining hall.

Finally, the major part of the activity of the Lyceum has been directed toward debating. From earlier days when debates were the chief attraction of every Lyceum program, Juniata's organized teams with their unparalleled record in intercollegiate circles, have grown, sponsored always by the Lyceum. In accordance with all this interest in debate the Lyceum last year revived the custom of presenting a gold medal to the graduating debaters. Thus, in a few words, the democratic influence of the Lyceum has kept pace with the rapid development of Juniata and served each year to unite her student body.

THE Music Club has been the smallest of the college Lyceum groups during the past year. At the same time, it has contributed more to the Lyceum than any other club. One of the most successful of the Lyceum programs for this year was an operetta presented wholly by the members of the Music Club.

The personnel of the organization includes the entire music faculty and those students who are interested in the art. It is the purpose of the club to afford a means of practical expression for the talent of its members and to raise the standard of music appreciation in the college.

During the first semester, the programs constituted an orderly review of the history of music beginning with its earliest forms and concluding with a study of the lives and compositions of Bach, Schubert, Wagner, Beethoven, Handel, Mozart, and Hayden.

With the opening of the second semester the club was enlarged by the addition of a number of Freshmen. The old members feel confident of the future success of the club because of the unflinching courage which the Frosh showed under the fire of initiation night and the sincerity with which they pledged to keep the constitution unscathed. The first program of the second semester was presented entirely by the newly initiated members and showed what a wealth of musical resources they add to the club. The programs for the remainder of the year consisted in synopses of operas in song and story.

The rapid growth of the School of Music has placed many added facilities at the disposal of the Music Club and has provided a margin for its development.

TO THE English Club members—those who know and love it best—their organization is the leader in the campus trio. Organized in 1920 by an inspired group of literary enthusiasts, the club has flourished and expanded in a manner all its own. The new Juniatians who feel the impulses which drove Milton into a frenzy of dictation, turn to the library and find compensation for this unexpressed talent in the Friday night program of the club.

The constitution of the body states that the purpose of the club is to further the correct use of both written and spoken English. Fundamentally the club attains this end by the study of those worthy masters of the art, the literary geniuses since the time of Chaucer. Each semester a literary period is selected for systematic review, and in a series of meetings, interesting material concerning the authors and their works are presented by the club members.

During this year two fields of study were covered—the Victorian Age was studied the first semester and the second semester was spent in the realm of "English Literature Since the World War".

The trend of the study of the Victorian Age was light enough to be universally interesting and yet was serious enough to justify the most critical approval.

The last semester was unusual in the treatment of its field.

The year was interrupted at various times with entertainments, socials, and numerous other devices concocted for the amusement of the club and prospective Freshman members. The season will be crowned with the laurels that are bestowed upon the club in the spring with the presentation of the Shakespearian scenes.

MAN'S life is his thoughts, his words and his actions. These are means by which he builds his social institutions, develops his arts and advances his science. He who is truly educated is at ease socially; can discern and enjoy the beautiful things in life; is aware of scientific advances; and can discharge his duties as a citizen of a democracy. To show these fields of activity in their proper relation, one to the other, is the aim of the Social Science Club.

These fields give the club a fourfold plan for its programs. During the past year the social and governmental fields were covered by discussions of school and world problems planned to provide practical exercise in reasoning.

As for world problems, Miss Engemann of the faculty, gave several illustrated lectures on France and Germany. Having spent the summer of 1925 studying and touring in these countries, she was able to portray very recent conditions of those lands to the club.

Near semesters, Dr. McKenzie joined the ranks of the club, and to him the club is indebted for a beautiful vision of life as seen through the old Greek culture. He, too, had spent the summer in France, and while there had discovered many places of interest.

Music, readings and scientific discussions found their way into the programs. And socials too—! Remember the Christmas party and the moonlight party on the campus.

Now as Juniata sets her goals anew for the next Jubilee period, the Social Science Club does likewise. It sets its aim at a better club and full co-operation with the Alma Mater for a bigger and better Juniata.

Freshman Club

ALFRED HOCKLEY - - - *President* MARY GROVE - - - - *Secretary*

ON THE eighth of last September when old students were returning to J. C. to start the work of the Jubilee Year, a larger number of new students than ever before came to the campus. At first there were a few who had difficulty in matriculation but those who emerged soon banded together as a Freshman Club. With the acquirement of green buttoned dinks and green bows this group became in truth the "wearers of the green".

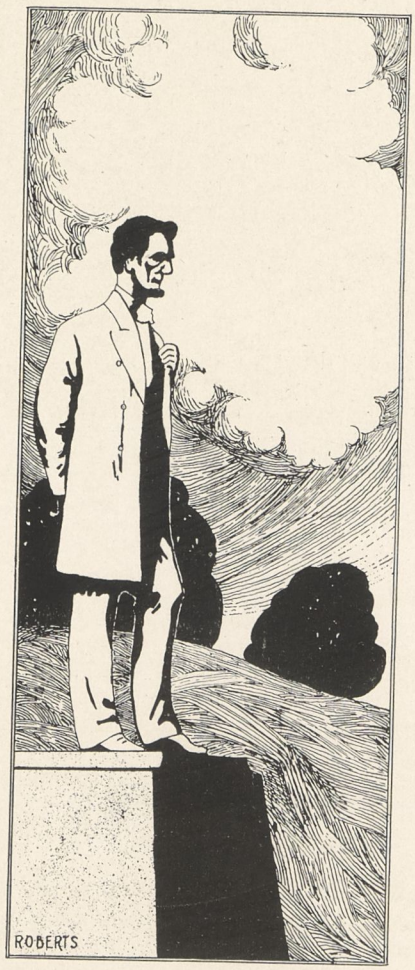

According to tradition the Freshman Club gave the first Lyceum program of the year and in it "Les Enfants" showed that they possessed more than verdancy. One number of this program was a talk entitled "The Aim of the Freshman" which embodied the aims and ideals of the class of '29. That was the first public avowal of the splendid resolutions of the club which have since been as faithfully fulfilled.

The efforts of the Sophs to add more green to this program came to naught and they succeeded only in showing that they were not fully graduated from a similar state of juvenility themselves.

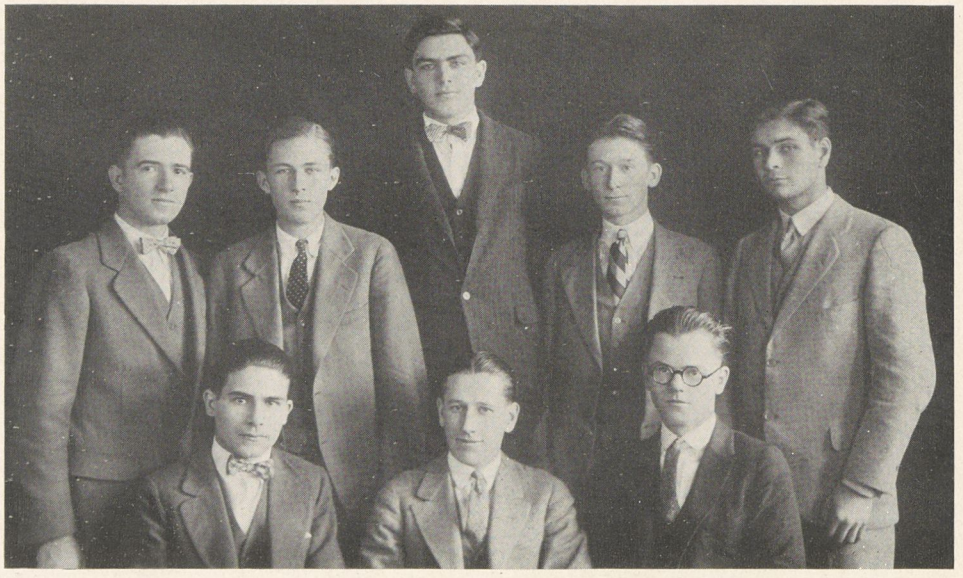

Following the first public Lyceum performance a series of weekly programs were given within the club. These entertainments were varied, highly interesting, and educational. Some of the numbers at various times were readings, piano solos, and spelling bees. At one memorable meeting there was a Froshman-Froshwoman football game, in which the women won, of course.

With the opening of the second semester the Freshman Club automatically disbanded and its many talented members were scattered among the three permanent clubs of the campus.

Although the class of '29 is no longer united in club life its members will ever stand together for the single purpose, "A Greater Juniata".

RESOLVED: That the United States should enter the League of Nations as now constituted", was the question used by the men's forensic squad this season with unusual success.

The affirmative opened with Ursinus at Waynesboro, February 16th, and before a large crowd of alumni and friends, decisively defeated a keen forensic rival. The same night in Lewistown, Juniata was inaugurating the two man debate system. Gettysburg furnished the opposition, carrying off a questionable 2-1 decision. After a day's rest, the affirmative journeyed to Selinsgrove and surprised the "Little Crusaders" with a 2-1 defeat. Both teams were again in action on Friday. The affirmative met a "tartar" at Lewisburg in the form of Bucknell, losing 2-1. Ursinus smarting from the Waynesboro disaster, partly retaliated, handing the negative a 2-1 Loss.

On March 6, Susquehanna, Juniata's first opponent in forensics (1902) was vanquished by the negative, 3-0, in the opening home contest. Friday evening, the victors journeyed to Bedford, this time losing 3-0 to the superior Bucknell team.

The Affirmative, discarding the league question, hastened through a two-week preparation for Pitt, and on March 16th unanimously defeated them on the question, "Resolved: That the government should operate and control the coal mines".

The men's contribution to the first Freshman debating team in J. C.'s history was Flory (Captain), Miller, Kurtz, and Baker.

THE Jubilee Year completes seven years, with but one defeat of inter-collegiate debating for the women of Juniata College. Under the capable management of Manager Hale, the season of 1925-1926 saw two of the most noted schools in Pennsylvania as opponents of Juniata. Debates were tentatively scheduled, but for various reasons those with Temple and the University of Pittsburgh were the only ones which materialized. On March 5, the team composed of Naomi Trostle, '28; Ruth Culbert, '27; Gertrude Brown, '27, Captain; and Irene Hale, 27, Alternate, journeyed to Philadelphia to meet Temple University. The speakers for the Blue and Gold supported the affirmative side of the question: "Resolved that the United States should enter the League of Nations as now constituted," so effectively that the decision was unanimous in favor of Juniata.

The University of Pittsburgh co-eds came here March 19 to debate the Child Labor Amendment question reading, "Resolved that the states should ratify the Child Labor Amendment." The debate was hotly contested but Juniata's representatives, Ruth Knepp, '27; Florence Stutzman, '29; Dorothy Doyle, '27, captain; and Catherine Fyock, '26, Alternate, proved equal to Pitt and the decision was a 1 to 1 tie.

The Freshman team: Florence Hess, Captain; Marion Brumbaugh, Alternate; Dorothy Bratton and Marion Commons won their debate with Mt. High School.

NEVER in the hisory of Juniata has the Men's Glee Club enjoyed a season more successful than that of this Jubilee Year 1926. The fame of the club has been renewed among audiences of previous years and established in new localities throughout the eastern and western parts of the state. Much credit is due Professor C. L. Rowland whose rare judgment in his selection of good music, interpretation of the numbers, and ability to work with the men have been important factors in the success of the organization.

Manager Detrick arranged a fine schedule of engagements which extended throughout the year. The first concert was given at Three Springs in December. On the 6th annual Christmas vacation tour through the western part of the state, the club visited Scalp Level, Somerset, Meyersdale, Ligonier, and Johnstown. Early in April on the 3rd annual eastern trip, the boys appeared before audiences in Lewistown, Pottstown, Ambler, Germantown, and Philadelphia. Among the usual number of shorter trips the club took a week end jaunt into New Enterprise, Roaring Springs, Martinsburg, and Altoona, receiving a hearty welcome from Juniata's constituency in that district. The home concert in March delighted a large number of townspeople in addition to the student body.

As in former years, two programs, sacred and secular, were prepared with appropriate feature numbers for each program. The club soloists for this year were, Detweiler, Cozzens, Detrick, Cassady, and Hittie. Newton Taylor, the club reader, and Donald Hill, cornet soloist, both artists in their field, added variety to the programs and claimed a large share of the sum total of applause which the club always received.

THE purpose of the Girls' Glee Club is to train its members in group singing and to provide opportunity for the development of the outstanding musical talent in the college. Since the organization of the first club, six years ago, the scope of its activities has steadily increased. During the past year the club has again been ably directed by Prof. C. L. Rowland. The highest type of secular and sacred music has been studied and regular practice periods have been observed, resulting in the mastery of a large and varied concert repertoire.

The personnel of the club, this year, included Miss Gump, reader, and Miss Spargo, violinist, in addition to an unusual number of solo voices and an experienced quartette composed of Misses Statler, Mohler, Gump, and Spargo. Miss Childs of the Expression Department, and Miss White of the Violin Department, also assisted in many of the concerts. All these features have added to the charm of the concerts as the substitution of pastel shades for the traditional white of the girls' costumes has added to the ensemble appearance of the club.

The year's schedule has been extensive and unrivalled in success. Early in January, the club bus ploughed through a blinding snowstorm carrying the girls to "Greensburg and the West"—over an itinerary including Johnstown, Somerset, Mt. Pleasant and Pittsburgh. This was the beginning of a season which was rounded out by two appearances in Altoona, a series of engagements in the churches of Huntingdon, two campus concerts, and numerous single engagements in outlying districts. The final trip in the spring, including Philadelphia and vicinity, Lancaster, Hagerstown and Washington was a fitting climax to the year.

The Varsity Quartet

THE Varsity Quartet appeared on the campus this year for the first time as a definite organizaion. Although a quartet has been functioning as a part of the Men's Glee Club for many years it was not until last fall that these vocalists began to play the role of a distinct body giving entire concerts unaided by the club. Notable among the concerts given was the trip to Myersdale and Pittsburgh. At the latter place it was their privilege to broadcast a program from the Westinghouse station, KDKA. The quartet enjoyed a similar treat in Philadelphia where they were on the air again, this time in connection with the concert broadcast by the Glee Club from station WIP. The activity of the club prevented them from making several desirable tours but the Varsity Four were called to give many programs in the school and in town. They appeared twice on the regular programs of the club and their numbers were always popular with the audiences.

In keeping with the high standards of the Music Department the Varsity Quartet has confined its efforts strictly to the use of high grade music in its programs. Solos by Cleo Detrick, tenor, George Detweiler, baritone, and Robert Cassady, bass, were always well received as regular numbers of every concert. These three, together with Daniel K. Ziegler, second tenor, are the members of this organization which has for its purpose the carrying of Juniata's ideals to everyone who hears its message in song.

The Department of Music

PROBABLY no other department of the college has made more progress this year than the Department of Music. The great increase in enrollment has taxed the capacity of the building and the time of the teachers. Although the "screws have been tightened" in the courses, the would-be musicians are proving themselves equal to the task assigned them.

A real step forward was taken with the inauguration of a violin department. This work is under the expert tutelage of Miss Oneta White, a graduate of Ithica Conservatory, and pupil of those masters, Cesar Thomson and Otlokar Sevcik. Miss White also has charge of the department of theory. There seem to be many students eager to become trained singers, for Professor Rowland's time is filled up. His Public School Music department will graduate a larger class than usual this spring. The piano department has more students than ever before. The Board of Trustees very generously aided its work and that of the entire school of music by presenting four new pianos, including two practice instruments, a concert grand for the chapel, and a small grand for the piano studio.

The College Orchestra is doing splendid work, with Miss White conducting. It has a greater variety of instruments than ever before. In this connection thanks is due again to the trustees, who presented a fine pair of kettledrums, and also to Dr. Norman J. Brumbaugh who gave two double-basses to the orchestra. The Glee Clubs are doing exceptionally well this year, drawing large crowds and much praise —thanks to the efficient work of Director Rowland and the interest of the members. The Music Club has taken on new life and with increased numbers and good interest is presenting very helpful programs.

A new feature this year is the regular monthly student recital, in which the Department of Expression under Miss Childs joins the Music Department. These recitals are given on the third Saturday evening of each month. Thus an opportunity is afforded for the students to become accustomed to public appearance.

The Department of Music is eagerly looking forward to the time when it will have a new building adequate for its needs and continued growth, that it may achieve its ambition to become a model college department for the pursuit of musical endeavor.

SOME organization to stimulate, encourage, and co-ordinate the production of dramatics was, for many years, recognized as a campus need. With the purpose of fulfilling this need, the faculty, early in the "Jubilee Year", authorized the organization of a dramatic club.

The dramatic coach selected James M. Barrie's "Quality Street" as the production which should serve as a basis for the organization of the club. When presented, "Quality Street" was acclaimed as the finest bit of dramatic work ever presented on the college stage. The story, dealing with the romance of Miss Phoebe Throssel and Captain Valentine Brown and the complications caused by Miss Phoebe's sister, Susan, and her three spinster friends, was charmingly interpreted by the actors and well staged by an excellent technical staff.

This group, including the entire cast and technical staff, became the charter members of the organization which was named "The Juniata Dramatic Club". The constitution, as drawn up and adopted, provided that subsequent membership should be based upon the satisfactory performance of a major or several minor parts in a play staged by the club and that try-outs for every production should be open to the entire student body.

The second offering of the club was a comedy by Edward Peple, "The Prince Chap", which, like "Quality Street", was an unqualified success. A number of new members gained admittance to the club through this production.

The Dramatic Club fills an important niche in the life of the college body and great results are expected to flow from its auspicious beginning. It is hoped that it will eventually grow into an organization that will write and produce original plays.

May Day

EVER since the first observance of the English May Day at Juniata, back in the early eighties, the annual May Day revels of dance and song have been joyfully celebrated. May 20th was a perfect spring day. At 4:30 the Spirite of English Maye Daye, represented by Miss Hazel George, appeared, welcoming all with a few words of greeting and a joyous dance. As she withdrew two liveried heralds appeared announcing to "All Ye People", the coming of the Queen of Maye with her court.

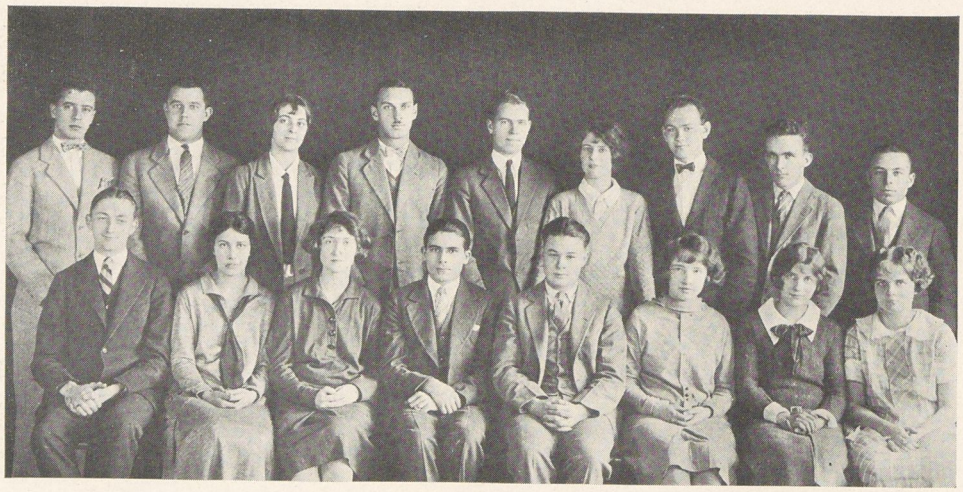

The procession slowly advanced across the North Campus to the throne where, with great ceremony, Miss Emma Griest was crowned Queen of May by her classmate, Miss Gladys Murray, and was presented with the scepter, globe and footstool, symbols of her power. All the court paid homage to the Queen.

Then followed a pageant worthy to the entertainment for the Queen of May. There were lads and lassies from England and Holland who played their delightful folk games and scenes of age old Indian days. There were moonbeams and nymph maidens from Fairyland and light-footed mortal children who wound the May Pole. Robin Hood and his merry men entertained with feats of skill and the Jester performed with agility. One of the most interesting feats was a fencing match.

At the close of the entertainment the Spirite of Maye appeared again and spoke a word of farewell to her guests. Then as the last rays of the sun turned her splendor to gold, the Queen and all her court marched in recessional from the green.

AS THE student news publication of the college the Juniata Echo held sway for thirty-four years. It was a splendid bulletin, nobly fulfilling its purpose but in the foreword of the October number, 1924, are found these significant words: "Student opinion has long been rightfully demanding a weekly. It has finally been realized. This is the Curtain Number of the Juniata Echo. With its numerous other steps toward advancement, we are glad Juniata can also keep pace in this field with her sister institutions."

So on November 6th the first issue of the Juniatian appeared. It was a rudely contrived jumble yet it flashed real news and editorial criticism that commanded the notice of every Juniatian. Soon, under the editorship of Stanley Stroup, the weekly established itself as the most potent influence on the campus.

Since then each issue has evidenced some improvement, mechanical or editorial, until the Juniatian now merits a significant place within the membership of the Inter-Collegiate Newspaper Association. This year the staff, headed by Robert Patrick, has been especially lavish in featuring Juniata's fiftieth anniversary and has aided greatly in the publicity incidental to the $750,000 Jubilee Campaign.

THE duty of the college Press Club is two-fold: First, to adequately advertise through the public press, the outstanding events of the college, and second, to supply the staff of the "Juniatian" with experienced news writers.

Organized in the fall of 1923, the club took for its motto, "Publicity above all things." And it is now communicating regularly with more than a hundred newspapers in Pennsylvania, North Carolina, Maryland, Ohio, New York and the District of Columbia.

The present year has been one of great advancement for the Press Club. A complete reorganization was effected in the fall with a somewhat restricted membership to which a very small group of Freshmen was added at mid-years. The resultant organization, aided by Dr. Norman J. Brumbaugh, publicity director, has been invaluable in supporting the Jubilee Endowment campaign, and in securing due publicity for the activities of Juniata's 50th anniversary year.

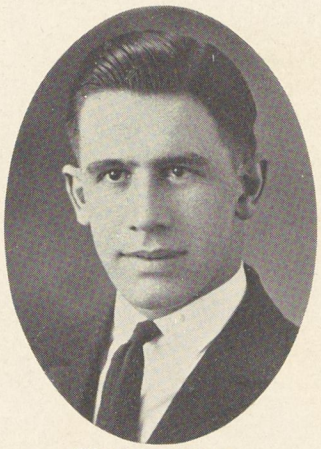

THE HAND BOOK

The Hand Book, which made its first appearance on the campus in the fall of 1924, has supplied a long felt need of the college. It is published under the auspices of the two Christian Associations with the purpose of aiding new students.

Volume II of the publication was edited by Newton Taylor, '26, and managed by James Weimer, '27.

Athletics

COACH AINES

Football

1925

THE opening of the 1925 football season began the regime of P. D. Aines as coach of Juniata College athletic teams. A large group of football candidates was conspicuous by the absence of heavy material; and to this can be attributed the fact that the Blue and Gold were unable to dent the win column. However, in no contest were they completely outclassed. Six of the conflicts were unusually close, a remarkable showing for the light Indian eleven. The schedule was one of the most difficult attempted in years, for on each successive Saturday Juniata went out of its class; but the final scores always revealed that the plucky little team had battled tenaciously to the end.

On September 26, the Schuylkill "Miners" invaded Huntingdon and engaged in a great battle royal with the Blue and Gold, neither team being able to score during the first half, but in the final period the superior weight of the invaders began to make an impression on the already weak Juniata line, and a few minutes before the final whistle, the Reading team shoved over a touchdown which was plenty to assure them of victory.

The following Saturday Captain Giles and his mates traveled to Washington, D. C., where George Washington University excelled 32-0. The first half ended 6-0 in favor of the Capitol City aggregation, but again as in the first game the line was unable to withstand the pounding of the heavy G. W. U. backs, and the opponents were able to score at random.

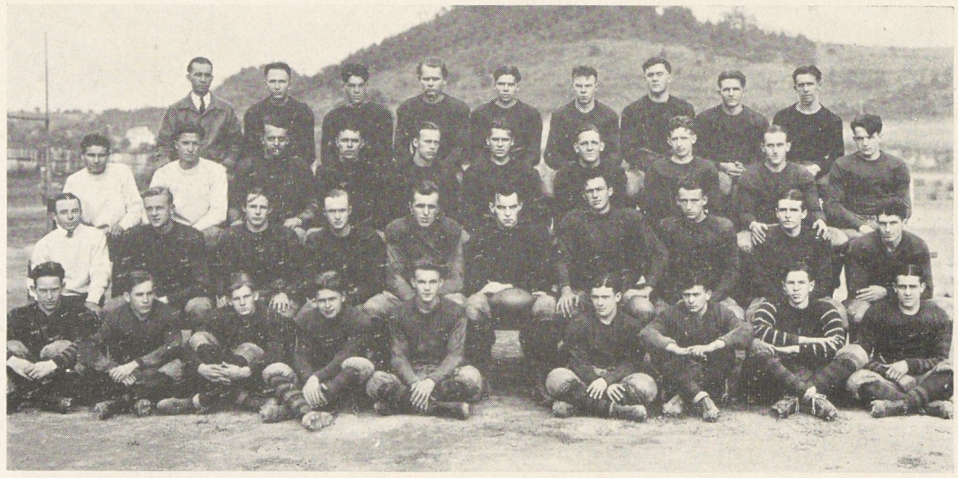

Davis-Elkins, who earlier in the season had thrown a scare into West Virginia University, had their hands full repelling the invading Juniatians. Coach Aines, seeing the futility of straight football, had perfected a great forward passing attack that loomed dangerous. However, D. & E.'s veteran team was equal to the occasion and served the visitors a 27-0 setback.

Next the Ursinus Bears were met at Collegeville. A blocked kick covered by Kelley was responsible for Juniata's first touchdown of the season. This, however, was not enough to win the game and again the Indians had to be content with the short end of a 19-6 score.

After a week's layoff, Coach Aines' men swung into action again on Home Coming Day with the traditional rivals, Susquehanna University, as the attraction. The "Little Crusaders" were no match for Juniata, but the muddy field stopped the J. C. backs who were unable to tear through the holes the linesmen made. It was a tough break for at the close of the hostilities a scoreless tie had resulted.

Newark, Delaware, the home of Delaware University, was the sight of the next encampment. An injury to "Cam" Easton, 1926 captain, in the first half, crippled the chances of victory. At the time of his accident "Cam" had been a thorn in the side of the Delawareans and was going great. Delaware's strong team was fortunate in landing the 13-6 decision.

The final home game found Alfred University as the opponents. A blocked

kick which was soon converted into a touchdown by the New York Staters was responsible for the second 6-0 defeat of the season.

Pennsylvania Military College, with one of the best teams in the east, was met in the final game at Chester. The Cadets were stunned by the super-human efforts of J. C.'s pigskin artists and were extended to the limit to win by a 38-24 score. This was a fitting finish for such a hard fought season.

The team will lose Pentz, M. Snider, R. Snyder, Schlosser, and Livengood, all varsity men; yet the prospects for the 1926 season are bright, and the utmost confidence is placed in Coach Aines to produce the first really successful machine for Juniata.

MANAGER GIBBLE

CAPTAIN GILES

Tackle

For three seasons "Lanky" has been an outstanding figure in the forward line—few teams being able to gain through him.

LIVENGOOD

Assistant Coach and Fullback

"Bill" assumed the role of assistant coach early in the fall, but when the team was hard up for men, he stepped in and admirably filled the fullback position.

CAPTAIN-ELECT EASTON

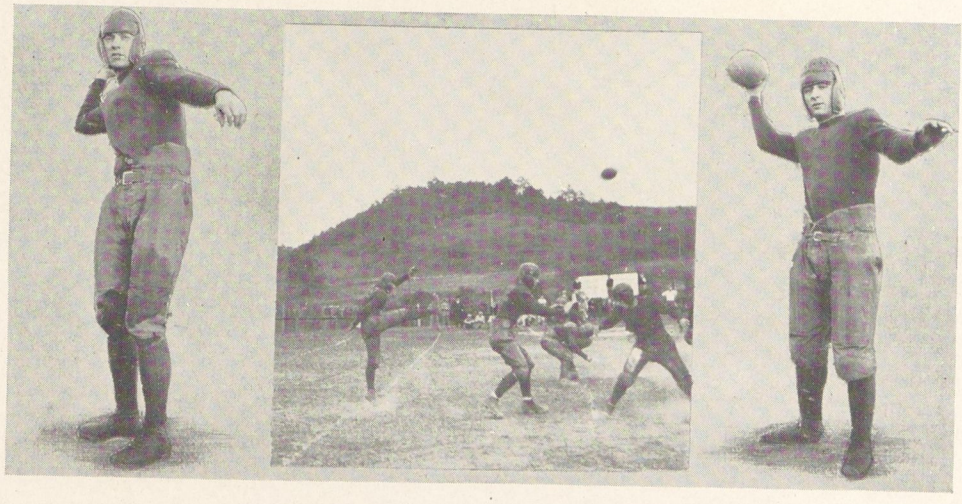

Halfback

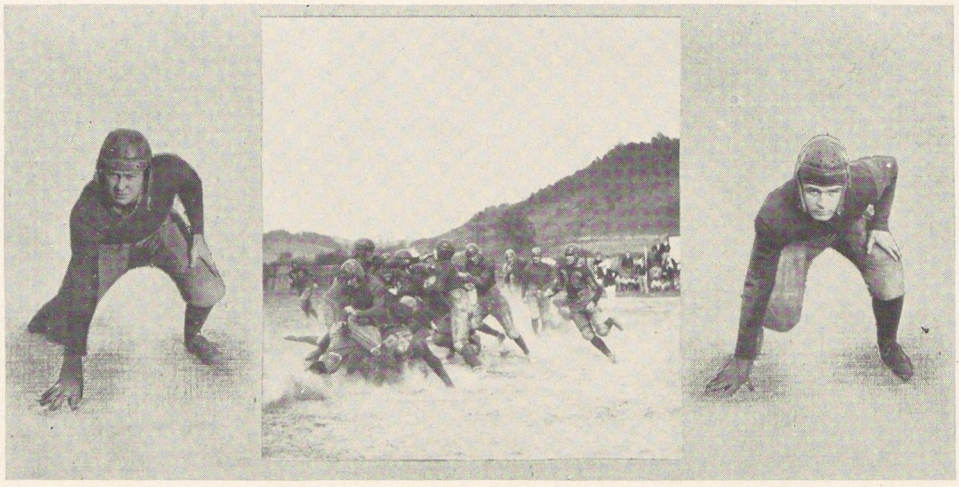

"Cam", the lad from the Sunny South, has been a valuable man to the Blue and Gold, and with him at the helm, the 1926 eleven should have a successful season.

SCHLOSSER

Quarterback

"Eddie" has always been known in athletics for his consistent playing. This year he was changed from halfback to quarter and filled it very capably. "Eddie" was also a fine passer.

M. SNIDER

Tackle and End

Here we have the only four letter man in college. "Mike" has been of great value to the team because of his ability to shift to any position and give a good account of himself.

PENTZ

End

"Clary's" ability to snatch passes, bust up opponents' plays, and his speed in getting down the field under punts has made him a great asset to the Blue and Gold machine.

R. SNYDER

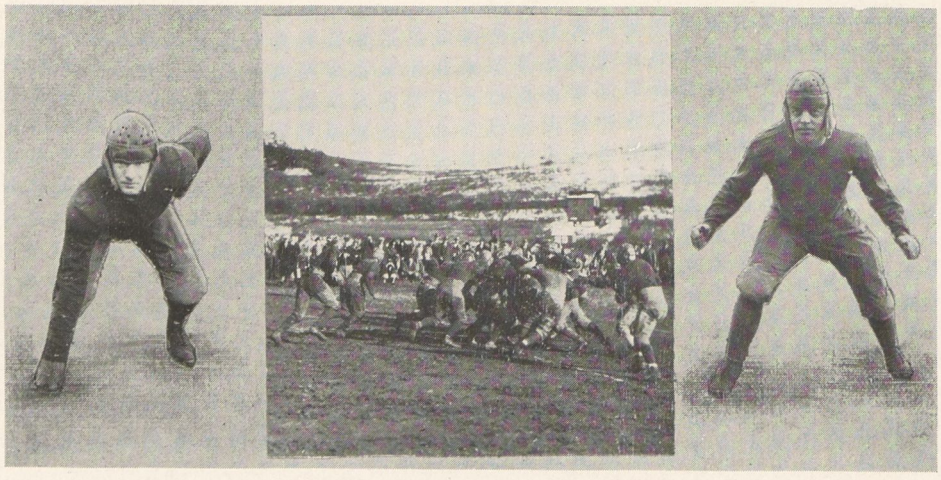

Halfback

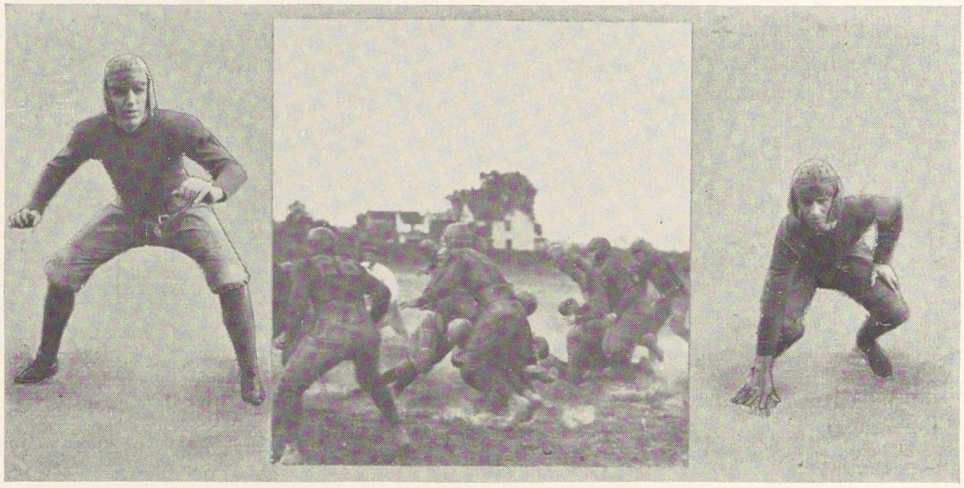

Although "Dick" has attained far greater fame on the diamond than on the gridiron, his elusive running with the ball has proven a very valuable asset to the team.

LAWSON

Guard

"Abe" came to Juniata without much experience in football, but his fight soon won him a place on the team. He is very adept in diagnosing opponents' plays.

GROVE

Tackle

"Big Boy" was the hard luck man of the team, being unable to play in but five of the contests. His loss was a severe handicap to the eleven.

WEST

Quarterback

"Bill" has all the scrap in the world and always shows good headwork when in the game, but is a bit too light to hold down a regular position.

KELLEY

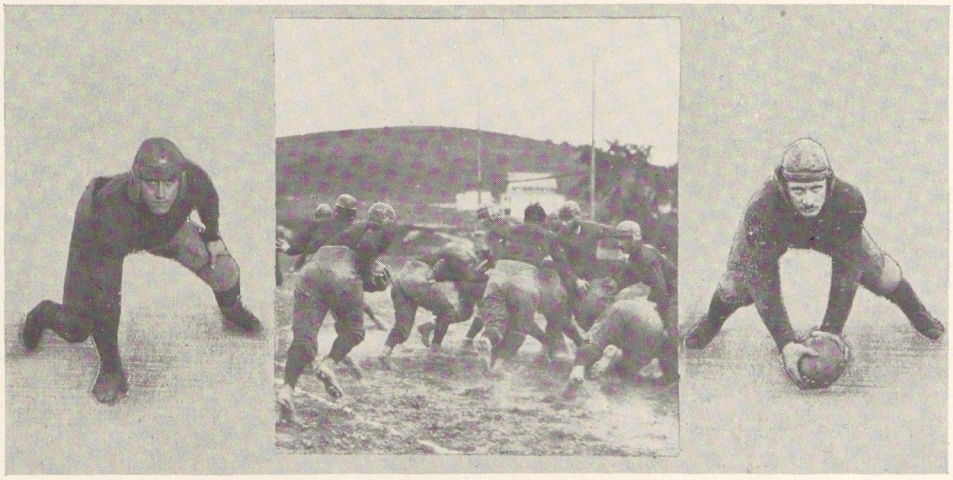

End

To "Jerk" goes the honor of scoring the first touchdown of the season. He is a fine man on the defense, and isn't slow in getting down the field under punts.

PFROGNER

Center

When it comes to football sensations, "Frog" takes the lead. He had his whole heart set on the game when Cupid came along and clipped him from the rear.

DOUGLAS
Guard

"Red" was perhaps the best fighter on the team; for although handicapped by lack of weight, he was always in the center of every mixup.

DICK
Tackle

To "Roy" goes the honor of being the only member of the class of '29 to win a letter on the gridiron. It was his hard work that brought him this reward.

Junior Varsity

Too much credit cannot be given to the Junior Varsity, who make possible the fine work of the first team. They are the men who take the brunt of the punishment each afternoon, but they are also the fellows, in the next year or two, who are to step in the front ranks and command the attention that is due them.

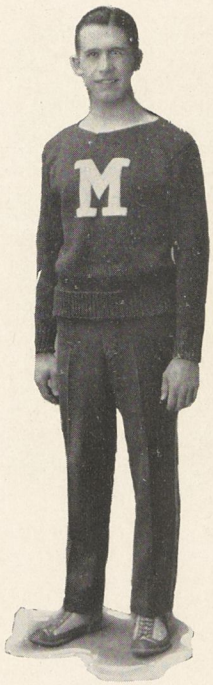

In the two games played, the Junior Varsity showed a great fighting spirit and a knowledge of the fundamentals of football. Against Tyrone High School, they fought a great uphill battle, losing out, however, on a 13-6 count. A few weeks later, when better organized, they took on a stiffer opponent, Lewistown, and easily defeated them 13-0.

Schedule for 1926

September 25—Albright	Myerstown
October 2—Duquesne	Huntingdon
October 8—Alfred	Alfred, N. Y.
October 16—(Open)	
October 23—Susquehanna	Selinsgrove
October 30—Haverford	Huntingdon
(Alumni Homecoming Day)	
November 11—Carnegie Tech.	Pittsburgh
November 20—Penna. Military	Chester

Basketball

1925-26

COACH AINES

IN SPITE of the fact that there were six defeats to mar the record, basketball at Juniata College during the season was an unqualified success. Three of the setbacks were by a margin of two points and this does not clearly show which team is the better. The most remarkable achievements of the season were the defeats administered to Washington and Jefferson and Catholic University in the final games.

Great things were expected by the student body of this year's squad, and great things were accomplished as is evidenced by the many notable victories that were scored. When the opening game of the season came, everybody was out to see a Juniata victory. Much to the surprise of even the most optimistic supporters, the team overwhelmingly defeated the strong Altoona Overland club by the score of 61-27.

Following this game still greater things were expected of this superb scoring machine. When Penn State's Nittany Lions were met, everybody was confident of victory, but due perhaps to this over-confidence, the team was badly beaten by the Blue and White 38-22—this being the worst defeat of the season.

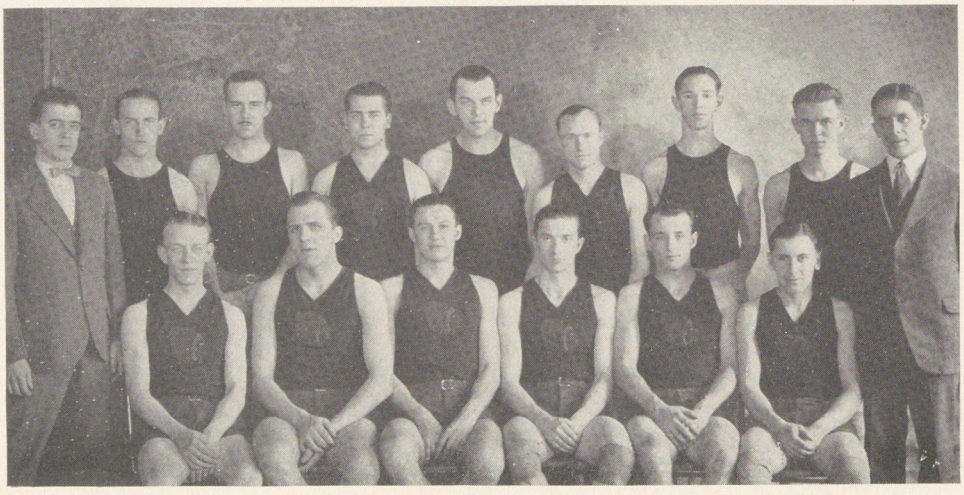

Two days after returning from the Christmas vacation, the team met and defeated her traditional rival, Susquehanna, at Selinsgrove, amassing a total of 38 points as against 24 for the opponents.

For the first time in three seasons, the Blue and Gold dropped a home contest, being defeated in a hard fought game with the Lebanon Valley quintet 31-23. Again the team met Susquehanna, and again they were beaten, but this time on the home floor 38-29. The following night the team subdued the powerful Mt. Saint Mary's College five by making a great finish after the Saints had threatened to subdue the local outfit.

After a two week layoff the Indians met the Bucknell Bisons and were outclassed 33-23. For the second straight the Blue and Gold were repulsed, losing to Ursinus 27-25. It was perhaps the most thrilling game of the season, for no less than three times in the last few minutes of play was the count tied, and just as the final whistle blew Captain Livengood pierced the net for a basket that would have tied the score.

Undismayed by the heart-breaking loss of the previous night, the team came back and walloped the Philadelphia College of Osteopathy 45-22. The entire second team played a greater part of the time.

The Indians now started out on the war path in search of more scalps and in their first battle defeated the Blue Ridge College quintet at New Windsor, Maryland, 33-18. The following night they raided the St. John's Military College and came out with a close win of 28-26. With the pep of the tribe running high they traveled to Washington College only to be repulsed in a hair-raising contest and on a questionable decision by the margin of 2 points, 27-25. Keeping on the trail

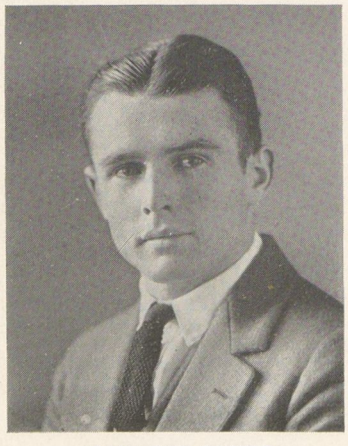

Wiest Kelley Williams A. Snyder Giles R. Snyder McDonough Wagner Aines

northward, the Indians attacked the Cadets of the Pennsylvania Military College, but were defeated by the same margin as the previous night. The score being 33-31. Although the defeat was not overwhelming, several members of the team were unable to return for several days after the fray—'tis thought they met and engaged in battle with some Swarthmore squaws.

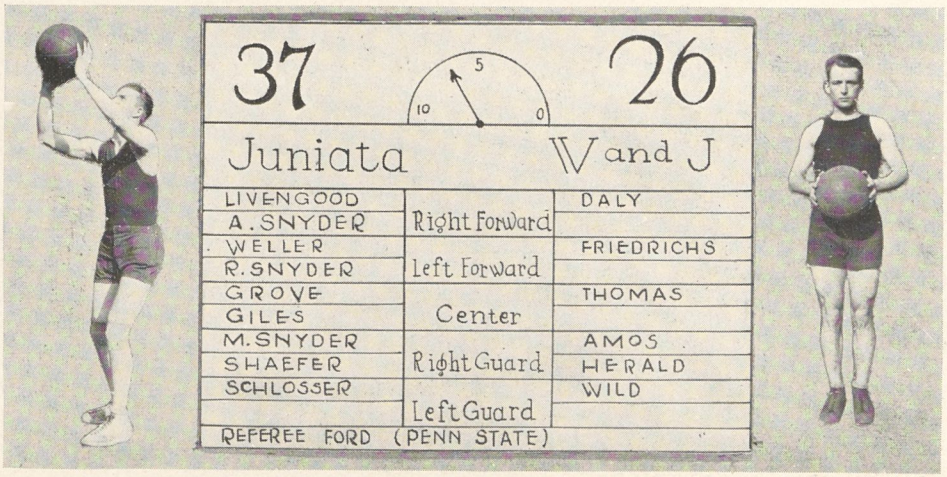

The closing games of the season were the greatest victories Juniata has ever achieved on the court. In bang-up fashion the J. C. quintet defeated two teams which previous to their visit to College Hill had long strings of victories to their credit. In the first game the Washington and Jefferson College team was met and decisively beaten 37-26. The following night marked the close of the season. The Indians again went wild, defeating Catholic University 32-29, who two nights previously had overwhelmed the strong Princeton University quintet. The tribe started this game by piercing the net for ten points before the Capitol City lads knew what it was all about. It was this lead that cinched the game.

It is a rare occasion when there is no outstanding man on the squad; yet this condition existed in the team which Coach Aines developed during the 1926 season. By his untiring efforts he moulded together a combination which was weak in no department—an accomplishment which is a credit to any coach.

Graduation this spring will greatly threaten the team for next season since Capt. Livengood, M. Snider, Schlosser and D. Snyder, veterans on the court, will be lost. However a good lineup of candidates will be available when the first whistle blows next fall.

MANAGER PENTZ

CAPTAIN LIVENGOOD

Forward

"Bill" has rounded out one of the most brilliant careers of any basketball player ever to represent the Blue and Gold. For the past two seasons he has been Juniata's high point man.

M. SNIDER

Guard

"Mike" rounded out his best year on the court. Due to his ranginess and shiftiness, he was an infinite aid to the famed Blue and Gold defense.

SCHLOSSER

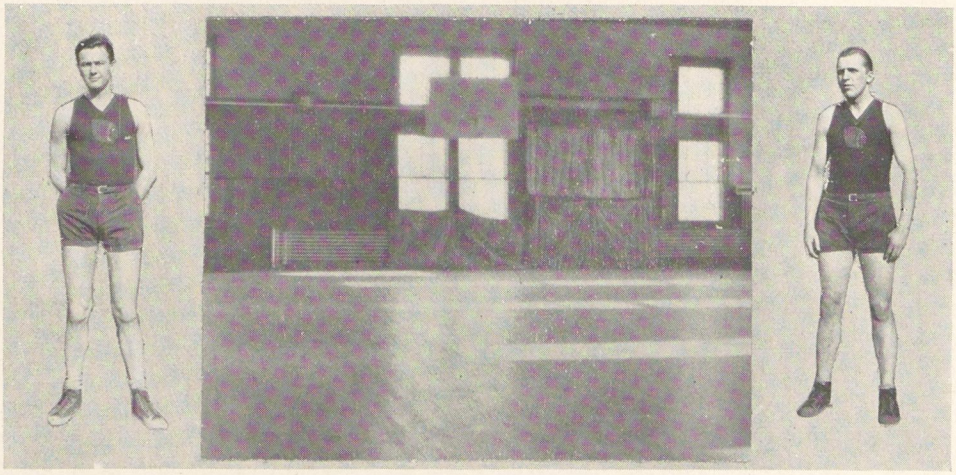

Guard

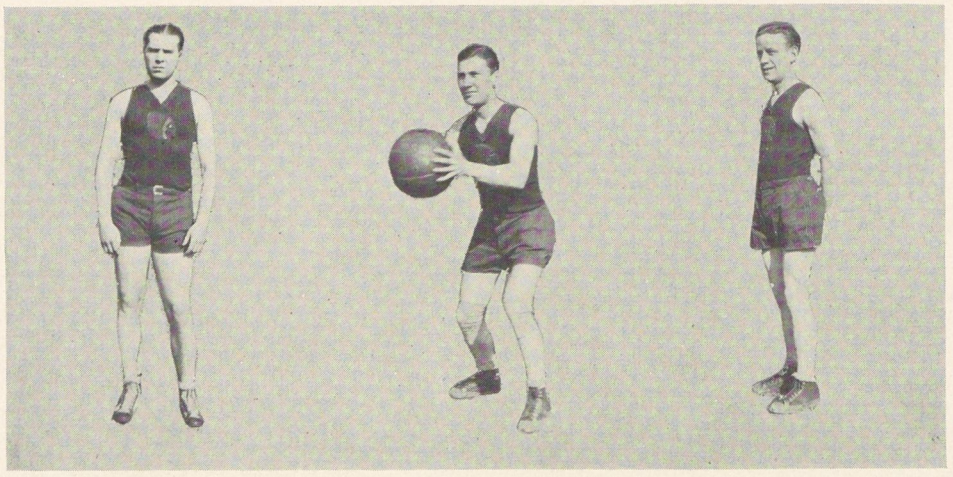

"Eddie", though never spectacular, was the most consistent player on the team. His guarding contributed to many of the victories of the Indian courtmen.

GROVE

Center

"Walt" has been a tower of strength to the quintet for the past three seasons. At center he rarely fails to get the tip-off, while at guard he is supreme.

A. SNYDER
Forward

"Al" came to the Hill from Bucknell with the reputation of being a fine all round basketball player, and he has lived up to the advance dope.

SHAEFER
Guard

"Jupe" was the "Jeff" of the 1926 squad, yet this proved no handicap to him, for what he lacked in height and weight he made up in speed and perfect teamwork.

WELLER
Forward

"Heck" has proven himself to be the best floorman in the history of the court game at Juniata. His ability to anticipate the foe's next move has been a feature of his playing.

Junior Varsity

In every sport there are always those men, who are not quite capable of making the grade to the first team. These are known as the Junior Varsity, and rightly so, because they are usually players of the two lower classes, who have not had enough experience to obtain a regular berth, but when they have mastered the technique of the game they will fill the positions left vacant by those who are graduated. Besides learning the game the Juniors teach the regulars the lesson that a team is never too good to be beaten. This is a help to the coach, for he is able to keep the cocky attitude out of the minds of the players.

During the season the team dropped two close games to the Altoona Apprentice School by the scores of 21-16 and 23-18, while an even break was recorded against the champion Mount Union High School, losing 31-20, then winning 38-11.

Varsity "J" Club

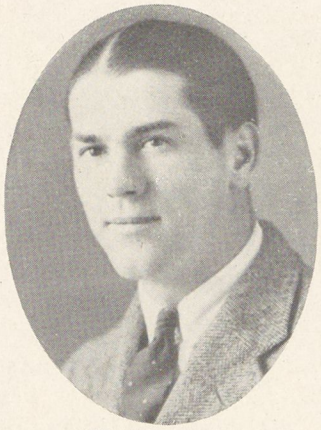

EDWARD SCHLOSSER - - - *President* JAMES WEIMER - - - - - *Secretary*
MIKE SNIDER - - - *Vice-President*

THE Varsity "J" Club, which has been one of the leading campus organizations since 1920, has for its purpose, the promotion of a greater interest in athletics, the upbuilding of a greater college spirit, and the establishing of a closer contact between the college and the Alumni.

This body at its meetings takes up all matters which are for benefit of Juniata in the field of athletics. It is the sponsor of the Alumni Home Coming Days and plans complete entertainment for old grads who return to their Alma Mater. One of the major accomplishments during the past year was the establishment of a standard gold "J" which may be worn only by the letter men and which may be placed only on a navy blue background.

It is the express duty of each member of this club to attempt to bring to Juniata the best athletes to be had, but only those who will fit into the life of the college.

Membership in the "J" Club is limited to those lettermen who have gone out and fought for the honor of the Blue and Gold, giving all they had in striving to put Juniata at the summit of the collegiate athletic world.

COACH ROTE

Baseball

1925

THE smoke of the basketball season had scarcely cleared away, when Coach "Rabbit" Rote issued a call for baseball candidates. Forty men answered the call, among these were Captain Snyder, Fisher, Peiffer, Weimer, Mansberger, and West, veterans of the 1924 season. This made the prospects for a successful season loom bright, but there was a dirth of new material capable of filling the gaps left by the men who were graduated.

After a couple weeks of indoor work and a few days on the diamond, the Indians clashed with the Lions from Penn State, but were badly clawed before the nine innings had been completed, the result being 11-4. Following this disaster "Rabbit" put his men through a few days of hard work and then again met the Lions in a titanic eleven inning battle, which resulted in a 4-4 tie, when the game was halted by darkness.

Spurred on by this showing the team made its annual western invasion, meeting Carnegie Tech in the opening game at Pittsburgh. This game developed into a hectic slugging match, with the "engineers" holding an 8-6 advantage at the end of the fray. The following day the Duquesne "Bluffites" took the Indians into camp 9-4. Undismayed by the failure to win these two games in the Smoky City, the squad hit the trail southward to meet West Virginia University in a two game series. The first game was a shutout victory for Juniata, due to the masterful pitching of "Dick" Snyder in his initial appearance in the box. The score was 4-0. The "Mountaineers" came back strong the next day and handed the invaders a 10-8 setback.

The following week, the team defeated the ancient rival, Susquehanna, 10-2, but again an enemy came back and took a win from Juniata, this time the "Little Crusaders won a 4-3 victory, after a hard fought ten inning contest on their home lot.

At last the team hit its stride and won the next four contests, the most difficult on the schedule. The first game brought the strong Mt. St. Mary's College team to the home lot to face defeat. The Emmittsburg Collegians were the hardest hitting club to come here in many a moon, but Snyder had carefully studied the opposing batters and as a consequence set them down with the short end of a 6-5 game. The Duquesne nine came to College Hill with the hopes of sinking Coach Rote's proteges, but were subdued after a thrilling battle 4-3. "Moose"" McCormick, of big league baseball fame, brought his Bucknell "Bisons" to the hill to stop the plundering Indians, but Snyder and his tribe sent the "Bisons" thundering away with a 4-1 defeat tagged to them. New York state now sent its representatives in the form of St. Bonaventure to rout the Blue and Gold but they were easily beaten, 9-2.

The streak was abruptly broken when the eastern trip was taken, for the locals lost all the games. First Bucknell out-slugged the Blue and Gold, winning 21-8. Then Mt. St. Mary's gave the team a severe setback, shutting them out 6-0. But the last one was a tough game to lose, the decision going to the Lebanon Valley

nine when the infield erred and allowed a run to cross the plate after Snyder had set the Annville Collegians down with three hits in nine innings.

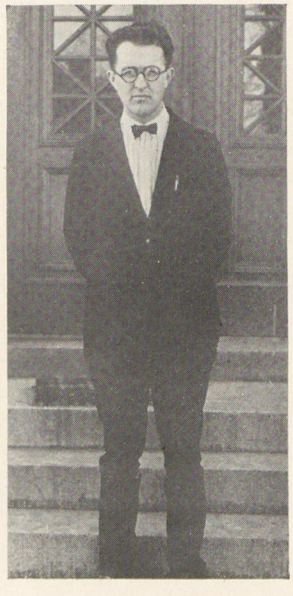

The last games of the schedule resulted in victories for Juniata. On Memorial Day the team won from the Harshbarger club of Altoona, 9-2; and closed the season on Commencement Day by reversing the tables on Lebanon Valley, winning 6-2.

Too much cannot be said of the tireless efforts of Coach "Rabbit" Rote who did everything in his power and knowledge to win games for the Blue and Gold.

Junior Varsity

In order to have a successful baseball varsity, there must always be a good Junior Varsity. It is this reserve group that in reality makes the first team, in that they are always fighting to win their way to the regulars; thus making the veterans put forth their best efforts to hold their positions.

Not only do the J. V.'s put more fight into the Varsity, but they are being taught the game from the ground up, so that they will be qualified to take their positions in the front rank when the opening comes. Upon these men depends Juniata's future baseball success.

MANAGER BECHTEL

CAPTAIN R. SNYDER

Pitcher

"Dick" has been the mainstay on the mound for the last three seasons. His record stands him in the front rank with the best players to ever represent the Blue and Gold.

FISHER

Outfield

Compiling a batting average of .500 for the season is some job, yet this is what "Fish" did during the 1925 season. As cleanup man, he instilled fear into all opposing twirlers.

CAPTAIN-ELECT WEIMER

Third Base

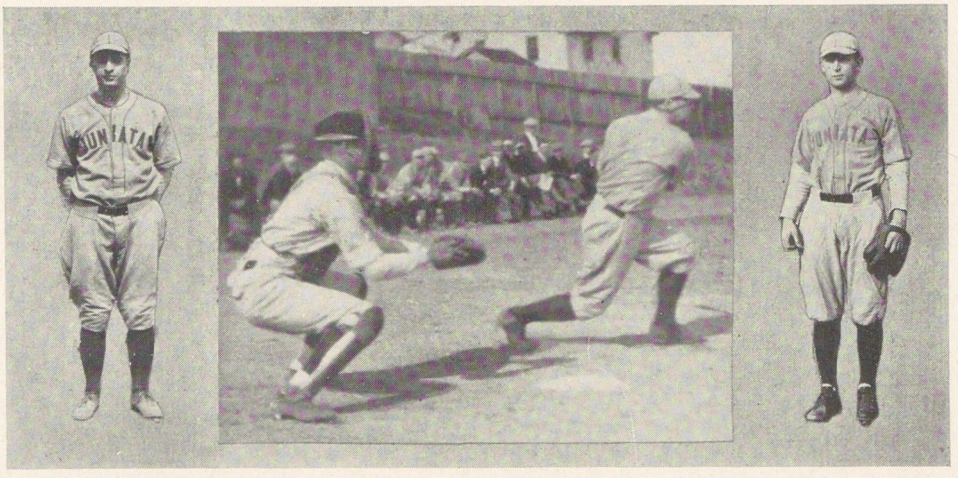

For three seasons "Jimmie" has successfully held down the hot corner. With this experience, he is well qualified to lead the 1926 nine.

MANSBERGER

Pitcher

To "Lefty" goes the honor of holding State's Nittany Lions to a tie. He has perhaps the greatest assortment of twisters in collegiate ranks.

PEIFFER

Catcher

Without "Peif" the team would have been without a backbone—he rarely failed to stop an attempted steal for a base, and carefully studied each batter.

SCHLOSSER

Pitcher

"Eddie" was the reserve hurler of the squad, but when the team was in a hard pinch, he was always able to come through effectively.

WELLER

Shortstop

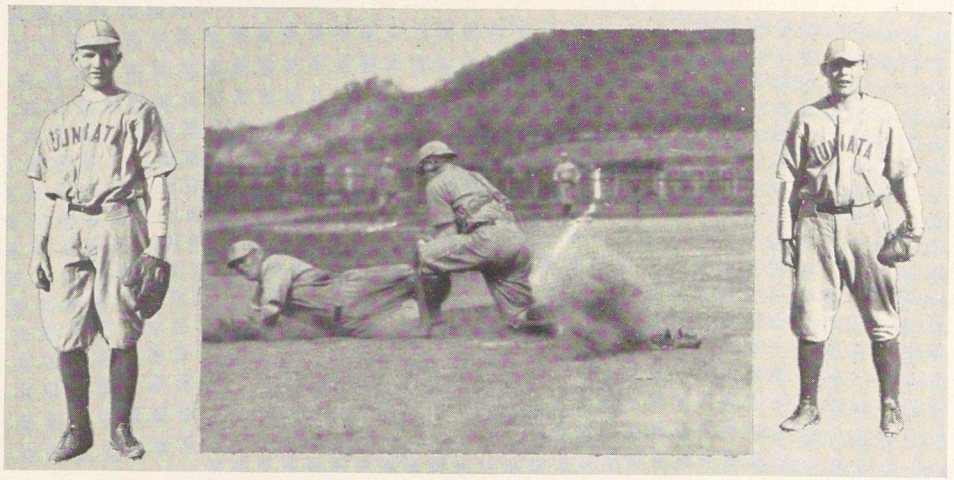

"Heck" was the "Nick" Altrock of the 1925 infield; and at bat he was usually able to work the pitcher for a free ticket to the initial sack.

WEST

Outfield

"Bill", although not a heavy hitter, was the most dangerous man on the club in the pinches. Besides this he was a brilliant fielder.

McCLAIN

First Base

"Mac" was the lifesaver during the last season. His ability to fill the open gap at first gave him this distinction. He was also used in both infield and outfield.

H. SNYDER

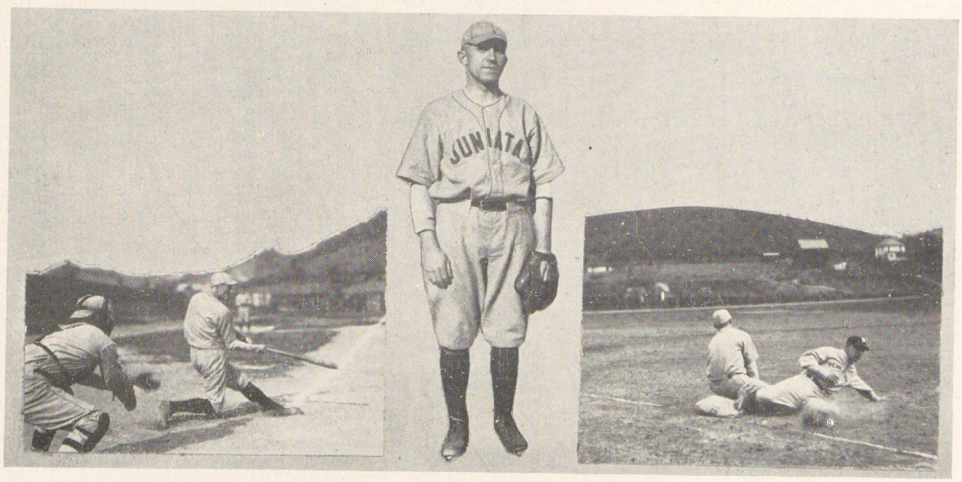

Second Base

"Tim" looked like the find of the season in the preliminary practices, but some bad breaks in the first few games took all the pep out of his playing.

DIEHL

Pitcher

"Buckets" experienced an off year; things didn't seem to break right for him while on the mound; nevertheless, his work on the infield was very creditable.

Track
1925

COACH STAYER

THE record of the track team of 1925 was the most outstanding in the history of the sport at Juniata. Although there were five lettermen back from the 1924 season the outlook did not seem so promising since all but one of the meets were to be contested on foreign fields. This is a severe handicap, as the visitors are usually unable to carry a complete squad.

The season was opened with a bang, when the relay team, composed of Easton, Leiter, Capt. Pentz, and Trout, carred off second prize in the mile relay for Class B Colleges, in the excellent time of 3 minutes, 31 seconds at the Penn Relays.

Two days following, the annual inter-class games were held, to bring out all the new material which had not been previously discovered. For the second successive year the banner was won by the class of '27, after a hard struggle with their rivals of 1924, the class of '26.

Under the direction of Coaches Stayer and Engle, the team went south and met the George Washington University squad at Washington, D. C. The meet was contested against a team composed of men who had formerly won their letters at other colleges, but were now in the service of the Government, taking additional work at the University. The score was 81-45.

The following week the Blue and Gold trackmen met Franklin and Marshall College at Lancaster, but were sent down to defeat due to inability to come through in the weight events, in which they were able to get but three points out of the possible twenty-seven. However the final events decided the meet against the Indians 70½-55½. In this meet Easton equalled the Juniata 100 yard mark which had stood for twenty years unmolested. Captain Pentz started his record-breaking performances in this meet by setting new college marks for both the high and low hurdles.

On May 16, ten representatives of the Blue and Gold were sent to Harrisburg to compete in Class B of the Central Pennsylvania Inter-collegiates; and these men amassed a total of 74 points, defeating Susquehanna, the nearest rival, by 32½ points. Pentz continued to topple the hurdle records, again setting up new marks, while Easton won the two dashes and the broad jump. Patrick broke the Inter-collegiate and college record for the mile run, when he covered the distance in the excellent time of 4 minutes, 42 seconds. As a reward for the winning of the meet, the college obtained the possession of the trophy offered Class B colleges for the period of one year. This trophy becomes the permanent possession of the team winning it three times. At present Juniata and Susquehanna each have one leg on it.

ASST. COACH ENGLE

Engle Gibble Neff Livengood Patrick Grove Snider Cozzens Giles Leiter Taylor Daly Stayer
Bechtel Wiest Baugher Funkhauser Stroup Pentz Groff Easton Debolt Trout

The concluding meet of the season was contested against the traditional rivals, Susquehanna, in which the Indians trampled all over the "Little Crusaders", winning 90½-35½. The outstanding events on the program were "Mike" Snider lowering the college two mile record, Captain Pentz again setting new marks in both hurdles, and Grove hurling the discus 117 feet. For the third successive Saturday, Easton won the 100 the 220, and the broad jump.

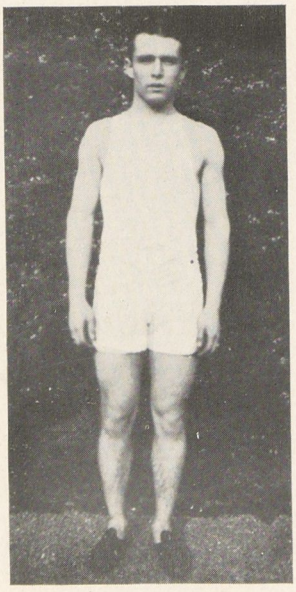

Much credit for the success of the team can be given to Coach Stayer and Assistant Coach Engle, who spent every afternoon down on the track giving aid to those who wished it.

CAPT. PENTZ
Record Holder for High and Low Hurdles

1876 — 1926

CAPTAIN-ELECT PATRICK

Distance

"Pat" has been one of the mainstays in the distance events for the past three seasons. He is present holder of the college and Central Pennsylvania Inter-collegiate mile records.

M. SNIDER

Distance and Jumps

"Mike" has been a very versatile man on the track team, competing in both the high jump and the two mile, an accomplishment rarely heard of. He holds the record for the latter event.

GROVE

Discus

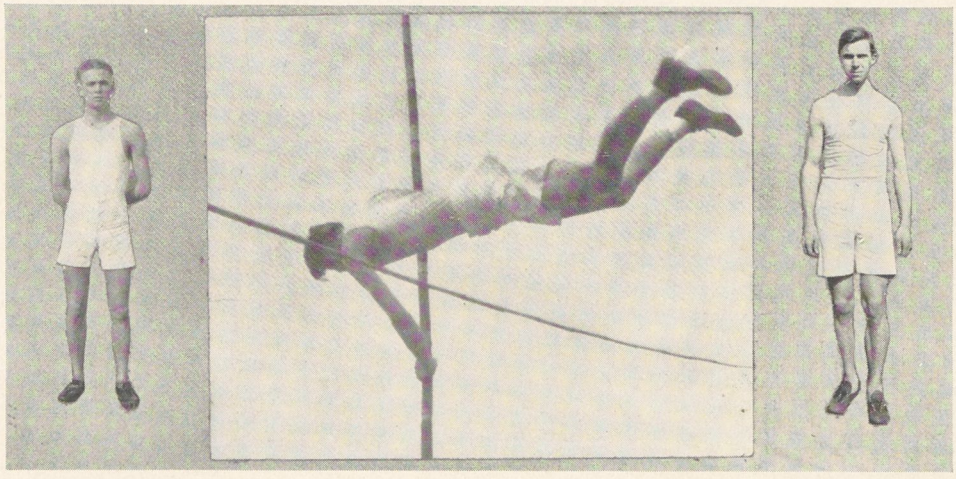

This young giant of the squad found out that size was no hindrance to a track man. He has been successful in setting a new college record for the discus.

GILES

Javelin

"Lankey's" throwing of the javelin in the latter part of the season was very creditable, and greater things are expected of him this year.

GROFF

Hurdles

Paul has been the find of the team—having come to Juniata without ever having donned a spike. The hurdles and the high jump are his best bets.

LEITER

Middle Distance

Ralph is an example of success in track through hard work, and it was his constant training that brought him the coveted "J".

TROUT

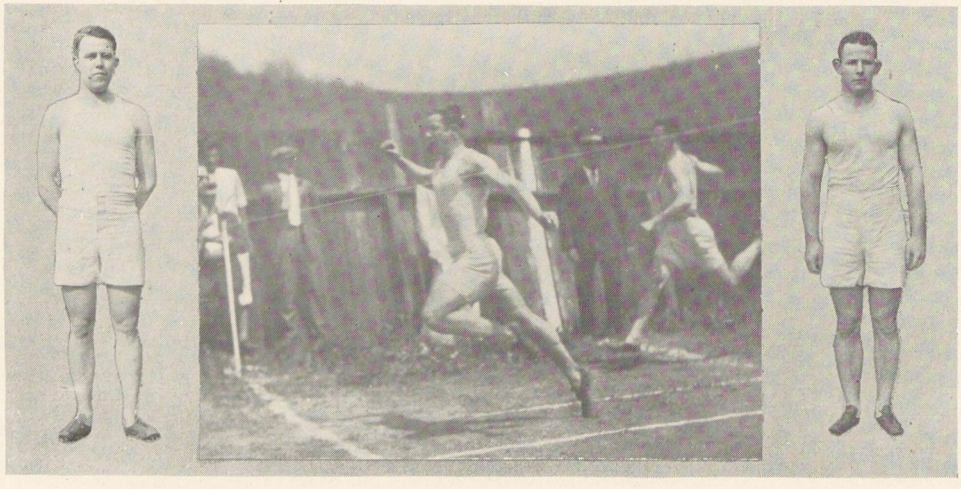

Dashes and Javilin

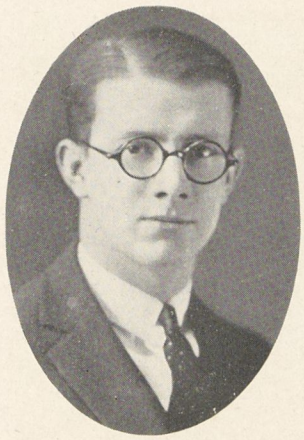

Though "Fish" didn't show the form of the previous season, he was one of the squad's chief point-getters. The coming season he should regain his old-time speed.

EASTON

Dashes

Although "Cam" didn't round into shape until the middle of the season; nevertheless, his sprinting in the latter part made up for this.

COACH MEHL

Tennis
1925

TENNIS is one sport which is on the decline at Juniata, and it would not be in existance here today had it not been for the intense interest which Dr. Mehl, head of the Chemistry Department, showed. Coach Mehl spent many hours of valuable time in attempting to put together a formidable team. During the 1925 season the racket weilders played one of the hardest schedules ever attempted by the Blue and Gold.

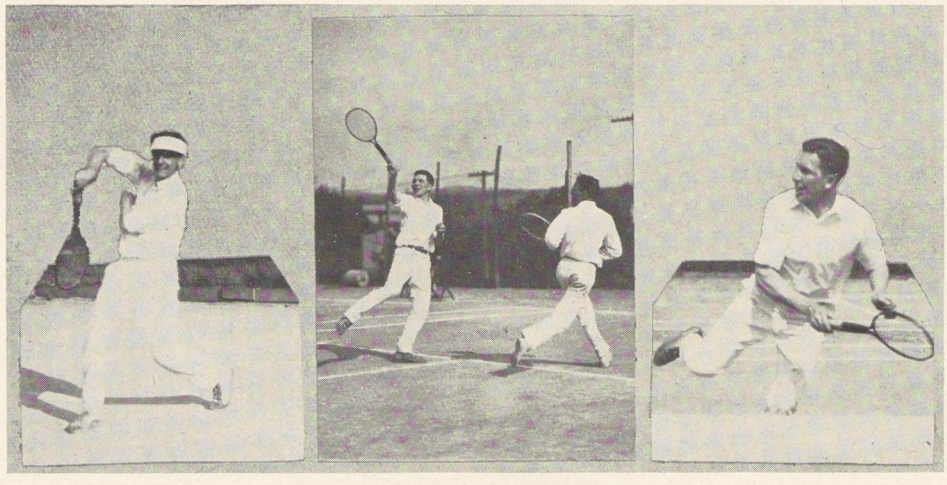

The opening match found the Indians engaging the local Country Club in a practice match, which resulted in a 4-2 triumph for Juniata. Following this match, the quartet sallied forth on their western trip, but were forced to succumb to the opponents, losing first to Duquesne 4-2, then to Pitt 5-1.

The next contest, played with Western Maryland, was marked with better success, a 3-3 tie resulting. Susquehanna was met at Selinsgrove and again a tie resulted. Bucknell, Pitt, and Duquesne came to the College courts and vanquished the Indian players, 5-1, 6-0, and 4-2, respectively. These three teams were on a par with any College or University in the country. The last two matches were played at home and resulted in 3-3 ties. Susquehanna and the Alumni were the opponents.

As a whole the team deserves the highest commendation of the College for the creditable showing made against such a strong group of opponents.

CAPTAIN ELLIS

In C. C.'s son the College has one of the outstanding players in eastern collegiate ranks. He has been a hard fighting leader for the Blue and Gold.

DALY

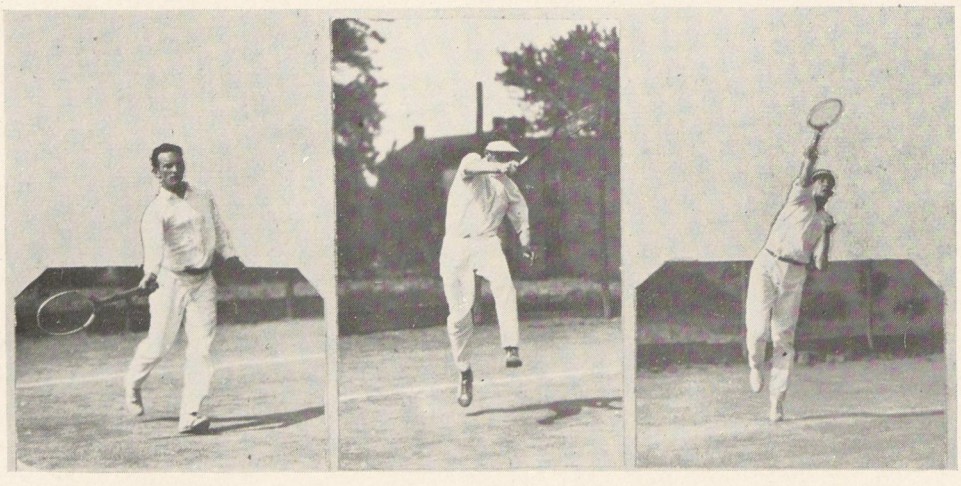

Tennis was "Shel's" third sport and he put up a fine game, but too much was expected of him after his phenominal showings in other athletics.

HURLOCK

Carl made his debut on the Juniata court team this season, and displayed a fine brand of tennis, although facing many exceptional opponents.

FUNK

Don, when paired with Ellis helped to form a very formidable doubles team that subdued many noteworthy of the opposing racket wielders.

Girls' Basketball

1925-26

COACH CHILDS

ALTHOUGH the season was not a startling success, the opponents that were encountered, possessed exceptional ability. In fact never before in the history of girls' basketball have the Blue and Gold lassies competed against such high calibre teams.

When the call was made, it was found that three of the 1925 sextet were still in college, namely, Captain Dugan, forward; Bosley, guard, and Mohler, side center. With these as a nucleus and many first class Freshmen to choose from, one could not help but picture a brilliant season. In the opening game the J. C. co-eds emerged victorious, 28-19.

Then came the real blow to the club, Thomas and Rhodes were lost. As a consequence, the Thiel College sextet romped off with a 38-11 victory. On the eastern trip, the Juniata "squaws" lost two close contests, first losing to Drexel 20-18, then to Dickinson, 41-30.

Undismayed by the two games lost on visiting floors, the locals started rampaging in the western part of the state. But again they lost two conflicts, on the opening night to Indiana, 26-10; then wiltering under the powerful attack of the Thielisiens, 36-6.

The players are to be commended for the fight which they showed against their more experienced opponents. Captain Dugan was always outstanding, while Holsopple, although small, was a consistent player. At center, Laing rarely failed to get the tip-off, while her side-kick, Mohler, was a great aid. As guards, Bosley and Grove were always giving their best for Juniata.

The history of the 1925-26 season is made. Victories won would class it very low in collegiate ranks. Yet the year was not without accomplishment. Girls' basketball was permanently established so that its right of existence at Juniata is no longer challenged. The J. C. co-eds also broke into the circle of schools famous for their girl athletes. So in an attempt to forecast the future everything points to the realization of a more extensive schedule against other institutions and a fuller participation on the part of the students. This should spur the new squad to greater accomplishment.

Hiking Club

JUNIATA'S co-eds long deplored the fact that basketball afforded the only opportunity for "earning" a letter. To remedy this situation the Y. W. C. A. Health Committee presented their problem to the faculty. As a consequence, the Hiking Club came into existence as an organization that was on par with girls' basketball. But to win a letter, a girl must hike a distance of six hundred miles, which is quite a job.

When the official start was made, many of the co-eds changed from their "daily dozen" to the "daily half dozen", but this was in terms of miles. Soon winter came and many of the hikers forsook the "daily half dozen" for the indoor "daily dozen". Those few who braved the winter storms are now on a fair way to be rewarded for their efforts.

With spring came a revival of pep, and in addition to the regular hikes, many early morning hikes were added to aid those who had been left stranded by the snows. Many of the present group of "heel and toe" artists will not win their letters, but even these will have received the benefit of upbuilding their bodies by this healthful exercise.

Alfarata's Diary

"Within these pages every night,
Brief memories of the day I write;
A little word, a single line,
Is jotted in this book of mine—
Not mighty deeds, just common things,
The tasks and pleasures each day brings.
And yet I hope that when I look
Over the pages of this book,
'Twill be (and, if so, I'm content)
The record of a year well spent."

SEPTEMBER

8th—This was a busy day, the halls again resounded with laughter. Dr. Dupler still knows how to smile. It's good to see the studes again.

9th—The Freshmen are reading their handbooks; they seem to be greatly worried about something.

10th—The family assembled under the auspices of the Y. W. and Y. M. for a social evening. Dan Cupid starts his work.

14th—John Herr has become very fond of music—Well, music hath charms.

15th—Haven's broken collar bone hasn't taken away his humor.

22nd—The Y. W. C. A. took all the girls to cold springs for ham and eggs. Flory proved that he knew how to serve food as well as put it away.

24th—Bill Junior arrives on College Hill—Here's to the future fullback of the Juniata eleven.

26th—Dropped the first game of the season to Schuykill; the coal miners can play. At the Faculty reception in the evening, fine feathers made a great difference in everyone's appearance.

27th (Sunday)—Freshmen line up strong at three P. M.

OCTOBER

3rd—Boys were defeated by George Washington University away from home.

7th—Interest picks up—Betty arrives.

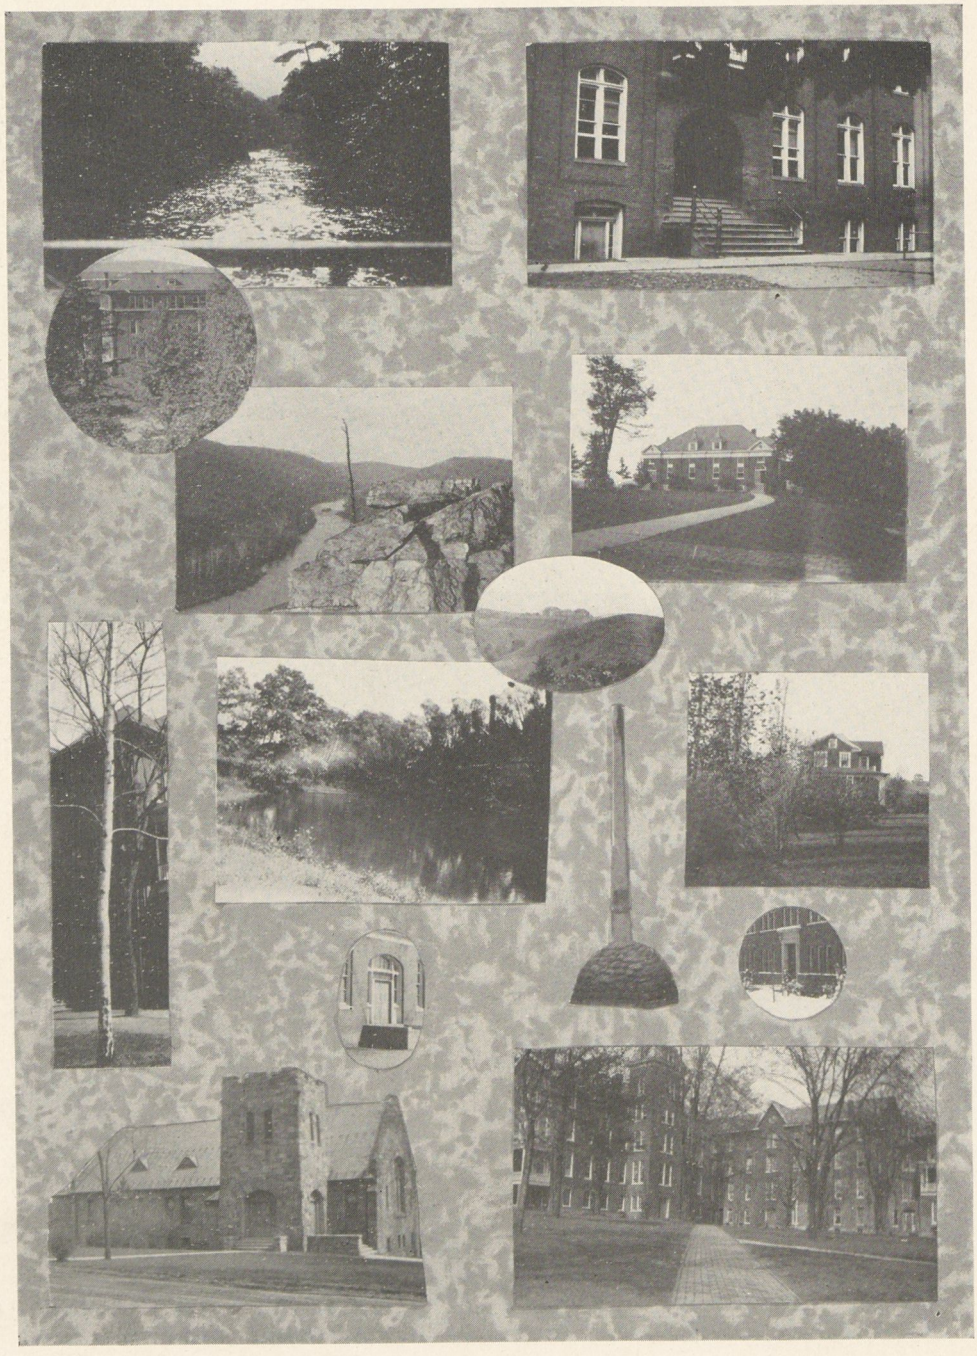

8th—Everyone went to the Forge for the outing. Many brave souls climbed to the fire tower. Eddie had his arms full. Irene and Trout have decided to make a new start.

9th—There are many tired muscles and some fluttering hearts today. There is nothing like mountain day to cause either.

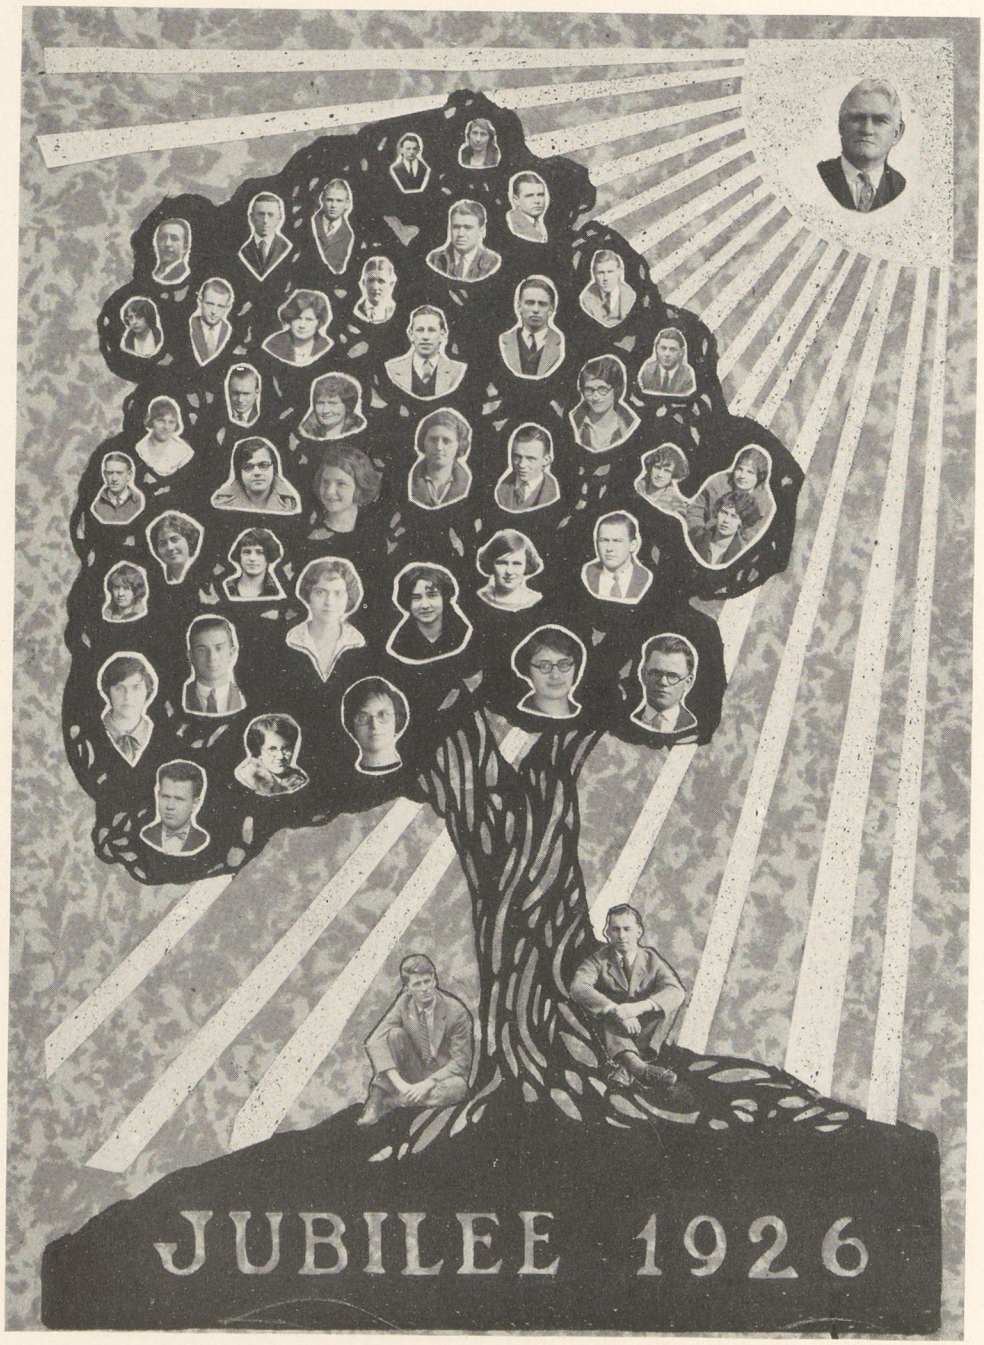

10th—Pentz's mustache comes off even though the game with Davis-Elkins was lost; there's a reason, it was just a "DOT".

16th—"Sparkle" proves herself a song bird as well as a fiddler at the first Student Recital.

20th—The night stillness was broken by an S. O. S. from the Dean for Mr. McCracken, the one night owl at Juniata. Gee! I was scared.

1876 — 1926

JUBILEE 1926

22nd—Harley has refused to do Freshman duty at the table in the dining room any longer.

30th—"Down with Susquehanna" prominently displayed all over the campus. Great preparations are being made for the Home Coming game.

31st—The athletic field is the scene of great activity and the Spirit of Juniata stood guard on Lion's Back. In spite of the 0-0 game there was great hilarity at the Hallowe'en party in the gym.

NOVEMBER

3rd—Mirrors are all overworked in preparation for Vanity Fair.

5th—"Diddy" reigns in "Quality Street". The play was pronounced a success by all who saw it. It will be possible for some people to take a few "nights out" now.

7th—Anne and Miss Childs are among those present at the Notre Dame game at State. A great many other Juniatians braved the rain and went to Delaware to see that game.

9th—Myrtle Walker wonders what is going on above her. It is merely Irene and "Cas" doing their setting-up exercises.

11th—"Diddy" is leaving for the "Sunny South", in other words, for Georgia. We are wondering what the attraction is down there.

14th—Our boys lost the game with Alfred U., but it was a good game.

20th—"Pinkie" appears upon the campus; now I know why "Diddy" likes the South and I approve of her reason.

21st—Last football game for the Senior men; it was one to be proud of, for the score was close.

26th—For once everyone had all he could eat; at least there was one thing to be thankful for.

30th—'Tis the gift o' God to gi'e us to see ourselves as the camera sees us—at least so it would seem now that the proofs are coming back.

DECEMBER

4th—The Bible Institute opens today; for a few days now we will go to the Stone Church frequently.

7th—Gertrude and Helen are growing tired of their uninvited visitors.

12th—The Y. W. C. A. Christmas Bazaar was a success. Jim Weimer helped to dispose of the goods. What will he ever do with all that he purchased?

14th—The girls on the Council look worried; there are rumors around, but no person knows just what has happened.

16th—Half the school managed to get to State to see the big basket ball game. It was a great disappointment to everyone.

18th—Henry had a damp reception, but then as Eddie told him, he brought it all down upon himself.

19th—Everyone departs for a vacation. It's awful lonesome here.

NEW-ERA
CLASS
JUNIATA

JANUARY

5th—Everyone is displaying some new possession which has been acquired since the nineteenth. Many have come back with a pack of New Year resolutions.

7th—Mary and Ed. are kept busy receiving congratulations. It looks as though Pfrogner is not the only one who had the courage to go and do it.

8th—Miss North departed suddenly from our midst.

9th—The Girls' Glee Club visited the town of Hesston and some of the girls think that Mary has a fast man.

11th—Junior Varsity defeated Mt. Union.

19th—Mid-Years are upon us and there is quite a studious atmosphere around here.

23rd—Co-eds beat Indiana tonight, the Freshman couples appeared in full force for their restrictions went off at noon.

27th—The Seniors went on a sledding party. It will be a cold one.

28th—Dr. Newton talked in chapel and everyone liked him.

29th—"Tel" made a bet with "Nommie" over a month ago and he is still hoping that some day he can treat us all to some candy.

FEBRUARY

1st—Sophs are ambitious; today they elected Sam King as editor-in-chief of next year's annual.

3rd—It is lonesome around here without the girls. Why do Glee Clubs have to take trips?—Well, anyway, the mail man is kept busy.

4th—Pentz was given a Farewell Party—Gee! it is pretty nice to leave when one receives so much attention. Mrs. Roberts is kept busy with her soda.

5th—Newton Taylor sat in Dr. Craik's class half an hour before he discovered that he wasn't taking that course at all. We are wondering what the trouble was? Guilty, Heavy?

10th—Philadelphia College of Osteopathy received a decided setback by the Juniata Indians. The score was doubled, 45-22.

12th—The Thiel girls visited us. The men turned out in full numbers for the game. The visitors wore striking uniforms.

17th—Al Snyder isn't afraid to express his views in discussion group; he usually speaks from experience. The topic for discussion tonight was "Relation of men and women at Juniata."

19th—Clark apparently has a new girl; they can be seen at any hour of the day enjoying the Blue Moon's Peach de' Lice.

20th—There was a general exodus from the school tonight, Mrs. Roberts wished that she could be in two places at once because both Juniors and Sophs invited her to go on a sledding party. The Freshmen borrowed the Soph's sled, though no offense was intended, it was just class spirit.

22nd—Washington's birthday had no effect—instead of ice cream they gave us SOUP.

27th—The club rooms are deserted—there must be a good movie down town.—Oh, my mistake; just look in the chapel.

THE SOPHOMORE TEAM

MARCH

2nd—Vernon nearly went to sleep in Logic class, but Dr. Van Ormer caught him on the slip.

3rd—Negative team out-talked Susquehanna; women's team is now out of favor.

5th—In spite of existing conditions Temple received a defeat—Juniata girls can't be beat.

6th—Doris made a handsome farmer lad, but we didn't see her bend over all evening.

8th—Cool has decided to quit rope jumping—he brought down the plaster in Students at six A. M.

10th—The Unholy three of third Oneida held a midnight party in their harem and second Oneidans suffer from headache and shock.

17th—St. Patrick receives due honor from the Juniata family; drums were in evidence.

19th—Our debate girls showed Pitt what the College on the Hill can do.

20th—Anne and Mable cleaned house; everybody had to get out on Second Oneida.

21st—Mary Grove and Wagner, Doris and Arthur are doing their bit to swell the Sunday three o'clock procession, which by the way, is increasing steadily.

25th—"Sparkle" suffers from "rumatics". It is fun being carried upstairs by some handsome youth though, most anyone would be willing to get sick for that.

26th—Home Ec. girls try out the adage that the way to a man's heart is through his stomach. We are waiting to see what the result will be with Dr. Norman and Prof. Yoder.

28th—Bill is flushed and can buy Mary lollypops and just lots of things. It must be great to have so much information—all in your head, too.

30th—Pat takes his children for a run around the loop and they came back singing their Sunbeam Song.

APRIL

1st—"Cas" does some April fooling (I daren't tell more about it). Everybody departs for the Easter vacation.

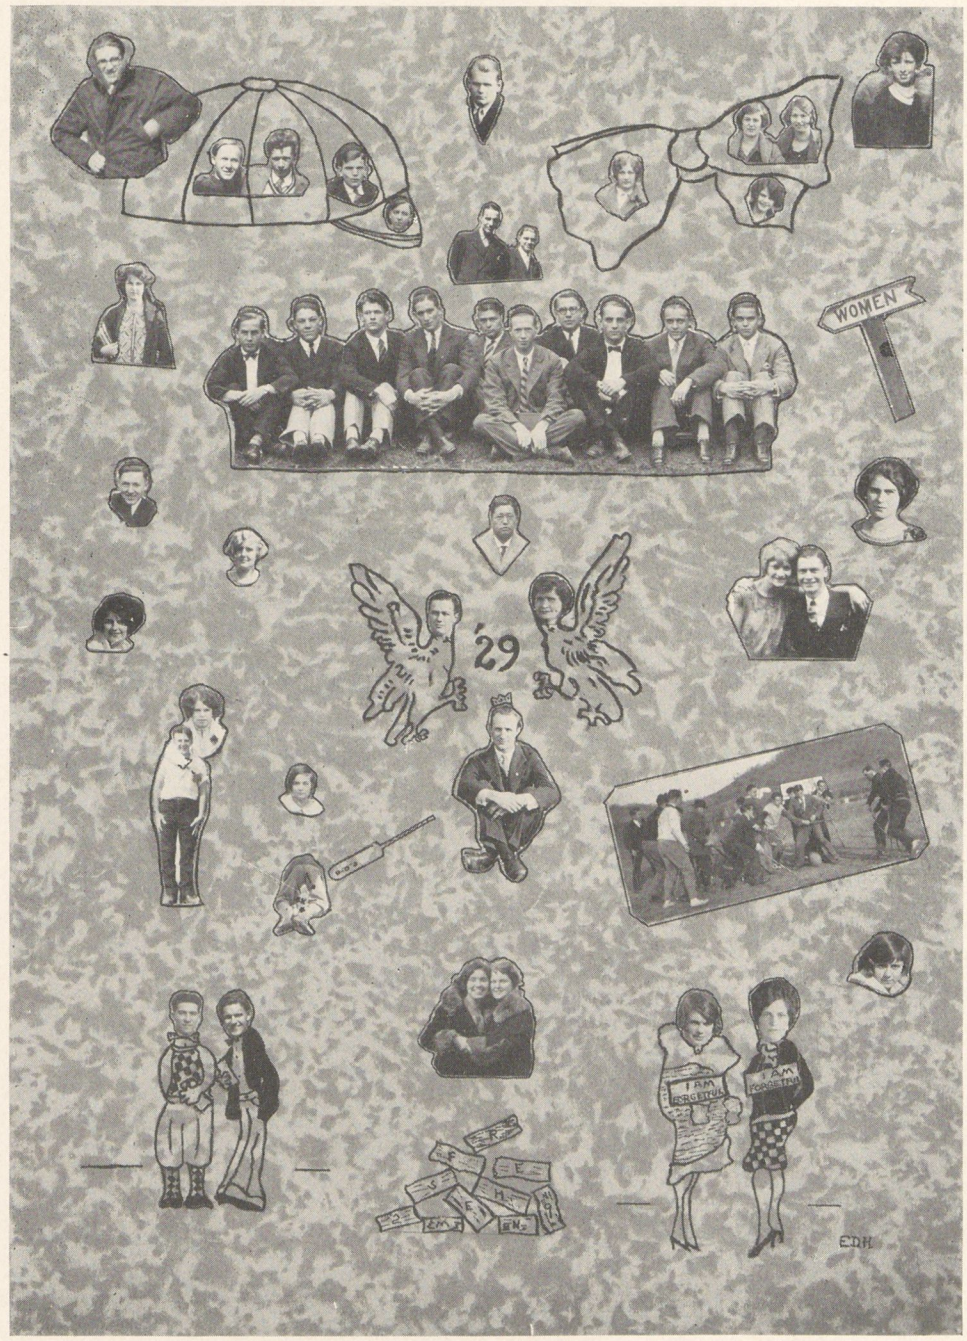

6th—Activities are resumed again; there is a general epidemic of sleepiness around. We have heard that Clark has changed the place of his pictures again.

7th—Spring fever is prevalent. Sara Bell visited the college for a few hours.

9th—Morris won the Diehm contest and Miss Hortense Neilson read the "Doll's House". Altogether it was a big evening.

11th—The beautiful weather brought forth all the new Easter bonnets and other finery. There is really a distinction in wearing one's old clothes (particularly when one has no new ones).

17th—All the big guns go off; this has certainly been a day to be remembered. There were many familiar faces on campus. Now we all look forward to Commencement and its celebration.

THE RIVAL

You have often heard of the One Hoss Shay
And how it tumbled apart in a day
But greater than that is the Tunerville
That carries the crowd to College Hill.
Our fathers rode in it long before
Which accounts for the backs that have long been sore
And many fathers we have heard say
That the car was then as it is today;
The tracks were bent and the wheels worn
The seats were rough and the leather torn
The paint was cracked and the boards all squeaked
The windows rattled and the old roof leaked,
But with all the trouble it has made its way
And still competes in the modern day
If the car doesn't age in time to come
Anymore than it has, it will always run.
Our great grandchildren will mourn that day
When the car follows suit with the One Hoss Shay.

Of your good pancakes please give me some more.
Take from before me the fish eggs and gue;
Relieve my poor stomach of aged eggs too,
Over my diet your loving watch keep,
Give me good eats Mother, give me good eats.

Backward, turn backward, O time in your flight,
Give me good eats again just for tonight,
Mother come back with your lunches of yore,
No more strong stew for me anymore;
I will take lunches prepared with great care
That will not make me old and bring gray in my hair,
My overworked stomach is now in your keep;
Give me good eats, Mother, give me good eats.

Backward, turn backward, O time in your flight,
Give me good eats again just for tonight.
Mother come back with your dinners of yore,
Don't give me tough beef or I will get sore,
I will take Swiss steak, then, if you please,
Some good sweet potatoes, a salad of lettuce and cheese.
Over my slumbers then dreams will not play;
Give me good eats, Mother, just for a day.

A COMBINE

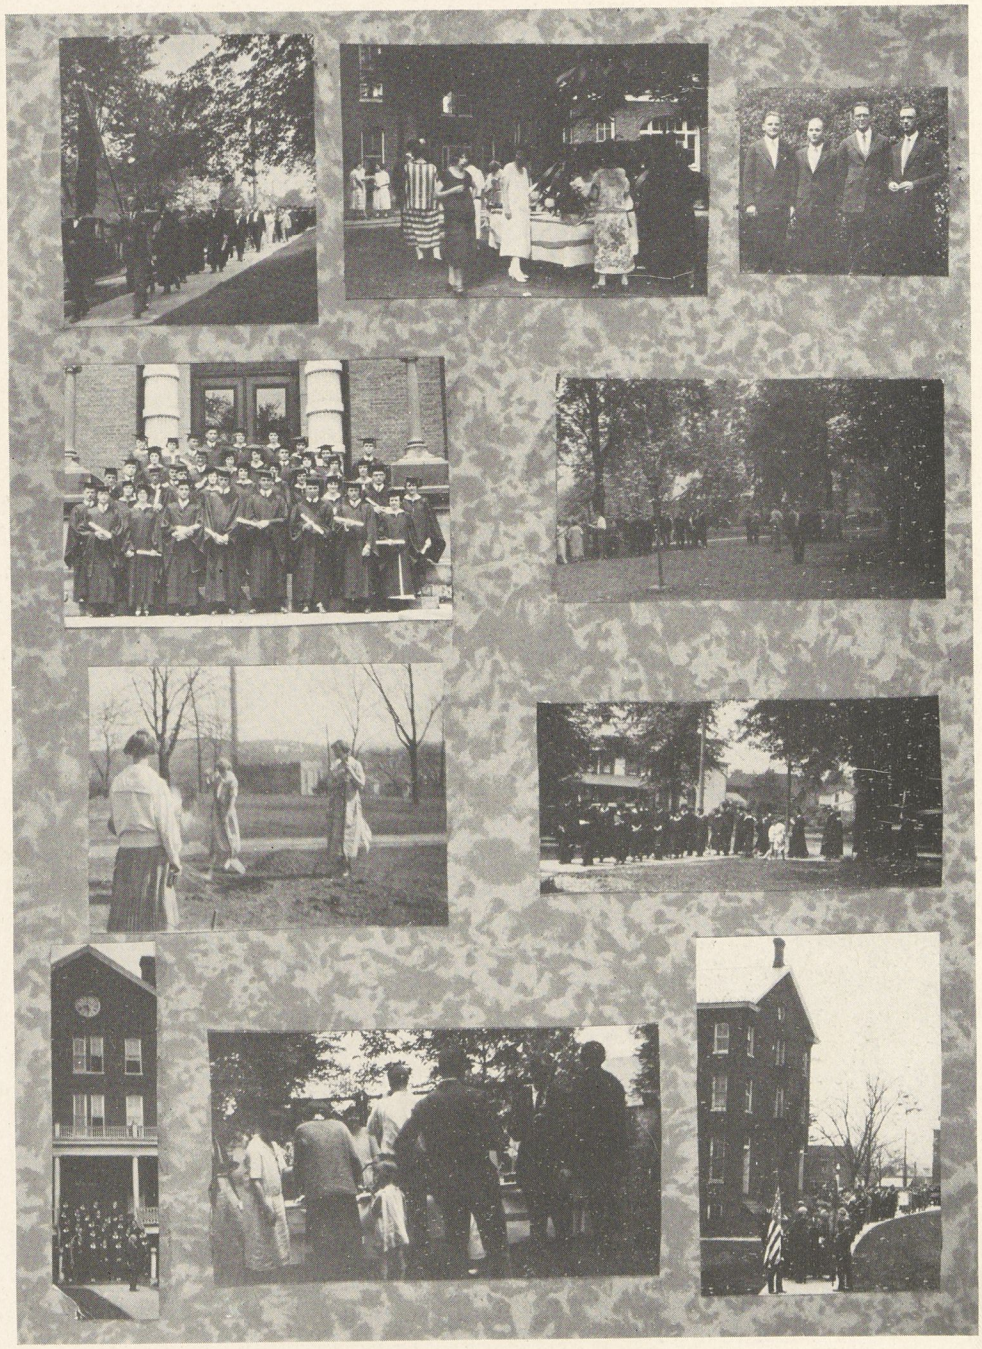

When the Blue Moon and Skipper
Make a combination,
Will it be called a monopoly
And a curse to the whole darned nation?

TRUE LOVE NEVER DID RUN SMOOTH

A co-ed school is a garden spot
Of all that's known as love
No greater joy can e'er be found
Except in the land above.

Now Shakespeare cites us Romeo
And his love for Juliet
But that was only puppy love
Compared with our duets.

Yes, Lochinvar, he braved the storm
To win his lady fair
But with the things we have to do
His deed cannot compare.

From Round Top to the station far
We're shadowed night and day
Just one misstep on the lover's part
And he goes home to stay.

The Council spies the whole day thru
The Dean does much the same
The watchman works the evening trick
They all write down our name.

We have to win our women
While the whole world says thumbs down
Tho our deeds are not recorded
More than Knighthood we're renouned.

"52"

They chased out of "52",
Out into the open—
But the cases are not less few
As many had been hopin'.

THE CLOCK

Weist—"What made the clock stop?"

Weimer—"Boy, you would have stopped too, if you had seen that co-ed."

DISAPPOINTMENT

Freshman Girl on duty—"Can I do anything for you?"

Jim Forsythe—"Sorry, but I have a date."

NEVER CAN TELL

Wally (in reception room)—"Waiting for someone?"

Grove—"I don't know yet."

SPEAKING OF MATCHES

Juniata quite unconsciously advertises several well known kinds of matches. First there is the Safety Match. This kind take no chances and light up only when struck on the regular night out permission and after luncheon and dinner in the "Designated season". When they are middle aged she will be the president of the Purity League and he the Chairman of the Anti-Swearing Association.

Then there is the well known Diamond Match. This is the kind where the fellow thinks that he just has to propose the first year, and of course she accepts, that's where the diamond comes in. When they are middle aged he has just about given up ever being able to catch up with the bills which she is eternally accumulating for him.

We must not forget the paper match—the kind, you know, which fires up suddenly but doesn't last long. It usually requires at least a half dozen to see an individual safely out of college—and then—well we'd better not say anything more about this kind.

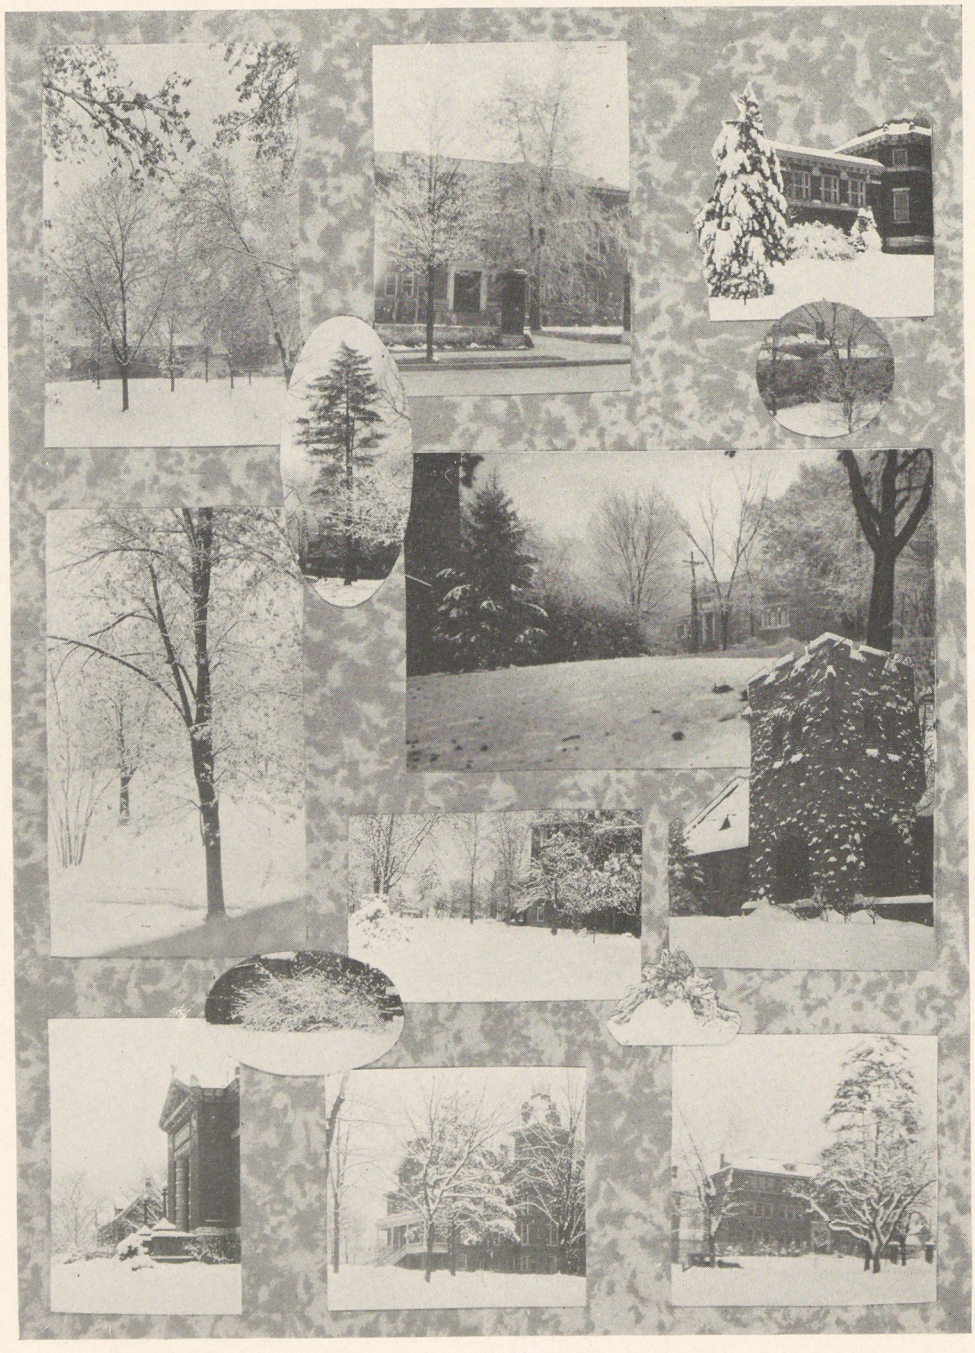

Last, but not least, there is that regular brand of match which everyone is acquainted with. This kind starts in the Freshman year and terminates about five years later in a perfectly conventional and ordinary marriage.

TO JUNIATA

To Juniata, College dear,
In praise we raise our song,
The place of loyal hearts and cheer,
Which we have loved so long.
We love the pathways to and fro,
The classrooms and the halls;
We'll ne'er forget, tho far we go,
The days within her walls.

Oh stars which in the heavens shine,
Oh swiftly soaring moon,
Shed forth thy glorious light divine
To pierce the azure gloom
And though thy blessings you distill,
O'er many climes and lands,
Bestow thy choicest on the Hill,
Where Juniata stands.

And when the day is almost done,
The sun in western skies,
The memories of days now gone,
Will light our dimming eyes.
And when the stars' faint twinkling rays,
Do beckon us above,
E'en then with fleeting breath we'll praise
The J. C. that we love.

With sincere thanks the Staff acknowledges the kindness of those who helped in the building of this volume

JUNIATA COLLEGE

The Beginning of Success

SUCCESS frequently dates from the time a Savings Account, backed with a firm and worthy purpose, is opened.

Don't forget that anything good, anything worth having, is worth working and striving for, and this is true of saving money with a useful purpose in view. Success in life depends largely upon the proper provision made NOW.

We shall be glad to help you.

Skeezix

COPYRIGHTED U.S. PAT. OFF.

OUTGROWN BEFORE OUTWORN

To Meet the Most Exacting Taste—A Variety of Styles and Color Combinations; A Full Assortment of Sizes.

For dress or play—*Skeezix* is a shoe that gives the utmost satisfaction. Happy, healthy children wear them, little feet are never cramped, for *Skeezix* shoes are built roomily, with plenty of "breathing space."

Come in and examine them! Notice the character of this shoe, the workmanship, the leather, the stitching, the *flexible sole*, the Puritan welt—all of which combine to produce a stylish, comfortable, durable shoe—yet the price is low because of quantity production.

These shoes are in great demand by mothers who see in *Skeezix* the solution to their children's shoe problems.

Many styles, handsome colors and color combinations.

This Store Has Always Been Regarded As a Friend of Juniata.

It was started in Huntingdon about the time Juniata was founded, and has kept pace with the College because it has been operated on much the same plan. Its object has been to serve the public, rather than to have money-making as its chief reason for existence.

Consequently, it has prospered much as Juniata has, in an economical, consistent manner.

Today,

it offers to Juniata Students and their friends, a safe, reliable place to buy Dry Goods, China, Women's and Children's Wearing Apparel, Carpets, and many of the things which go to make up a first class Department Store of the time.

What College Graduates Value at Bethany:

The central location, in the midst of the thought currents of the entire church. —*A Blue Ridge Graduate.*

The well-trained, God fearing teachers as a constant urge to careful training and deeper consecration.
—*A Bridgewater Graduate.*

A center for wide information on present day problems and needs.
—*An Elizabethtown Graduate.*

Its principles and methods, promoting thoroughness, originality and Spirit guidance in Bible study. —*A Juniata Graduate.*

The association and fellowship with present and future leaders of our church. —*A LaVerne Graduate.*

The opportunity afforded for engaging in practical Christian work in the city. —*A McPherson Graduate.*

The open-mindedness of the faculty and student body in the first-hand treatment of modern thought. —*A Manchester Graduate.*

The high standard of scholarship maintained in all Seminary courses.
—*A Mount Morris Graduate.*
